7. Three RECREATIONAL BOATING safety issues

This is a Federal Pass-Through 'Recreational Boating Safety Grant'. The purpose of the grant is to promote boating safety and to decrease the number of accidents, injuries, and fatalities on U.S. waters. Clearly identify three BOATING safety issues that affect recreational boaters in your jurisdiction. Your answer to this question will be referenced throughout this grant application.

1. Intoxicated boaters: Throughout the boating season we receive calls for service related to intoxicated boaters or reckless/unsafe boating which are likely associated with alcohol consumption. These issues are most prevalent during weekends and holidays. Historically, the majority of boating accidents and related deaths in our jurisdiction involved alcohol. By keeping all of our Patrol boats on the water, we are better able to address these issues.

2. Insufficient Safety Equipment: Throughout boat inspections at docks and during contacts on the water our Deputies have determined boaters often do not have proper safety equipment or practices. This ranges from insufficient life jackets, throw cushions, fire extinguishers, overloading, flags for towing, and light during nighttime hours. By keeping all of our Patrol boats on the water, we are better able to address these issues.

3. Unlicensed boaters: The requirement for California Boater's Card was initiated in 2018 and has been phased in since. The courses associated with obtaining a card cover a number of topics including but not limited to, boating while under the influence and required safety equipment/considerations. Participation in these courses may be the only opportunity a boat operator is provided information related to these topics. Until this point, Deputies had primarily focused on education related to the boating card requirement and will be moving to enforcement. By replacing our patrol vessel we essentially increase our ability to address these safety issues by approximately 33%. The vessel in question is primarily kept in the eastern side of our county for enforcement purposes, with it being inoperable deputies have to transport a vessel from the western side to be able to patrol the eastern side lakes.

9. Project Type

Are you requesting a new Patrol Boat/PWC or Misc. Equipment.?

☒ New Patrol Boat/PWC - see definition below

☐ Equipment / Repairs

NOTE: A "Patrol Boat" is defined as "A Department of Parks and Recreation, Division of Boating and Waterways approved, registered vessel (with or without trailer and/or outboard motor) purchased for use in boating safety and law enforcement activities." **VERIFY THAT YOUR REQUEST IS CORRECTLY CLASSIFIED.** Failure to correctly classify may result in disqualification of your grant application.

* All items purchased with funding provided by the Division of Boating and Waterways are for the exclusive use of the Boating Safety and Enforcement Unit.

Patrol Boat Instructions

PLEASE READ THE FOLLOWING CAREFULLY

ENTER INFORMATION IN THIS SECTION ONLY IF YOU SELECTED 'PATROL' AS A PROPOSAL TYPE

IF YOU DID NOT SELECT 'PATROL BOAT' AS A PROPOSAL TYPE, CLICK ON THE NEXT TAB TO NAVIGATE TO THE NEXT SECTION

10. Describe what you are requesting. You may request only FIVE ITEMS TOTAL (inflatable vessel and engine, patrol boat and trailer, etc.). You may group "like items". "Like items" are related items that work together. You need one to work with the other. Examples of "like items" include a 'patrol boat and a trailer'."

Item	Cost	Quantity	Total	Priority	List specific items that are in the grouped 'like' items
Patrol boat and trailer	166,554.26	1.00	166,554.26	First	patrol boat and trailer
TOTAL			166,554.26		

- 10 a. Describe exactly what is being requested and how this equipment will help mitigate the recreational boating safety issues identified in Question 7.

We currently run three patrol boats in our fleet, two of which are kept on the western side of our county and one that is kept on the eastern side of our county. The patrol boat that is used on the eastern side of the county is a 1997 Jetcraft with approximately 1600 hours logged on it. The patrol boat was inspected and recently taken to state auction after approval through DBW.

If this grant is obtained the Nevada County Sheriff's Office would be able to increase the amount of boating enforcement patrols throughout the year. There are several lakes on the eastern side of our county that received less patrols in the past year due to not having an operable boat being positioned up there. The resident deputy located on the eastern side of our county is cross trained as a boat patrol deputy, and would deploy on a regular basis during the busy summer months to enforce boating regulations which would otherwise likely go unregulated. In order for this lake to be patrolled by members from the western division of our county, or an emergency response, an expected arrival time would be approximately two hours. If a patrol boat is located in the eastern portion, that response would be reduced down to approximately 20 to 30 minutes.

Maintaining a full fleet is critical to boating enforcement and safety. Without this boat we will be unable to enforce BUI, negligent operations, boating safety card on the lakes in the eastern portion of our county.

- 10 b. Describe any negative impacts to boating safety and/or boating enforcement if your agency does not get this grant.

As mentioned in the previous section, patrols on several lakes on the eastern side of our county would be limited to none due to the geographic storage location of the patrol boats. Our response time to emergency boat related calls would be prolonged which could directly endanger the lives of subjects needing rescue. During the busy summer months all three patrol boats commonly deploy at the same time on different lakes throughout our county for enforcement purposes, without the grant only two boats will be able to deploy at a time and the focus would likely be on the western side of the county. Enforcement related to reckless/negligent operation, alcohol related crimes, boating safety card, and all other enforcement would be effected.

Our fleet consists of three patrol vessels, one of which was recently sent to auction, leaving us with only two patrol boats which is not sufficient to support the amount of patrols conducted during boating season.

- 10 c. Classify this request by choosing one of the following options and present a strong justification for the request.

Exhibit G - BOATING SAFETY AND ENFORCEMENT EQUIPMENT GRANTEE APPLICATION

Classify this request by choosing one of the following options.

- ☒ "Critical" (operations would cease without it)
- ☐ "Increased efficiency" (it would save staff time, identify how much time)
- ☐ "Convenience" (it would make life a little easier)
- ☐ "Protection" of existing equipment (ex: shade tents, hoists to get the vessels out of the water, etc. to extend longevity)

Justify your classification of this request. (max. 300 characters)

Education and enforcement of boating safety related laws will be drastically reduced if not halted on the eastern side of our county. Our fleet would be reduced by 33%, leaving a void in the amount of patrols we would be able to conduct.

Activity	Percentage
Boating Safety Activities	85.00
Search and Rescue Activities	10.00
Other Activities	5.00
TOTAL	100.00

List any other activities this vessel will be used for:

Search and rescue not related to recreational boating.

- 10 d. If you are not awarded your full request, would your agency be able to supplement ☒ Yes ☐ No the difference?

If yes, what percentage can you supplement?

25

- 10 e. How and why did your agency select this particular vessel? Explain if this is a standard patrol boat or do you need something specialized for your waterbody to meet your agency's needs? List less expensive models considered and explain why they are not being requested. List other funding sources available to your agency that could be used to purchase or partially purchase this equipment.

The vessel requested is similar in nature to the current fleet we run, with the exception of going to an outboard platform versus a jet boat. Going to an outboard provides a cost saving benefit as well as fuel efficiency and noise levels to the operator and recreation seekers on the water. The platform will be a standard patrol boat with the only per-se specialized equipment being radar, sonar, and lighting which is a patrol standard. This patrol boat will be deployed primarily during summer time, however; it will also be deployed during inclement weather conditions for rescue missions of stranded vessels whether it be in a search and rescue standpoint of injured subjects or fishing boats who have broken down. I requested a partially enclosed cabin as the remainder of our fleet only have a windshield with a partial vinyl enclosure which leaves our operators exposed to the sun and weather. A less expensive model was not considered due to the lack of an enclosure. This is primarily the only cost standpoint related to a less expensive model, unless sub-par companies were considered which is not an option I would consider. Going with the outboard powered system was already a cost effective move instead of staying with a jet powered vessel. At this point I can not foresee any other cost saving measures that can be implemented unless it was done by using equipment of poor quality. This vessel will be a primary patrol boat deployed in our fleet used on a regular basis, a smaller vessel would not be able to safely perform patrol functions on the water.

10 f. Patrol Boat - Informational

- 10 f. What body(s) of water will this boat be used on?

This vessel would be used throughout the county dependent on the time of year and the need for enforcement on varying bodies of water. These would include, Rollins Lake, Engelbright Lake, Scotts Flat Lake, Camp Far West, Combie Lake, Lake of the Pines, Lake Wildwood, Donner Lake, Jackson Meadows Reservoir, Boca Reservoir, Spaulding Reservoir.

10 l. Will this replace an existing boat?

☒ Yes ☐ No

Year, make and CF # of boat being replaced.

1997 Jetcraft 20', CF 3571 XC.

10 m. Has the vessel being replaced ever had it's engine or electronics replaced?

☐ Yes ☒ No

If yes, how many times? Explain. (max. 1024 characters)

10 n. Explain why you are not requesting a repower of this vessel. (max. 1024 characters)

The price to repower the vessel would be more than the actual vessel would be worth after repower. The vessel was also over 25 years old, had a crack in the hull, and needed a complete repower as well electronic replacements. The vessel was already inspected by OFAM and taken to state auction after approval was obtained through DBW.
