1. SR 20-3313 Resolution recognizing July 26, 2020 as the 30th anniversary of the signing of the Americans with Disabilities Act by President George H.W. Bush. (Ms. Ana Acton, Executive Director, FREED Center for Independent Living)	Ryan Eilmas	How can you support this Amendment yet support a measure that would try to enforce face masks without exceptions for people with disabilities? Please reconsider excluding them from mandatory face masks. Also remember you cannot ask a persons disability or proof.	Support

I respectfully ask that you vote no on this urgency ordinance for many reasons. Limited to 500 characters doesnâ€™t allow for 3 min of comment. In brief the fines that exist are debilitating enough. This ordinance is overreaching and excessive and sets a poor precedence. CDA does not need more tools but rather strong leadership and better use of what they already have on the books. Itâ€™s frustrating to see a pattern of increased fines and penalties rather than effective enforcement. Oppose

The "numbers" have been overstated in this version of corona virus. We need our county to get back to normal as soon as possible. Ordinances were not needed in other flu seasons and are not needed now. This is not politics, this is common sense; please do not over-react to this virus. Protect seniors and other vulnerable people and let the rest of the population get on with our lives.

It seems like decisions have been made based on a one-sided argument. You won't even LISTEN to arguments that go against the narrative. You believe we are simply "misinformed." After both reviewing the available studies on mask-wearing/efficacy/dangers of prolonged use and watching how the real world application is playing out - they offer little, if any, protection.

Governors action far exceeds State Constitutional authority - beyond 60 days before getting approval from State Legislature. If Board is feeling that we need to mask, great, but, lets send this back to the Governor & require him to get proper, authority, from the State Legislature. It is egregious & unfitting a leader to coerce through threat of not funding. Its a severe mistake to support this Order opening our county & tax money lost to litigation.

No CEQA documentation was prepared for this action. The Ordinance will create environmental, health and safety and economic impacts among others. For example, it has the potential to accelerate the decay of the downtown core areas of our cities of Truckee, Nevada City, and Grass Valley, and case law provides that this must be studied with an EIR. No emergency meeting the required definition exists to excuse compliance with CEQA. This Ordinance cannot be passed without CEQA compliance.

The severity of COVID in this county does not justify this Item's harshness. The executive orders issued by the governor are arbitrary and ambiguous and the Board should not implementing such harsh fines for noncompliance. 26. SR 20-3359 Douglas Coursey Governmental over-reaction Oppose
(Introduce/Waive further reading/Adopt) An statistically doesn't exist. It applies to non profits and other Commercial Enterprises. There is no exception for Charities or Churches.Local Enforcement Officers must enforce the Executive orders of the Governor, the Calif. Legislature, the Nevada Co.BOS and Nevada County's public Health Department..all layer on top of each other. The fines start at \$1,000 plus enforcement costs!!!...We've had ONE , just ONE Covid 19 Death in the County.

26. SR 20-3359 Katherine White If residents of Nevada County Oppose
(Introduce/Waive further reading/Adopt) An are not following the measures put in place by the County and State Officials then you need to consider why this is happening. Citizens are making the conscious decision to patronage these businesses. Excessive fines on struggling small businesses is wrong. You are joining with the angry fearful minority in their attacks of violence and vandalism. We as Americans should be protecting the rights of all not attacking the freedoms and livelihoods of those we oppose.

<p>26. SR 20-3359 (Introduce/Waive further reading/Adopt) An uncodified temporary Urgency Ordinance authorizing certain enforcement actions related to orders issued by the County Environmental Health Director, State and Local Public Health Officers, and the Governor of California regarding the novel coronavirus (COVID-19). (4/5 affirmative vote required)</p>	<p>spencer delling</p>	<p>SR 20-3359 would permit illegal and tyrannical measures in the name of "Covid-19 response/enforcement" such as imposition of high fines for businesses not deemed compliant with health officer recommendations. Health officers of Nevada County are neither elected officials nor legislators and were never intended to make public health recommendations that are enforced as law. Allowing SR 20-3359 to pass would kill businesses who are already struggling in Nevada County with fines.</p>	<p>Oppose</p>
