NOW, THEREFORE, BE IT RESOLVED, that the Board of Supervisors for the County of Nevada hereby finds and determines:

1. That the proposed amendments to the General Plan are consistent with and furthers the goals, objectives, policies, and implementation measures of the General Plan and provisions of the Nevada County Land Use and Development Code Chapter II Zoning Regulations; and
2. That the proposed amendments will not be detrimental to the public interest, health, safety, convenience, or welfare of the County, because the site development standards of the County's Zoning Code will ensure future projects conform to applicable regulations to ensure that the sites will be compatible with surrounding development. In addition to site development standards, future project specific conditions and mitigation measures will ensure that adequate infrastructure, including sewer, water, access and emergency services will be available to serve the sites at the time of development; and
3. That the Project sites are physically suitable for the various proposed General Plan land use designations, in that the sites do not contain significant areas of excessively steep slopes or sensitive environmental resources, which cannot be avoided through appropriate site planning. The sites have good to adequate access to County maintained roads or can establish access to County maintained roads that will accommodate the anticipated future development of the various proposed primary uses; and
4. That the sites are physically suitable for the proposed land use designations, as reviewed by the Initial Study and Negative Declaration (EIS22-0014). The various designations are consistent with uses surrounding each of the various locations.

BE IT FURTHER RESOLVED that based on the foregoing findings, and the entire record before it, the Nevada County Board of Supervisors does hereby approve and adopt the text amendments to the Nevada County General Plan set forth in Exhibit "A".
