Contractor acknowledges that it customarily engages independently in the trade, occupation, or business as that involved in the work required herein. Further the Parties agree that Contractor shall perform the work required herein free from the control and direction of County, and that the nature of the work is outside the usual course of County's business. In performing the work required herein, Contractor shall not be entitled to any employment benefits, Workers' Compensation, or other programs afforded to County employees. Contractor shall hold County harmless and indemnify County against such claim by its agents or employees. County makes no representation as to the effect of this independent contractor relationship on Contractor's previously earned California Public Employees Retirement System ("CalPERS") retirement benefits, if any, and Contractor specifically assumes the responsibility for making such determination. Contractor shall be responsible for all reports and obligations including but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, workers' compensation and other applicable federal and state taxes.

10. **Assignment and Subcontracting** Except as specifically provided herein, the rights, responsibilities, duties and services to be performed under this Contract are personal to Contractor and may not be transferred, subcontracted, or assigned without the prior written consent of County. Contractor shall not substitute or replace any personnel for those specifically named herein or in its proposal without the prior written consent of County.

Contractor shall cause and require each transferee, subcontractor, and assignee to comply with the insurance provisions **and information technology security provisions** set forth herein, to the extent such insurance provisions are required of Contractor under this Contract. The Indemnifying Party agrees to investigate, handle, respond to, provide defense for, and defend any such claims, demand, or suit at the sole expense of the Indemnifying Party, using legal counsel approved in writing by Indemnified Party. Indemnifying Party also agrees to bear all other costs and expenses related thereto, even if the claim or claims alleged are groundless, false, or fraudulent. This provision is not intended to create any cause of action in favor of any third party against either Party or to enlarge in any way either Party's liability but is intended solely to provide for indemnification of the Indemnified Party from liability for damages, or injuries to third persons or property, arising from or in connection with Indemnifying Party's performance pursuant to this Contract. Recover Medical Group PC will provide these recovery services through the following programs:

- Outpatient Services (Exhibit A-1)
- Recovery Services (Exhibit A-2)
- Medication Assisted Treatment (MAT) Services (Exhibit A-3)
- MHSA Grant Funded Medication Assisted Treatment (MAT) Pilot (Exhibit A-4)

1) Contractor Responsibilities (applies to all programs listed above)

a. Services provided shall utilize Evidence-Based Practices (EBPs) and curricula throughout the various programs. The practices must have efficacy as referenced in literature and be identified as a best practice at the SAMHSA website (<http://www.samhsa.gov>).

i. Seeking Safety: Seeking Safety is a present-focused treatment for clients with a history of trauma and substance use, listed on SAMHSA’s national Registry of Evidenced-Based programs and Practices (NREPP). This modality is delivered by counselors or therapists in group and individual settings and was chosen due to the prevalence of prior trauma (including domestic violence) in our population. Seeking Safety focuses on coping skills and psychoeducation and has five key principles:

1. Safety as the overarching goal (help clients attain safety in their relationships, thinking, behavior, and emotions).
2. Integrated treatment of Post-Traumatic Stress Disorder, Substance Use & other addictive behaviors (smoking, excessive spending, gambling, pornography, etc.).
3. A focus on ideals to counteract the loss of ideals in both PTSD and substance use.
4. Four content areas: cognitive, behavioral, interpersonal, and care coordination.
5. Attention to clinician processes (helping clinicians work on countertransference, self-care, and other issues). Results from trials showed significant improvements in substance use (both alcohol and drug), trauma-related symptoms, suicide risk, suicidal thoughts, social adjustment, family functioning, problem solving, depression, cognitions about substance use, and didactic knowledge related to the treatment.

ii. Motivational Interviewing (MI): MI is an evidence-based strategy designed to address ambivalence to change. According to SAMHSA’s Center for Substance Abuse Treatment, “MI is a client-centered, directive method for enhancing intrinsic motivation to change (by exploring and resolving ambivalence) that has proven effective in helping clients clarify goals and commit to change.” MI can also be modified to meet the special circumstances of clients with co-occurring disorders (COD).

- iii. Cognitive Behavioral Therapy (CBT): CBT is a form of psychotherapy proven in numerous clinical trials to be effective for a wide variety of disorders. Therapists help clients overcome their difficulties by changing their thinking, behavior, and emotional responses. Outcomes include decreases in: Post-Traumatic Stress Disorder symptoms, self-blame, problem behaviors, and depression. CBT is a strategy used in group and individual sessions.
- iv. Family Team Meetings: Family Team meetings are modeled on Family Group Decision Making (FGDM), an approach recognized by the California Evidence Based Clearinghouse, that positions the “family group” as leaders in decision-making. FTMs are convened as needed, engaging informal and formal support, including counselors, therapists, social workers, MD’s, etc. along with identified social supports (family, friends, clergy, etc.). Through this process, the “family group” (the client, their families, their support networks, and community members) is given the opportunity to develop recovery plans. Since the “family group” is involved, the plans have a greater likelihood of being family-centered, reflective of the family group’s culture and strengths, and comprehensive. The intent of these plans is to resolve the issues endangering both clients’ and their family members’ health and wellbeing. This strengths-based practice is appropriate for mothers in recovery, many of whom have children in the Child Welfare System. The process emphasizes recovery capital by strengthening family support networks, increasing social connections, supporting effective community- based recovery support services, and respecting the client as an asset in her own recovery. This is important, both to increase attractiveness of the service and effectiveness as it fosters strength, self- worth, and capability in the individual’s own recovery process.
- v. Interactive Journaling (Change Companies): The Change Companies curricula are designed not only to enable programs to implement leading behavioral-change research, but to do so in a way that is accessible, meaningful, and motivational for the program participant. Interactive Journals deliver core behavior-change content combination with targeted questioning designed to engage participants in exploring risks, needs and skill deficits, as well as strengths, resources, and solutions to problem behaviors. Clients are provided a set of workbooks (up to 15 if authorized for 90 days) upon entry into the program which are split out for the duration of their program. They retain those completed when they are discharged from the program.
- vi. Managing Co-occurring Disorders Curriculum: This twelve-lesson format provides a focal point for specific treatment of adults with co-occurring disorders. The program utilizes 12 workbooks (20-50 pages) to offer a cognitive behavioral approach using reading, journaling, and discussion, all of which are delivered by the group facilitator using motivational interviewing. This also utilizes the Stages of Change to elicit change talk by the client in moving from pre-contemplation to maintenance of the disorders through participation in the program. The twelve core sessions include:
 - 1. Orientation
 - 2. Responsible Thinking
 - 3. My Individual Change Plan
 - 4. Values
 - 5. Substance Use Disorders
 - 6. Handling Difficult Emotions

7. Life skills
 8. Healthy Relationships
 9. Maintaining Positive Change

 - 6.2.2. Prevention, screening, assessment, treatment, or recovery services were not included in an individual treatment plan, or if the client signature was absent from the treatment plan.

1. Notification of Data Security Incident

For purposes of this section, “Data Security Incident” is defined as unauthorized access to the Contractor’s business and/or business systems by a third party, which access could potentially expose County data or systems to unauthorized access, disclosure, or misuse. In the event of a Data Security Incident, Contractor must notify County **in writing as soon as possible and no later than 48 hours after Contractor determines a Data Security Incident has occurred**. Notice should be made to all parties referenced in the “Notices” section of the Agreement. Notice must reference this contract number. Notice under this section must include the date of incident, Contractor’s systems and/or locations which were affected, and County services or data affected. The duty to notify under this section is broad, requiring disclosure whether any impact to County data is known at the time, to enable County to take immediate protective actions of its data and cloud environments.

Failure to notify under this section is a material breach, and County may immediately terminate the Agreement for failure to comply.

The Contractor will permit its personnel and contractors to access County of Nevada data remotely only as required to provide technical support. - 2.2 The Contractor must notify the County **in writing within 48 hours** of any location changes to Contractor’s data center(s) that will process or store County data. Notice should be made to all parties referenced in the “Notices” section of the Agreement.
