15. Termination for Cause

Either party may terminate this Agreement for cause in the event of a material breach of this Agreement, provided that the non-breaching party provides written notice of the material breach and ten (10) calendar days to cure the breach. If the breach is not cured to the satisfaction of the non-breaching party within ten (10) calendar days of receipt of notice, this Agreement shall automatically terminate and the CDFA shall reimburse the Recipient for all documented costs incurred up to the date of the notice of termination, including all non-cancellable obligations.

The Recipients may not use the CDFA logo.

19. News Releases/Public Conferences

The EO directs state agencies to terminate agreements with, and to refrain from entering any new agreements with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should the State determine Recipient is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this agreement. The State shall provide Recipient advance written notice of such termination, allowing Recipient at least 30 calendar days to provide a written response. Termination shall be at the sole discretion of the State.

EXHIBIT C

PAYMENT AND BUDGET PROVISIONS

- C. Unless stated in the Scope of Work, quarterly invoices must be submitted to the CDFA Administrative Contact, within thirty (30) calendar days after the end of each quarter in which activities under this Agreement were performed.
- D. Unless stated in the Scope of Work, a final invoice will be submitted for payment no more than thirty (30) calendar days following the expiration date of this Agreement, or after project is complete, whichever comes first. The final invoice must be clearly marked "Final Invoice" thus indicating that all payment obligations of the CDFA under this Agreement have ceased and that no further payments are due or outstanding.

2. Allowable Expenses and Fiscal Documentation

- A. The Recipient must maintain adequate documentation for expenditures of this Agreement to permit the determination of the allowability of expenditures reimbursed by CDFA under this Agreement. If CDFA cannot determine if expenditures are allowable under the terms of this Agreement because records are nonexistent or inadequate according to Generally Accepted Accounting Principles, CDFA may disallow the expenditures.
- B. If mileage is a reimbursable expense, using a privately-owned vehicle will be at the standard mileage rate established by the United States (U.S.) Internal Revenue Service (IRS) and in effect at the time of travel. The standard mileage rate in effect at the time of travel can be found on [IRS's website](#) regardless of funding source/type.

4. Budget Contingency Clause

If funding for any fiscal year is reduced or deleted for purposes of this program, the CDFA has the option to either cancel this Agreement with no liability occurring to the CDFA or offer to amend the Agreement to reflect the reduced amount.

PROJECT
County of Nevada, Agriculture Department

I. Project Overview (FAC 7272.5)

Project Goals and Objectives (check all that apply):

- Increase the profitability and value of crop land and rangeland
- Decrease the costs of roadside, park, and waterway maintenance
- Reduce the fire hazard and fire control costs in the state
- Protect the biodiversity of native ecosystems
- Maintain the recreational and aesthetic value of open space, recreational, and public areas
- Increase water supply and flow

Project Activities (check all that apply):

- Operation of programs by the county agricultural commissioner for control of noxious weeds along county roads and other local government owned property
- Matching funds for control of noxious weeds on city owned streets, parks, rights-of-way, and other public areas
- Disseminating biological control agents by the county agricultural commissioner for the long-term control of yellow starthistle or other noxious weeds
- Abatement of noxious weed infestations on land vital to the success of the program

II. Project Plan

Weed Species to be Controlled: Weeds species to be controlled will be limited to weeds defined within the California Code of Regulations 4500 list as well as those weeds listed on the December 2019 Nevada-Placer Weed Management Area Priority Invasive Plant List.

Methodology: Sites will be mapped and tracked in the field by County Department of Agriculture Staff utilizing Calflora's ObserverPro app on mobile devices. CDFA's weed monitoring protocol will be followed, measuring the cover of weeds or counting individual plants when feasible. Each historical and newly discovered site will automatically have a log created in Calflora to track the historical level of infestation. Additional data will also be collected and will include, date, location, site ownership, net/gross acres infested, number of plants, treatment method, and type of herbicide applied (if applicable). This log will be updated during or after every site visit to reflect the level of eradication that has been achieved. County Department of Agriculture Staff will survey all previously known infestation sites within the project area. Surveys will continue to be done outside the known infestation sites to determine the possible spread of the targeted invasive and noxious weed species listed above. County Department of Agriculture Staff will treat all known infestations and any new detections of targeted noxious weeds on public and private property within the project area as appropriate.

As the lead agency for this project, the Nevada County Agriculture Department will meet CEQA compliance by filing a notice of exemption under 14CCR §15307 (Actions by Regulatory Agencies for Protection of Natural Resources) and 14CCR §15308 (Actions by Regulatory Agencies for Protection of the Environment).

Location(s): The County of Nevada, California. See attached map.

Weed Removal/Control Techniques(s): The project will utilize an Integrated Pest Management (IPM) approach with a focus on long-term prevention, correct pest identification, and the use of combined management approaches such as mechanical and physical controls (i.e. weed wrenches, shovels, and loppers) Pesticides will only be used when needed and will be selected and applied in a way that will minimize the possible harm to people and the environment. Pesticides will only be used by properly trained staff and applied in accordance with specific local conditions and those uses allowed by the label. The list of herbicides that is expected be used include: Telar XP, Capstone, and an appropriate surfactant and dye.

Potential challenges include late unfavorable weather conditions which may delay treatments, especially at higher elevations. This is unavoidable and dependent on seasonal climate. Challenges could also include gathering permission from private landowners, as some of the homes and properties are not a primary residence. The County Agriculture Department may work in cooperation with local environmental groups such as the Nevada County Resource Conservation District, Nevada Placer Weed Management Area, and the Truckee River Watershed Council to provide educational and outreach information to concerned citizens and landowners to overcome this challenge.

III. Reporting

Grant recipients will be required to submit a mid-year report to CDFA documenting a visual representation of the project's progress on October 15, 2023, and October 15, 2024.

Final project reports are required 30 days after project completion, no later than July 31, 2025. Final project reports should include detailed information on project results and include photos of field work showing progress (before/after photos).
