This provision is not intended to create any cause of action in favor of any third party against either Party or to enlarge in any way either Party's liability but is intended solely to provide for indemnification of the Indemnified Party from liability for damages, or injuries to third persons or property, arising from or in connection with Indemnifying Party's performance pursuant to this Contract. ARTICLE I

RESPONSIBILITIES OF JBI

Contractor agrees to perform the following services:

- A. JBI will review the policies and procedures used by the County to identify such additional Federal and other revenue sources, if any, as may be available to the County through participation in new programs or expansion of existing FFP. These efforts may include any of the following activities: advising the County of the reimbursement opportunity, preparing or enhancing the claim, preparing or assisting with submittal packages, preparing audit files, assisting the County with submittals, assisting the County should it be audited for claims on which the Company assisted, or other related federal revenue enhancement activities.

- B. JBI will continually monitor for new opportunities of funding. Whenever a new federal reimbursement opportunity arises, JBI may notify the County of that opportunity. JBI will strive to identify and optimize all federal reimbursement opportunities for the County; but is not obligated to make the County aware of all possible opportunities and shall have no liability for any omission to identify the same.

- C. JBI’s Title IV-E Scope of Service

JBI specializes in Title IV-E Claiming for juvenile departments and has a proven project design that addresses an initial audit phase, planning phase, implementation phase and on-going support for our clients. JBI will assist Nevada County in accurately compiling the Title IV-E Administrative Claims for quarters in which JBI is under contract with Nevada County. JBI will assist the County by completing the following steps:

- 1. JBI will implement a detailed auditing procedure;
- 2. JBI will implement a valid Web Based random moment time keeping system (RMS);
- 3. JBI’s staff will come on-site to train the County Probation staff on how to accurately complete the IV-E time study;
- 4. JBI’s staff and proprietary software will compute the claims and submit them to the County for approval;

5. JBI will monitor to ensure the County receives the appropriate Federal reimbursements;
6. JBI will provide periodic updates on what has been successfully claimed for each opportunity/reimbursement and
7. JBI will work closely with California Department of Social Services (CDSS) and County personnel to update claiming policies when needed.

IV-E Audit

JBI has developed a detailed auditing procedure. It is crucial to have a system of checks and balances in place with IV-E Administrative Claiming. JBI staff will use tools to ensure proper claiming and record retention while onsite with Nevada County. JBI will come onsite to perform the detailed reviews of each piece of the Title IV-E Analysis.

Time Study

JBI has developed a versatile Web Based RMS time study that has been approved by CDSS. JBI, at the county's request, will implement the Web Based RMS. The time study is continuous and the results are compiled quarterly. The sample universe is updated monthly due to turnover and unexpected staff changes. Updating the sample universe monthly allows all potential reimbursable staff access to the time study. JBI will ensure that County Time study participants are included based on daily activities, not solely based on job description.

JBI will be responsible for the operation of the RMS system. This responsibility includes, but is not limited to, the following:

- JBI will revise the existing County time codes to add probation specific examples;
- Each month, JBI will modify the participant list to ensure only the correct staff members are included in the time study;
- JBI's will train the County staff on how to accurately complete the IV-E time study;
- JBI will monitor to ensure the County accurately completes the web-based RMS on a daily basis;
- JBI will provide periodic updates on the areas of needed improvement as it relates to the time study codes;
- JBI will compute the quarterly time study results and submit them to the Chief Probation Officer for approval;
- JBI will work with the CDSS personnel to update the web-based RMS policies when needed;
- Analyzing, editing, and summarizing the sample results and making the necessary allocations;
- Ensuring that the sample universe is updated monthly to include new hires and exclude terminations and transfers;
- JBI will provide a detailed training manual to all eligible County staff that participate in the quarterly time study;
- Provide a focal point where all RMS problems/questions can be submitted and resolved;
- RMS Training – JBI will provide on-site and web-based training on the Web Based RMS system that is utilized for documenting time/ activities related to Title IV-E Claiming;

- Code Training – JBI will provide on-site and web-based training on all Title IV-E Time Codes. JBI will provide a complete understanding of all Title IV-E Codes for the state of California. The JBI trainers will educate all participants so that they have a clear understanding on how to code daily activities;
- JBI also has a team of time study analysts whose primary focus is to review all time study moments received and confirm that they are coded correctly with the correct information within the allotted time frame and

JBI's Time Study Analysts will monitor the County's RMS activity on a daily basis. Each RMS Observation Moment that is answered by County Staff is reviewed by JBI's Time Study Analyst to ensure accuracy and validity.

Quarters for the Web-Based Time Study

The time study will be generated quarterly based off the federal fiscal quarters. Federal Claiming Periods for California:

- 1Q- July, August, September
- 2Q- October, November, December
- 3Q- January, February, March
- 4Q- April, May, June

Random Moment Set Up – Monthly

JBI will work with the County to determine what Juvenile Probation workers will participate in the RMS web based time study. Once JBI determines who is going to participate in the time study, the following data will need to be collected from the County:

- State holidays
- Employee's email address
- Employee's work schedule
- Employee's phone number and location
- Employee's supervisor
- Supervisor email address and phone number

Time Study Coordinator

JBI will act as the County's time study coordinator. On a monthly basis, JBI will be responsible for running the time study and the quality assurance process. As the time study coordinator, JBI is available via email correspondence and a toll free 800 number for the time study participants to contact with any time study questions or technical issues they are experiencing.

Position List

The positions identified as meeting the RMS sample population definition are maintained by JBI. The position list is reviewed and updated before each month based on information provided by the county. Positions that are vacant when the list is updated are not included.

Work Hours

The RMS samples each participant's individual work schedule they enter into their profile. A participant will not receive any RMS moments outside their designated work schedule. In addition, participants will not receive RMS moments during their designated lunch schedule they provided in their profile. Participants will not receive moments on county holidays.

Study Notification

Once the JBI time study coordinator verifies the sampling, the system will send the observation moment notification at the time of the actual observation moment. The participant will then fill out their moment according to the activity they were performing at that specific time and electronically submit the observation moment back to JBI for immediate quality assurance.

All original observation moments must be filled out within 72 hours from the time of the moment excluding days off, weekends and holidays. If the time study participant has not responded by midnight of the RMS moment, an email reminder will be generated and sent out through the JBI email application to the participant and their time study observer. A time study observer is a person who acts as a quality assurance person for time study purposes. They are trained on the time study process, as well as, the importance of participants answering all RMS moments in a timely manner

10% Quality Assurance Process

Every night if the observer has any quality assurance moments from the day, the JBI RMS automated system will generate an email to the observer letting them know of any quality assurance moments they need to complete. This email also includes any other "to do's" the observer needs to follow up on, such as any RMS moments their participants have from the previous day or any profiles pending that the observer has not approved.

RMS Reporting Features

JBI's Web Based RMS is capable of running various reports based off the RMS results. JBI's web-based RMS will provide the County with several report features. JBI uses these reports to determine if any one individual needs additional training, or if certain codes are getting used more than others are.

JBI's reports will aid in ensuring accuracy of coding as well as providing an at a glance view to ensure participants are simply coding their moments. At any given time, the County can check the status of each person in the study. This report summarizes each participant's activities for a particular study and then summarizes the entire study itself by code.

Quality Assurance Procedures

The JBI quality assurance process consists of two steps. JBI's Q1 staff will review the electronic data on a daily basis for the following information:

- Electronic Signature
- Date and time (for 72 hour compliance)
- Comment section included detailed activity description of what the time study participant was doing
- Appropriate sections all are all documented
- Codes checked correctly correspond with activity description
- If any of the above elements are not satisfied, the sample moment is sent back to the participant for a correction or further clarification. If clarification cannot be made, the moment will be considered invalid.
- The information JBI requires for the time study are the names of eligible participants along with their job titles, email addresses, phone numbers and core work hours.
- After Q1 decides the data is captured accurately, Q2 will then review the data for a second quality assurance process.

Time Study Training

After all the RMS information is entered into the JBI database, JBI will train and educate the County staff on what is required to participate in Title IV-E Administrative Claiming and JBI's RMS. Prior to the initial onset of the time study, all eligible participants will receive onsite training regarding the time study process and codes. The JBI trainer will focus on the following for the RMS training session:

- Time codes;
- Operation of the web system and
- Supervisor oversight with the RMS.

JBI will provide each participant with a training manual that includes the time study codes and process for navigating the RMS website. In addition to JBI providing training manuals, JBI also has a link on the RMS website where the participant can pull up the time codes electronically. JBI implemented this function so the participants have easy access to the time codes if their book is not available.

Candidates for Foster Care/Case Plan Training

In order for the County to claim preventive case management services a child must be considered a candidate for foster care. JBI utilizes the candidate for foster care guideline per the Child Welfare Policy Manual 8.1D. The County will not claim any reimbursable time under the RMS time study until a youth is determined to be a candidate for foster care and a case plan is developed.

JBI will help ensure that the County uses the most accurate case plan in order to fully document candidacy. JBI will review such documentation before any claims have been filed. JBI will help ensure that all juveniles who are on probation in the County have case plans and case plan reviews regardless of candidate status.

JBI will provide Nevada County with the “Candidates for Foster Care” training. JBI will train all appropriate County staff on completing a case plan and documenting candidacy as it relates to Title IV-E. The detailed training covers how to determine which delinquent youth are considered a candidate for foster care, the method of documenting candidacy and the frequency the federal government requires this documentation.

JBI will provide all participants with a training manual that includes how to document candidates for foster care, the appropriate tools necessary for verification of candidacy, and various samples of completed case plans.

JBI will assist with an assessment and case planning process that will be conducted to determine who is a candidate and who is not. The purpose of the assessment is to provide documentation of risk level and what areas the juvenile struggles with most in order to help the County develop the most beneficial case plan for youth and family. Once the assessment and case plan are completed, case management activities related to the implementation of the case plan begin.

After the County data is received, JBI will complete the IV-E Administrative claim. JBI will capture all direct and indirect costs allocable to the IV-E program for Federal Match. JBI will allocate costs within the County Juvenile Probation Department of those participating in the Random Moment Sampling.
