FROM: Landon Beard, Chief Information Officer
SUBJECT: Resolution proclaiming October 2023 as Cybersecurity Awareness Month in Nevada County

FUNDING: N/A.

BACKGROUND:

Held every October since 2004, Cybersecurity Awareness Month is a collaborative effort between government and industry to ensure every American has the resources they need to stay safe and secure online while increasing national resilience against cyber threats. The Cybersecurity and Infrastructure Security Agency (CISA) and the National Cybersecurity Alliance (NCA) co-lead Cybersecurity Awareness Month.

The County takes cybersecurity very seriously and has completed many cyber security initiatives. Including conducting cybersecurity awareness training and phish testing for all its employees. Our employees play an important role in protecting the County's cybersecurity and sharing that knowledge with our residents.

By issuing this proclamation, the Nevada County Board of Supervisors will formally recognize the importance of cybersecurity awareness for all County staff as well as all residents.
