NEVADA COUNTY BOARD OF SUPERVISORS
Board Agenda Memo

MEETING DATE: December 12, 2017

TO: Board of Supervisors

FROM: **Rebecca Slade**

SUBJECT: Resolution approving execution of a Personal Services Contract with California Institute for Behavioral Health Solutions (CIBHS) for the provision of log-in access to use the electronic Behavioral Health Solutions (eBHS) web-based data system and implementation, training, and support activities for use of the Improvement and Innovation through Data (IITD) model in the maximum amount of \$61,100 for the term of July 1, 2017 through June 30, 2019.

RECOMMENDATION: Approve the attached Resolution.

FUNDING: Services are funded with Medi-Cal QA (Quality Assurance) funds and 1991 Realignment. The contract is within the department's FY 2017/18 budget, and there are no county general fund dollars required in the agreement.

BACKGROUND: California Institute for Behavioral Health Solutions (CIBHS) is a non-profit agency that helps health professionals, agencies and funders improve the lives of people with mental health and substance use challenges through policy, training, evaluation, technical assistance, and research.

CIBHS, in collaboration with *eCenter Research Inc.*, has developed electronic Behavioral Health Solutions (eBHS), a web-based data platform that offers the capacity for flexible, real-time reporting and querying to support individual, population, and system improvement and outcome tracking. In addition, the system meets HIPAA and 42CFR compliance standards. eBHS is designed to support counties and Community Based Organizations to implement standardized measures to assess program evaluation and outcome assessment.

Pursuant to this Agreement, CIBHS will provide log-in access to use the eBHS web-based data system and implementation, training, and support activities for use of the Improvement and Innovation through Data (IITD) model. IITD is a three-pronged approach created by CIBHS to assist county behavioral health systems' to collect, improve and analyze client data and to use it in a meaningful way for client improvement. IITD includes: (1) a uniquely flexible, web-based data system; (2) a robust implementation method; and (3) training on use of data in clinical practice. The IITD model will include pre-implementation planning, implementation supports, Teleconference Consultation, customized web-based data platform access, data collection, interpretation and user training.

The Department of Health Care Services (DHCS) requires treatment outcome reports from Mental Health Providers by utilizing an electronic data system. eBHS will make available the required reports for the Nevada County Behavioral Health Department to be in compliance with DHCS requirements.

It is recommended that the Board approve this Agreement as it provides a database solution to support the Nevada County Behavioral Health Department in collecting, storing, analyzing, and sharing data in order to assess the extent to which clients are progressing in their recovery and improving their health status.

Item Initiated and Approved by: Rebecca Slade, MFT, Behavioral Health Director
