NEVADA COUNTY BOARD OF SUPERVISORS
Board Agenda Memo

MEETING DATE: November 14, 2017

TO: Board of Supervisors

FROM: **Mike Dent**

SUBJECT: Resolution approving execution of Amendment #2 to the Community Services Block Grant (CSBG) funded Contract with Interfaith Food Ministry (IFM) of Nevada County pertaining to increasing the maximum amount from \$75,260 to \$81,620 (an increase of \$6,360) for the term of July 1, 2016 through June 30, 2018 to increase the quantity and quality of high protein food products available to food insecure individuals.

RECOMMENDATION: Approve the attached Resolution.

FUNDING: Contract services are supported by available 2016 Federal Community Services Block Grant (CSBG) funding awarded to the County to support the priorities of County's approved Community Action Plan (CAP). A budget amendment is not necessary and there are no County General Fund dollars required in the Agreement.

BACKGROUND: Per Resolution No. 15-276, the Board of Supervisors approved the 2016/17 Nevada County Community Action Plan and authorized its submittal to the State Department of Community Services and Development (CSD). The County was subsequently awarded funds via the State CSBG funding Agreement.

The County in conjunction with the Adult and Family Services Commission (AFSC) issued a combined Request for Funding (RFF) for Community Services Block Grant (CSBG) and/or Community Initiative Fund (CIF) dollars to provide funding for community projects which support low income members of the community as identified in the CAP.

Per Resolution No. 16-299, the Board of Supervisors approved a personal services contract with Interfaith Food Ministry to provide services related to increasing the quantity and quality of high protein food products available to food insecure individuals, and which was subsequently amended per Resolution No. 17-046.

Interfaith Food Ministry will use funding to increase the quantity and quality of nutritious protein rich foods available to food insecure citizens of Nevada County as part of the *Hunger to Health*

Project. Interfaith Food Ministry (IFM) has been providing supplemental food as a 501 (c) (3) non-profit organization in Western Nevada County since 1987. Approximately, one in six Nevada County residents experiences hunger, and there are approximately 13,000 food insecure people in Western Nevada County. IFM's clients are a mix of single parents with hungry children, disabled, the under- and unemployed families experiencing temporary hardships and elderly people on fixed incomes. In 2013 IFM distributed 79,170 grocery bags feeding 58,399 individuals; approximately 28% were under 18 years of age and 62% adults and 10% seniors). IFM has available food for special client diets such as those requiring gluten free, sugar free for diabetes, and for clients who are homeless without typical kitchen appliances, food not requiring a range or oven to prepare the meals. What is harder to supply in sufficient quantities is nutritious, healthful high protein food products such as: meats, fresh dairy products, eggs, and other protein rich food sources. Protein is an especially important nutrient to provide low-income clients, as it often overlooked or passed over for less expensive food options. Protein is especially critical for those clients under the age of 18 for their brain development. The body uses protein to build and repair tissues. Protein is an important building block of bones, muscles, cartilage, skin, and blood. Unlike fat and carbohydrates, the body does not store protein, and therefore has no reservoir to draw on when it needs a new supply.

It is recommended that the Board approve this amendment as the additional funds will further support the nutritional needs identified in the 2016/2017 CAP by reducing food insecurity within the community.
