We can place the acknowledgment of the appointment on the 22<sup>nd</sup> as it is a consent item, these do not take up and additional presentation time and are typically non controversial.

[@Hardy Bullock](#) can you confirm the official start date of his appointment, this can be as soon as today and has no effect on the date of acknowledgment for the BOS meeting.

Thank you,

Claire Swanson

Hi Supervisor Bullock,

Thank you for confirming the approval to appoint Jim Dill to the Fish and Wildlife Commission. As the Fish and Wildlife commission is a direct appointment you can determine the effective date of the appointment. Once confirmed we will send the letter acknowledging the appointment directly to Jim and complete the back end tasks. The appointment will then be placed on an upcoming BOS meeting for acknowledgment from the Board.

Thank you,
