NEVADA COUNTY BOARD OF SUPERVISORS

Board Agenda Memo

MEETING DATE: June 13, 2017

TO: Board of Supervisors

FROM: **Rebecca Slade**

SUBJECT: Resolution approving execution of Amendment #1 to the renewal contract with Turning Point Community Programs, Inc. for the provision of Mental Health Services Act (MHSA) Respite Insight Center Services to increase the maximum contract price from \$508,489 to \$541,489 (an increase of \$33,000) and revise Exhibit "B" Schedule of Charges and Payments to reflect the increase in maximum price for the term of July 1, 2016 through June 30, 2017.

RECOMMENDATION: Approve the attached Resolution.

FUNDING: Contract services will be supported with SB (82) Triage Grant Funds awarded Behavioral Health from the Mental Health Oversight Accountability Commission (MHOAC), and department Mental Health Services Act (MHSA) Community Services and Support (CSS) dollars. A budget amendment is not necessary and there are no county general fund dollars required in the Agreement.

BACKGROUND:

Per Resolution 16-259, the Board of Supervisors approved the renewal contract with Turning Point Community Programs, Inc. to provide Mental Health Services Act (MHSA) Respite Insight Center services.

Per Resolution No. 14-137, the Board of Supervisors approved the Grant Agreement with the State Agency of the Mental Health Oversight Accountability Commission awarding Behavioral Health \$2,477,628 over a 3 ½ year period to increase the capacity for client assistance and services related to crisis intervention. Under this new Agreement, Turning Point Community Programs has developed and operated the Respite Insight Center which houses an ongoing caseload of four (4) qualified clients.

The Respite Insight Center is the product of the County and its stakeholders having identified a need to develop an alternative to inpatient hospitalization for individuals experiencing a mental health crisis. Over the past three years, stakeholders have advocated for the expansion of the County's crisis continuum of care to include the development of a respite care center where individuals can receive temporary housing and supportive counseling services. The County's receipt of SB 82 State funding, supplemented by MHSA CSS funds, were utilized to develop and implement a respite care center that has four (4) beds and operates 24 hours per day, 7 days per week (24/7). This center is peer-run, in coordination with clinical support and is called the Respite Insight Center.

Turning Point provides the facility and program staffing for this Center. Participants are offered an opportunity to utilize respite support up to 14 days. If individuals need additional time at the center, the Center team will document, consider requests, and may authorize additional days. The maximum length of stay is 28 days per admission. The participants are also linked to valuable community resources to support their recovery once they leave the Center. The target population served by this center are residents of Nevada County who are over the age of 18 years, have a mental illness, and as a result of the disorder the individual is at risk of needing a higher level of care, including possible placement in a facility such as a: psychiatric hospital, an Institute of Mental Disease (IMD), Mental Health Rehabilitation Center (MHRC), or Crisis Stabilization Unit, or the individual has recently been discharged from one of these placements, or is experiencing a first episode or re-emergence of a psychotic break.

It is recommended the Board approve this Amendment, as the Respite Insight Center offers a safe and supportive environment for persons at risk of needing mental health crisis services in a less restrictive environment than a hospital or Crisis Stabilization Unit as well as minimizing usage of inpatient hospitalization days, and decreasing clients' involvement with the justice system.

Item Initiated and Approved by: Rebecca Slade, MFT, Director of Behavioral Health
