**County of Nevada – Sheriff's Office**

**2016 Justice Assistance Grant**

**PROGRAM NARRATIVE – (Attachment 1)**

The Nevada County Sheriff's Office, like other local governments and law enforcement agencies in California, and particularly Rural Counties, continues to face significant funding difficulties. All revenue sources, such as sales taxes and, notably, property tax revenues declined with the National and, in particular, California's economy. While no longer declining, and in fact marginally improving, revenues are still significantly below previous levels, and are facing the pressure of increasing costs. Grants available from the State of California have been significantly reduced and are being eliminated. For FY 2016-17 the Nevada County Sheriff's Office will again see health care, retirement and insurance costs increase significantly, along with increasing technology related costs. These fiscal realities have left minimal funding available to upgrade existing equipment or acquire new technologies needed to maintain efficient and effective operations.

The Nevada County Sheriff's Office has a need to acquire additional in-car cameras for its patrol units. With the public desire for increased scrutiny in all patrol functions, in-car cameras are a critical part of both officer and public safety. With the use of JAG Grant Funds the program of placing cameras in all patrol vehicles will be completed by the end of the 2016-2017 Fiscal Year.

The plan for collecting the data to for performance measures will be to track the acquisition of the cameras, and installation progress. Completion of the objective will be measured by the verifying operation of the installed cameras.

The use of 2015 JAG funds towards the placing additional in-car cameras will allow the Nevada County Sheriff's Office to maintain an enhanced level of public and officer safety in carrying out our mission to "provide excellence in public service in partnership with our community"
