To the board of supervisors: My name is Scott Kastning and I own the property at which adjoins Rod corvingtons property and is located across the street from the proposed cell tower. I have a list of concerns for you to please consider regarding putting a tower on this site Our road is private and the homeowners are responsible for maintaining it and we also have a bridge that I am concerned about with all the heavy equipment that would be going across it could damage it. We only have one way in and out and it is across that bridge.
Possible health risk issues which I

To the board of supervisors:

My name is Scott Kastning and I own the property at _____ which adjoins Rod corvingtons property and is located across the street from the proposed cell tower.

I have a list of concerns for you to please consider regarding putting a tower on this site

- 1- Our road is private and the homeowners are responsible for maintaining it and we also have a bridge that I am concerned about with all the heavy equipment that would be going across it could damage it. We only have one way in and out and it is across that bridge.
- 2- Possible health risk issues which I am sure you are all aware of.
- 3- Property values can be negatively affected because most people don't want to live next cell towers and high voltage lines. I have talked to several realtors in this area and that is a concern when they are listing and selling property.
- 4- A 110 foot tower up on top of that property will be an eyesore even if it is disguised as a tree.it is still very obvious that it is a cell tower.
- 5- I feel that it is a lose lose situation for the surrounding neighbors and a win win for the owners of the tower. There is no benefit to the neighborhood.

I understand that the board has a job to do and decisions to make but I would ask you to please consider that if this was a issue in your backyard would yo be ok with it.

Thankyou for taking all of our concerns under advisement and addressing the issues.

Scott Kastning
