## New eComment for Nevada County Board of Supervisors June 9, 2020 meeting Agenda

Angela Henry submitted a new eComment.

Meeting: Nevada County Board of Supervisors June 9, 2020 meeting Agenda

Item: 13. SR 20-2949 Public hearing to consider the Nevada County Planning Commission's April 23, 2020, (4-0 Vote) recommendation to adopt an ordinance for amendments to Section L-II 3.4 of Chapter II Zoning Regulations and the addition of Section L-II 3.4.1 to Chapter II Zoning Regulations of the Land Use and Development Code to allow a limited number of backyard chickens in R1 and RA zoning districts. (Introduce/Waive further reading/Adopt) An Ordinance amending Section L-II 3.4, and adding Section L-II 3.4.1 regarding backyard chicken keeping, to the Nevada County Land Use and Development Code.

eComment: In my ongoing quest to minimize my carbon footprint and live a more sustainable and healthy life, I am asking the Nevada County to lift it's ban on raising chickens in zone R1. Three chickens would be enough to provide my family with fresh eggs. Chickens offer an enjoyable recreational activity that provides a healthy food source, high-quality fertilizer, fosters community building, and, with proper regulations, does not result in unsanitary or noisy conditions. Please lift this ban.

eComment: In these uncertain times, I believe it is especially important to have individual food sources.

eComment: Food insecurity is a major issue facing the country. Allowing 1-2 roosters on larger properties would make this food source truly sustainable. Here is the damage done by not allowing them: Destroying genetic diversity of the chicken stock; Killing animals needlessly who are no louder than a barking dog and could be kept as pets; overloading animal sanctuaries with roosters; Limiting REAL food security with a reproducible food Source; Limiting the increased benefits of eating fertilized eggs.
