

RESOLUTION No. 24-075

OF THE BOARD OF SUPERVISORS OF THE COUNTY OF NEVADA

RESOLUTION AMENDING THE COUNTY OF NEVADA 2024 LEGISLATIVE PLATFORM AS ADOPTED BY RESOLUTION 24-030

WHEREAS, the Nevada County Board of Supervisors adopted its 2024 Legislative Platform January 9, 2024 via Resolution 24-030; and

WHEREAS, Resolution 24-030 directs the County Executive Officer to identify legislative positions and priority funding requests to support the inclusion of the Board's 2024 Board Priorities (herein referenced as Objectives) developed at the Board's Annual Workshop reflecting said priorities; and

WHEREAS, the Board of Supervisors held its annual workshop on January 17, 18, and 19, 2024, and provided direction to staff on its 2024 Board Objectives.

NOW, THEREFORE, BE IT HEREBY RESOLVED that the Nevada County Board of Supervisors adopts the attached amended 2024 Legislative Platform for guidance and use by all County staff and departments and legislative advocacy activity that incorporates the Board's 2024 Objectives.

PASSED AND ADOPTED by the Board of Supervisors of the County of Nevada at a special meeting of said Board, held on the 20th day of February 2024, by the following vote of said Board:

Ayes: Supervisors Heidi Hall, Edward C. Scofield, Lisa Swarthout,
Susan Hoek and Hardy Bullock.

Noes: None.

Absent: None.

Abstain: None.

Resolution 24-030 January 9, 2024
Amended Resolution 24-XXX February 20, 2024

Executive Summary

The Nevada County Legislative Platform provides an advocacy framework to support legislative and regulatory advocacy to ensure the sustainable delivery of core public services, advance top priority objectives of the County as adopted by the Board of Supervisors, and to solicit funding for infrastructure needs, capital projects, and other services and programs that support and promote the well-being of Nevada County residents and community. Annual updates to the Platform also facilitate proactive responses to top legislative priorities or regulatory positions within a given year.

2024 Key Legislative Positions

The 2024 Key Legislative Positions outlined below represent an overview of top legislative positions that reflect the Board's adopted priority objectives, applicable pursuits of the California Governor's Office, and pending or upcoming legislative threats and opportunities critical to the county.

Bay-Delta Water Quality Control Plan – Support regulatory actions that provide maximum local flexibility and secure local water rights and regional water security that mitigate impacts associated with a) water supplies for cities, rural communities, and farms; b) water supplies needed for fish habitat preservation and enhancement projects; c) water supplies needed for birds along the Pacific Flyway; d) the ability to generate clean, renewable hydropower; e) recreational facilities and opportunities; f) groundwater supplies; g) impacts on cold-water pools in upstream reservoirs that are needed to provide cold-water releases for salmon spawning and rearing habitats; conversely oppose regulatory action that results in large negative impacts on regional water flows including a 55 percent unimpaired flows approach.

Broadband – Advocate for legislation and rulemaking that removes bureaucratic hurdles and processes to the California Advocated Series Fund (CASF) program and for transparent, efficient and rural equitable implementation of the State's Middle-Mile Infrastructure Development project. Additionally, support efforts to advance the availability, affordability, digital equity, and reliability of broadband through open-access municipal internet infrastructure like Golden State Connect Authority.

CalAIM Implementation – Advocate for rulemaking to ensure efficient and effective delivery of Medi-Cal specialty mental health services and substance use disorder services that are coupled with clear transparent reimbursement funding mechanisms; conversely monitor and oppose initiatives that do not include funding mechanisms or place unfunded mandates on counties.

California Public Records Act – Oppose efforts to amend the California Public Records Act that impose significant cost on state and local agencies that jeopardize tax-payer dollars through extensive unreasonable standards that require significant cost for compliance and increase undo liability to public institutions.

Cannabis – Support legislation on cannabis activity that a) increases resources and support of enforcement on egregious operations; b) alleviates burdensome tax initiatives and duplicative or costly bureaucratic processes on legal cannabis businesses; c) supports effective cannabis enforcement on illegal cannabis operations; d) permits state-legal cannabis businesses to work with federal financial institutions; and e) oppose legislation that strips or removes local jurisdictional authority.

CARE Court Funding and Implementation – Advocate to secure adequate, flexible, and sustained funding across all impacted local agencies to support counties' efforts to implement the Community Assistance, Recovery, and Empowerment (CARE) Act and to amend existing law to ensure its successful implementation.

Disaster Reimbursement – Advocate for timely reimbursements associated with declared states of emergencies and subsequent recovery efforts, including green waste removal.

Farm Bill Reauthorization – Advocate for Farm Bill Reauthorization and the continuation of federal funds and programs that support and promote rural communities including key initiatives including, not limited to nutrition, workforce housing, federal forest management policy, wildfire protection, preparedness, and forest resiliency.

Forest Management & Green Waste Removal – Advocate for ongoing sustainable funding for wildfire mitigation projects and programs including direct funding allocations to the Office of Emergency Services and community partners.

Homelessness – Support policy initiatives and legislation that map out and address comprehensive systems to address homelessness that address the causes of homelessness, provide flexible funding for ongoing costs associated with providing services to unhoused residents and those at risk of homelessness, promote the development of adequate housing, and are in alignment with CSAC AT HOME Plan framework.

Housing – Support legislation to streamline development, increase funding for affordable housing development, and remove barriers to access such as increasing state income limits to keep pace with increases of wage rates and inflation over time to allow for affordable housing and service eligibility.

In-Home Support Services (IHSS) – Support advocacy efforts regarding California Department of Social Services analysis of moving IHSS collective bargaining responsibilities from individual counties to the state level; further oppose efforts that result in negative realignment impacts including from the lack of funding for an anticipated expansion of access to Medi-Cal beneficiaries.

Incompetent to Stand Trial (IST) – Advocate for legislative or regulatory changes that amend the State's Incompetent to Stand Trial (IST) Growth Cap that are reasonable and equitable based upon accurate and statically defensible methodologies. Amend the associated penalty program so that penalties are implemented in a more just way and high performing counties with low IST in the baseline FY2021 are not overly penalized for increased caseloads.

Mental Health Services Act (MHSA) Funding – Support legislative proposals that mitigate negative programmatic and/or fiscal impacts or potential unintended consequences to county human service departments from proposed changes to Mental Health Services Act (MHSA) or as amended to Behavioral Health Services Act (BHSA).

Organic Waste – Advocate for legislation and rulemaking for implementing of AB 1826 and SB 1383 that provides adequate resources for local governments to develop the necessary infrastructure to implement organics diversion programs, including eligibility of green waste material for procurement requirements.

Realignment – Oppose legislation that changes state Realignment agreements that strip local authority without the transfer of financial liability or without local representation from California State Association of Counties, Rural County Representatives of California or other applicable county association representation.

Recreation Infrastructure – Advocate for funding for recreational infrastructure development and ongoing resources to mitigate risks to public safety as a result of peak period visitation and tourism.

Recreation Public Land Resources and Management – Advocate for sustainable funding, resources, and staffing for state and federal public land managers and law enforcement to meet recreational service needs that includes Bureau of Land Management, United States Forest Service Tahoe National Forest, United States Army Corps of Engineers, and California Department of Parks and Recreation.

Residential and Commercial Wildfire Insurance – Advocate for legislation, regulatory actions or other innovations that provides greater consumer protection, access to, and transparent and affordable residential and commercial wildfire insurance that balance consumer protections and extreme risks faced by the insurance industry. Potential solutions should consider holistic approaches that account for immediate, intermediate, and long-term action with recommendations at the Federal, State, and local levels.

State Budget Deficit – Oppose legislation that results in budget cuts to county core services.

Sustainable Funding – Advocate for sustainable resources for ongoing programs and services and oppose efforts to establish county mandates or ongoing programs and services with one-time funding mechanisms.

Zero Emission Vehicle Rural Flexibility & Infrastructure – Support legislation that provides the necessary funding, regulatory flexibility, and promotes public-private coordination for local rural communities to fund, develop and maintain the necessary infrastructure for zero emission vehicles that balances economic development and public safety.

Projects List 2024

While not a comprehensive list of all county priority projects, this is a dynamic list of important projects that Nevada County should further through planning, advocacy, and funding. The icons below indicate if the project is in the conceptual or idea phase (light bulb), planning phase (pencil/ruler), or is ready for implementation (shovel).

Deer Creek Canyon Shaded Fuel Break and Related Projects in the Deer Creek Corridor

In close collaboration with community partners, including the Deer Creek Firewise Communities, the City of Nevada City, Fire Safe Council of Nevada County, Nevada Irrigation District (NID), the Yuba Watershed Institute, and others, support and advance projects to reduce fuel loads in the Deer Creek and Little Deer Creek watersheds.

Dog Bar Bridge Replacement

Provide a safe crossing over Bear River on Dog Bar Road, as the existing structure, which was built in the 1930s, is too narrow. The site is a popular recreation destination. Funding for the project was received from the California Department of Transportation and construction will remain a priority.

Eastern County and Regional Biomass Opportunities

Support regional coordination and efforts to advance the development of biomass facilities and related industries in eastern county and greater region that promote sustainable land management, mitigate risks of wildfire, and promote healthy forests.

Eastern County Snow Removal and Road Maintenance Equipment

The County has been renting various locations in eastern Nevada County to house snow removal and road maintenance equipment and is in need of a permanent facility that has electricity to charge equipment use. Additionally, space is needed to allow a resting area for road maintenance crews. This project will support emergency preparedness efforts by allowing transportation readiness.

Edwards Bridge Project

\$17 million

This historic bridge over the South Yuba River, at a popular recreation destination commonly referred to as “Edwards Crossing,” was built in 1904. The project would provide a safe permanent crossing over the South Yuba River on North Bloomfield Road, as the existing bridge is structurally deficient. Specifically, Nevada County is proposing a 2nd Alternative to build a new bridge 1,000’ upstream at a higher elevation and eliminate the existing hairpin turn on the south side of the river that currently prevents emergency vehicles from accessing the bridge during emergency and evacuation events. The proposed “Alternative 2” option is strongly preferred to simply rehabilitating the existing bridge (“Alternative 1”), with its Environmental Impact Review near completion on mid-2024.

Higgins Area Economic Development: Water/Sewer Project Funding

\$3.5 million

Construct water and sewer infrastructure that will serve multi-family residential neighborhoods in the Higgins area, creating capacity for much-needed housing. Planning has been completed, but easements still need to be secured in order to make the project shovel ready.

Combie Road Sidewalk/Bike Lane

\$2 million

This Higgins-area economic development, recreation and resilience project will construct a sidewalk and bike lane from State Highway 49 to Magnolia Road. This will support a growing community, connecting housing, schools, and services, while enhancing public safety and reducing vehicle trips.

 **Helipad Upgrades at Nevada County Airport** **\$222,000**
Rehabilitate and expand the helipad at the Nevada County Airport to allow for multiple CAL FIRE aircraft uses, including the S-2 tankers and the S-71i Fire Hawk helicopter, which will expand regional wildland firefighting capabilities. Specifically, a “Pen and Ink” Change is required to the Nevada County Airport Layout Plan to move the project forward.

 **Highway 49 Corridor Improvements** **\$15 million**
This multi-modal 2.5-mile project will provide significant safety and traffic flow improvements to this two-lane segment of SR 49 between McKnight Way and La Barr Meadows Road. Among other things, it will widen this segment to a four-lane conventional access control highway, install a continuous median barrier, remove numerous ingress/egresses to the highway, construct a frontage road system, install eight-foot shoulders with rumble strips, provide animal undercrossing/fencing, and more.

 **Hirschdale Bridges**
The replacement of the Hirschdale Road bridges at the Truckee River and Union Pacific Railroad overcrossing were awarded Federal Funding through the Federal Highway Bridge Program (HBP) and are slated for construction in 2024 per approval by the California Department of Transportation. In addition to replacing structurally deficient bridges, benefits include providing direct public recreational access to the Truckee River and community ingress/egress.

 **Hobart Mills Workforce Housing**
Work with the US Forest Service, Truckee Tahoe Workforce Housing Agency, and other local partners to develop a phased plan for workforce housing solutions on US Forest Service land at Hobart Mills.

 **Independence Trail Reconstruction** **\$1.26 million**
The Jones Fire of August 2020 destroyed wooden flumes that served as bridges to transport visitors on Independence Trail West, including those using wheelchairs, over deep canyons and ravines. Bear Yuba Land Trust, the owner of this section of the Independence Trail, is seeking funding or to transfer ownership of this land to State Parks, in order to rebuild this iconic ADA-accessible recreational amenity.

 **Juvenile Hall Building Repurpose**
Since the closure of juvenile hall, the facility is now housing the Nevada County Dispatch Center. However, additional uses are being considered for the facility including developing a training center for law enforcement.

 **Right-of-Way Identification Projects on County Roadways** **\$1 million**
This project will support surveying needed for reporting to FEMA, facilitating brush clearing as part of the fire prevention activities, and the establishment of evacuation routes.

 **Road Infrastructure Improvements that Strengthen Emergency Ingress/Egress**
Funding is needed for design and construction of road improvements on various locations throughout the county to strengthen emergency ingress/egress.

 **Nevada County Courthouse**
Coordinate with the City of Nevada City and the State of California to support alternative uses for the courthouse and to manage and minimize any disruptions that arise from the relocation of the court.

Nevada County Animal Shelter and Emergency Evacuation Site

\$17 million

The existing animal shelter facility is over 30 years old and is too small to meet current community needs, requiring reliance on foster homes. The facility lacks adequate parking and is not appropriately accessible. The current shelter was designed for outdated sheltering practices of capture, confine, and euthanize and does not offer a modern adoption-centric layout. The County relies on the animal shelter, as well as the Nevada County Fairgrounds, to house hundreds of animals during emergency wildfire evacuations. The current animal shelter's ability to meet this need is inadequate.

North San Juan Fire Suppression Project

\$1.6 million

This project involves construction of a 330,000-gallon water storage tank, approximately 4,200 feet of water mains, and 10 fire hydrants in the commercial core of North San Juan to provide fire water storage and distribution for commercial and residential uses in the area. Completion of the Project is intended to remove a barrier for economic development and provide a reliable, robust means of fire water supply in North San Juan.

Penn Valley Community Center

The Penn Valley community identified a community center as a top priority in the Penn Valley Area Plan, completed in 2020. On land owned by the Penn Valley Community Foundation, the community center would provide much needed meeting rooms, a commercial kitchen, event, and outdoor activity space.

Pines to Mines

Nevada County, along with Tahoe National Forest and local non-profits, has prioritized building an 81-mile trail, which would link Nevada City to Truckee and showcase the county's most beautiful landscapes.

Ponderosa West Grass Valley Defense Zone

A fuels reduction treatment project on 2,420 acres in a high fire hazard severity zone that has not burned in over 100 years. The project will reduce catastrophic wildfire risk and promote forest health while creating safer public evacuation and wildfire suppression routes. It protects approximately 3,000 residences in the Wildland Urban Interface (WUI) communities of Lake Wildwood, Penn Valley, Rough and Ready, and the City of Grass Valley, as well as critical infrastructure for state commerce, such as State Highway 20, power and water infrastructure, and Nevada County facilities.

Recreation and Resilience Master Plan

The Plan was initiated in the Fall of 2022, and anticipated to be released in 2024, to address challenges and opportunities for Nevada County's open space, trails and other recreational interfaces, and prioritize solutions that promote community health and safety, economic development, creative placemaking, landscape restoration, environmental sustainability, climate change adaptation, and resilience. The following project areas are anticipated to be included in the plan, including advocacy and funding strategies.

Bear River Recreation Infrastructure Projects – Develop plan and funding needed for planning, design, construction. Explore strategies with partners to address critical infrastructure needs related to recreation safety

and resource preservation.

Boca Recreation Infrastructure – Explore needs in master plan, work with state and federal partners to explore ways to sustain existing facilities and enhance communications.

Donner Summit Visitor/Recreation Infrastructure – Develop partnerships with Donner Summit Association (DSA) and Placer County to develop plan for this visitor center. Funding needed to build community consensus and implement planning phase for the eventual construction of visitor/recreation infrastructure on Donner Summit.

South Yuba River Recreation Infrastructure: Multiple Projects

Partner with Bureau of Land Management, State Parks, and other partners to address critical infrastructure needs for safety and resource preservation, including permanent toilets at Purdon Crossing and mile markers along the river canyon.

Van Norden Meadow Restoration Multi-Use Trail

In tandem with the meadow restoration project that began construction in 2022, a multi-use trail will improve, reroute, and connect up to 5 miles of multi-use trail, and improve 3 miles of the lake Van Norden Road to enhance equitable access and maintain environmental quality.

Rough and Ready Highway/Ridge Road/Adam Ave Intersection Improvements

\$4.2 million

Realign two three-legged, angled intersections into one four-legged intersection. The proposed improvements would convert the side street stop controls at both existing intersections into a single roundabout. In conjunction with the roundabout, design considerations will include pedestrian and bicycle facility improvements.

Rural Community Fire Station Improvements

Projects to improve fire stations in North San Juan and the Town of Washington will enhance emergency preparedness and provide essential community services in these isolated communities. Funding is needed for plan readiness and construction.

Safe Harbor Evacuation Locations

Support funding and opportunities and planning initiatives to identify safe harbor evacuation sites located within Nevada County for use during emergencies.

Scotts Flat Dam Spillway

\$30 million

Funding is necessary for the construction of the mandatory regulatory replacement of the Scotts Flat Dam spillway estimated at approximately \$30M slated for construction sometime between 2024-2026. The spillway, owned, operated and maintained by NID, is vital to local communities, which rely on it for water delivery, recreation opportunities, wildlife habitat, and as an economic driver. In addition, the Scotts Flat hydropower plant generates 875 kilowatts of electricity. Design work is nearly complete, and construction is slated for 2025/26.

South Yuba River Rim Hazardous Fuels Reduction Project

The project is a landscape-scale shaded fuel reduction area on the San Juan Ridge that will stretch from Bridgeport to Malakoff Diggins State Park, knitting together several key existing projects into a contiguous zone of protection. It will result in approximately 800 acres of new treatment, directly protecting 176 habitable at-risk structures in the project area and ultimately reducing risk for four communities and the economically vulnerable zone in Grass Valley.

Transit E-Bus Charging Infrastructure

\$1.3

million

In response to the California Air Resources Board Innovative Clean Transit (ICT) regulation, the County received grant funds for the purchase of two zero emission vehicles and one charger to begin developing a zero-emission fleet. Subsequently, e-bus infrastructure is needed to allow the County to proceed with transitioning its fleet according to the ICT deadlines.

Truckee Library

\$25 million

Advocate for funding to construct a spacious 21st century library to serve the Truckee/Martis Valley Region in partnership with community stakeholders.

Truckee Veterans Hall Repair Project

\$1 million

In response to a facility condition assessment, repairs have been identified by the Truckee-Donner Recreation & Park District that will increase the safety, ADA accessibility, sustainability, and usability of the building to support our veterans.

Western Nevada County Improved Green Waste Disposal

\$2.5 million

This project consisted of purchasing an identified site on La Barr Meadows Road to construct a green waste grinding facility which will allow for reuse of wood chips by locals and/or in co-generation plants, supporting emergency preparedness and resilience.

Woodpecker Ravine Hazardous Fuels Reduction Project

Sandwiched between the City of Grass Valley to the northwest and the densely populated community of Alta Sierra to the southwest, Woodpecker Ravine is particularly vulnerable to wildfire due to its steep topography, heavily overgrown landscape, and proximity to neighborhoods. This project will implement hazardous fuel reduction on 1,390 acres within Woodpecker Ravine Fuel Modification Zone, prioritizing evacuation routes, critical infrastructure, and ridges.

2024 Board Objectives

Fiscal Stability and Core Services

Maintain the County's financial stability and core services.

Emergency Preparedness

Lead the community in all hazards planning, preparedness, response, and recovery with a focus on wildfire. Do this by focusing on improving countywide evacuation routes and safety, continuing to strengthen early alert and critical communication systems, partnering closely with residents and community partners in emergency preparedness, defensible space, home hardening, green waste disposal, and fire-safe land stewardship.

Economic Development

Promote economic development by emphasizing resiliency and entrepreneurship; retaining and attracting high quality jobs; investing in major infrastructure projects; and working with local, state and federal partners to support our small business, nonprofit, and tourism sectors.

Broadband

Equitably expand broadband to support economic development, distance-learning, telework, telemedicine, and general quality of life for all residents by championing the implementation of Nevada County Broadband Strategy Plan policies and last-mile infrastructure projects.

Climate Resilience

Safeguard Nevada County's economic durability, environmental integrity, and public health and safety by preparing for, adapting to, and mitigating changing climate conditions in a way that reflects our rural quality of life.

Housing

Coordinate with local jurisdictions, developers, and other partners to facilitate development of, and access, to affordable and workforce housing.

Homelessness

In partnership with the Continuum of Care, prevent homelessness, address the needs of people experiencing homelessness, and move towards sustainable, ongoing programs.

Recreation

Promote sustainable recreation in partnership with community providers and other jurisdictions to enhance recreational access, support public health and safety, realize economic opportunities and preserve natural resource assets.

Purpose & Use

The Nevada County Board of Supervisors, County Executive Office, and senior executives develop this Legislative Platform annually to prioritize and draw attention to legislative areas of interest to the County as a whole, as well as specific program or legislative efforts that affect the County's ability to deliver the best possible services to our residents.

The County Executive Office leads the effort to identify and assess the priorities, funding requests and initiatives described here by engaging the senior executive team, the County's contracted and organization-based legislative advocates, as well as the Board of Supervisors at their annual workshop, where the Board of Supervisors sets the Board Objectives for each year. Input is also solicited from the appointed and elected County Department Heads regarding program specific issues as well as alignment with County planning documents such as the Capitol Facilities Plan, Health and Human Services Strategic Plan, etc. In addition, input is solicited from jurisdictional partners including the City of Grass Valley, the City of Nevada City, the Town of Truckee, the Nevada Irrigation District, the Nevada County Superintendent of Schools, and special districts. This document is shared with our contracted legislative advocacy firm, Shaw Yoder Antwih Schmelzer & Lange, Inc. and Paragon Government Relations, Inc. as well as the public on the County's website. It is used throughout the year by the Board of Supervisors, County Executive Office, and Department Heads to assess legislative issues as they arise and determine if advocacy on a particular issue is in alignment with the County's Legislative Platform.
