U. BUY AMERICA BUILD AMERICA. Recipients of an award of Federal financial assistance from a program for infrastructure are hereby notified that none of the funds provided under this award may be used for an infrastructure project unless:

(1) All iron and steel used in the project are produced in the United States—this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;

(2) All manufactured products used in the project are produced in the United States— this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard that meets or exceeds this standard has been established under applicable law or regulation for determining the minimum amount of domestic content of the manufactured product; and

(3) All construction materials are manufactured in the United States—this means that all manufacturing processes for the construction material occurred in the United States. The construction material standards are listed below.

Incorporation into an infrastructure project. The Buy America Preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America Preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project, but are not an integral part of the structure or permanently affixed to the infrastructure project.

Categorization of articles, materials, and supplies. An article, material, or supply should only be classified into one of the following categories: (i) Iron or steel products; (ii) Manufactured products; (iii) Construction materials; or (iv) Section 70917(c) materials. An article, material, or supply should not be considered to fall into multiple categories. In some cases, an article, material, or supply may not fall under any of the categories listed in this paragraph. The classification of an article, material, or supply as falling into one of the categories listed in this paragraph must be made based on its status at the time it is brought to the work site for incorporation into an infrastructure project. In general, the work site is the location of the infrastructure project at which the iron, steel, manufactured products, and construction materials will be incorporated.

Application of the Buy America Preference by category. An article, material, or supply incorporated into an infrastructure project must meet the Buy America Preference for only the single category in which it is classified.

Determining the cost of components for manufactured products. In determining whether the cost of components for manufactured products is greater than 55 percent of the total cost of all components, use the following instructions:

- (a) For components purchased by the manufacturer, the acquisition cost, including transportation costs to the place of incorporation into the manufactured product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or
- (b) For components manufactured by the manufacturer, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (a), plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the manufactured product.

Construction material standards. The Buy America Preference applies to the following construction materials incorporated into infrastructure projects. Each construction material is followed by a standard for the material to be considered “produced in the United States.” Except as specifically provided, only a single standard should be applied to a single construction material.

- (1) Non-ferrous metals. All manufacturing processes, from initial smelting or melting through final shaping, coating, and assembly, occurred in the United States.
- (2) Plastic and polymer-based products. All manufacturing processes, from initial combination of constituent plastic or polymer-based inputs, or, where applicable, constituent composite materials, until the item is in its final form, occurred in the United States.
- (3) Glass. All manufacturing processes, from initial batching and melting of raw materials through annealing, cooling, and cutting, occurred in the United States.
- (4) Fiber optic cable (including drop cable). All manufacturing processes, from the initial ribboning (if applicable), through buffering, fiber stranding and jacketing, occurred in the United States. All manufacturing processes also include the standards for glass and optical fiber, but not for non-ferrous metals, plastic and polymer-based products, or any others.

(5) Optical fiber. All manufacturing processes, from the initial preform fabrication stage through the completion of the draw, occurred in the United States.

(6) Lumber. All manufacturing processes, from initial debarking through treatment and planning, occurred in the United States.

(7) Drywall. All manufacturing processes, from initial blending of mined or synthetic gypsum plaster and additives through cutting and drying of sandwiched panels, occurred in the United States.

(8) Engineered wood. All manufacturing processes from the initial combination of constituent materials until the wood product is in its final form, occurred in the United States.

Waivers. When necessary, recipients may apply for, and the agency may grant, a waiver from these requirements. The agency should notify the recipient for information on the process for requesting a waiver from these requirements.

When the Federal agency has made a determination that one of the following exceptions applies, the awarding official may waive the application of the Buy America Preference in any case in which the agency determines that:

- (1) applying the Buy America Preference would be inconsistent with the public interest;
- (2) the types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities or of a satisfactory quality; or
- (3) the inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent.

A request to waive the application of the Buy America Preference must be in writing. The agency will provide instructions on the format, contents, and supporting materials required for any waiver request. Waiver requests are subject to public comment periods of no less than 15 days and must be reviewed by the Made in America Office.

There may be instances where an award qualifies, in whole or in part, for an existing waiver described at [USDA Buy America Waivers for Federal Financial Assistance | USDA](#).

Definitions

“Buy America Preference” means the “domestic content procurement preference” set forth in section 70914 of the Build America, Buy America Act, which requires the head of each Federal agency to ensure that none of the funds made available for a Federal award for an infrastructure project may be obligated unless all of the iron, steel, manufactured products, and construction materials incorporated into the project are produced in the United States.

“Construction materials” means articles, materials, or supplies that consist of only one of the items listed in paragraph (1) of this definition, except as provided in paragraph (2) of this definition. To the extent one of the items listed in paragraph (1) contains as inputs other items listed in paragraph (1), it is nonetheless a construction material.

(1) The listed items are:

- (i) Non-ferrous metals;
- (ii) Plastic and polymer-based products (including polyvinylchloride, composite building materials, and polymers used in fiber optic cables);
- (iii) Glass (including optic glass);
- (iv) Fiber optic cable (including drop cable);
- (v) Optical fiber;
- (vi) Lumber;
- (vii) Engineered wood; and
- (viii) Drywall.

(2) Minor additions of articles, materials, supplies, or binding agents to a construction material do not change the categorization of the construction material.

“Infrastructure” means public infrastructure projects in the United States, which includes, at a minimum, the structures, facilities, and equipment for roads, highways, and bridges; public transportation; dams, ports, harbors, and other maritime facilities; intercity passenger and freight railroads; freight and intermodal facilities; airports; water systems, including drinking water and wastewater systems; electrical transmission facilities and systems; utilities; broadband infrastructure; and buildings and real property; and structures, facilities, and equipment that generate, transport, and distribute energy including electric vehicle (EV) charging.

“Infrastructure project” means any activity related to the construction, alteration, maintenance, or repair of infrastructure in the United States regardless of whether

infrastructure is the primary purpose of the project. See also paragraphs (c) and (d) of 2 CFR 184.4.

“Iron or steel products” means articles, materials, or supplies that consist wholly or predominantly of iron or steel or a combination of both.

V. TERMINATION BY MUTUAL AGREEMENT. This Agreement may be terminated, in whole or part, as follows:

- When the Forest Service and the Cooperator agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated.

- By 30 days written notification by either party, setting forth the reasons for termination, effective date, and in the case of partial termination, the portion to be terminated. If the Forest Service decides that the remaining portion of the Agreement must not accomplish the purpose for which the Agreement was made, the Forest Service may terminate the agreement upon 30 days written notice in its entirety.

Upon termination of an Agreement, the Cooperator shall not incur any new obligations for the terminated portion of the Agreement after the effective date, and shall cancel as many outstanding obligations as possible. The Forest Service shall allow full credit to the Cooperator for the Forest Service share of obligations that cannot be canceled and were properly incurred by the Cooperator up to the effective date of the termination. Excess funds shall be refunded within 60 days after the effective date of termination.

W. DISPUTES.

1. Any dispute under this agreement must be decided by the Forest Service Signatory Official. The Signatory Official shall furnish the Cooperator a written copy of the decision.
2. Decisions of the Forest Service Signatory Official shall be final unless, within 30 days of receipt of the decision of the Signatory Official, the Cooperator appeals the decision to Forest Service's Director, Acquisition Management (AQM). Any appeal made under this provision shall be in writing and addressed to the Director, AQM, USDA, Forest Service, Washington, DC 20024. A copy of the appeal shall be concurrently furnished to the Cooperator.
3. In order to facilitate review on the record by the Director, AQM, the Cooperator shall be given an opportunity to submit written evidence in support of its appeal. No hearing will be provided.
4. A decision under this provision by the Director, AQM is final.

5. The final decision by the Director, AQM does not preclude the Cooperator from pursuing remedies available under the law.

- X. DEBARMENT AND SUSPENSION. The Cooperator shall immediately inform the Forest Service if they or any of their principals are presently excluded, debarred, or suspended from entering into covered transactions with the federal government according to the terms of 2 CFR Part 180. Additionally, should the Cooperator or any of their principals receive a transmittal letter or other official federal notice of debarment or suspension, then they shall notify the Forest Service without undue delay. This applies whether the exclusion, debarment, or suspension is voluntary or involuntary. The Cooperator shall adhere to 2 CFR Part 180 Subpart C in regards to review of sub-Cooperators or contracts for debarment and suspension.

All subrecipients and contractors must complete the form AD-1048, Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion, Lower Tier Covered Transactions. Blank forms are available electronically. Completed forms must be kept on file with the primary Cooperator.

- Y. AGREEMENT CLOSEOUT. Within 90 days after expiration or notice of termination the parties shall close out the agreement.

Any unobligated balance of cash advanced to the Cooperator or any unspent program income must be immediately refunded to the Forest Service, including any interest earned in accordance with 2 CFR 200.345.

Within a maximum of 90 days following the date of expiration or termination of this Agreement, all financial performance and related reports required by the terms of the agreement must be submitted to the Forest Service by the Cooperator.

If this agreement is closed out without audit, the Forest Service reserves the right to disallow and recover an appropriate amount after fully considering any recommended disallowances resulting from an audit which may be conducted later.

- Z. MODIFICATION. Modifications within the scope of this Agreement must be made by mutual consent of the parties, by the issuance of a written modification signed and dated by all properly authorized, signatory officials, prior to any changes being performed. Requests for modification should be made in writing, at least 30, 60, or 90 days prior to implementation of the requested change. The Forest Service is not obligated to fund any changes not properly approved in advance.

- AA. PERIOD OF PERFORMANCE. This agreement is executed as of the date of the Forest Service signatory official signature.

The start date of this award is the date of the Forest Service signatory official signature. pre-award costs are authorized pursuant to 2 CFR 200.458. (*Use when pre-award costs are authorized*)

The end date, or expiration date is **December 31st, 2033**. This instrument may be extended by a properly executed modification.

WORKSHEET FOR

FS Non-Cash Contribution Cost Analysis, Column (a)

Use this worksheet to perform the cost analysis that supports the lump sum figures provided in the matrix. NOTE: This worksheet auto populates the relevant and applicable matrix cells.

Cost element sections may be deleted or lines may be hidden, if not applicable. Line items may be added or deleted as needed. The Standard Calculation sections provide a standardized formula for determining a line item's cost, e.g. cost/day x # of days=total, where the total is calculated automatically. The Non-Standard Calculation sections provide a write-in area for line items that require a calculation formula that is other than the standardized formulas, e.g. instead of salaries being calculated by cost/day x # of days, costs may be calculated simply by a contracted value that is not dependent on days worked, such as 1 employee x \$1,200/contract= \$1,200. Be sure to review your calculations when entering in a Non-Standard Calculation, and provide a brief explanation of units used to make calculation, e.g. '1 month contract,' on a line below the figures.

APPENDIX A SCOPE OF WORK

GENERAL PROJECT DESCRIPTION

The County and Forest Service are entering into this agreement to fund cooperative efforts to perform forest, rangeland, and watershed restoration services to treat insect and disease infected trees; activities to reduce hazardous fuels; and any other activities to restore or improve forest, rangeland, and watershed health. Funds provided under this agreement will be utilized to support Good Neighbor Authority project planning and implementation within Nevada County. Funding will be used to meet existing programmatic, administrative, and managerial needs to implement service contracts and to manage and/or implement new projects as the County's GNA workload continues to increase.

DESCRIPTION OF PROJECT AREA

Good Neighbor Authority projects may take place throughout Nevada County, California. Funded projects can take place on and off National Forest System (NFS) lands but must primarily benefit NFS lands. Projects in wilderness areas, wilderness study areas, and lands where removal of vegetation is prohibited are excluded.

PROJECT SPECIFICS

I. Roadside Hazardous Fuel Reduction

The County and Forest will collaborate to reduce hazardous fuels along priority roads (Exhibit C) in preparation for Forest Service led controlled burning. The Forest Service will provide oversight and technical expertise as needed to ensure all work is completed in compliance with NEPA and Forest Service rules and regulations. The County and Forest Service will meet prior to each field season to identify additional priority roads for treatment, update technical requirements, and address any other critical issues. Parties will endeavor to complete an estimated 118 acres of treatment along priority roads during the 2024 and 2025 field seasons (spring- fall).

Forest Service and the County will collaborate to secure funding and complete treatment along additional priority road miles during the life of this agreement. Additional roads be classified as priorities based on ongoing planning efforts and coordination between the parties. Additionally, in areas where burning is not feasible the Forest Service and County will coordinate to use other strategies to maintain roadside fuel reduction as appropriate to maintain safe ingress and egress.

II. Forest Health - Project Development and Implementation

The County and Forest will collaborate to plan and implement additional forest health projects as part of a two-phase process.

Phase I - County and Forest Service will contribute staff time to project development and identify private/public funding opportunities aligned with the good neighbor authority for Good Neighbor Authority projects in Nevada County, CA.

Phase II – Additional statements of works maybe be added to this agreement via modification procedures.

III. Vegetation Management and Project Maintenance

The Forest and the County will collaborate on vegetation management efforts to reduce hazardous fuels and provide forest, rangeland, and watershed restoration services. Within the project area the county will use herbicide and manual removal for maintenance of fuel breaks, fuels treatment projects, treatment of invasive species, and other watershed restoration activities. The Forest and County will meet annually to identify priority sites.
