APPLICATION FOR FEDERAL ASSISTANCE
2025 AIRPORT IMPROVEMENT PROGRAM (AIP) - CONSTRUCT
RECONSTRUCT RAMP 4 TAXILANES STAGE 1**

**PART IV
PROGRAM NARRATIVE**

1. OBJECTIVES

An Application for Federal Aviation Administration Airport Improvement Program (AIP) funds has been prepared for the construction of a portion of the Reconstruction of Ramp 4 Taxilanes Stage 1 proposed to be included in the 2025 Airport Improvement Program at the Nevada County Airport. A description of this project is as follows:

Reconstruct Ramp 4 Taxilanes Stage 1 (1,000 sy eligible; 340 sy non-eligible) - The 2021 PMMP indicates that a portion of Ramp 4 will fail due to deep seated distress in 2025. It will be necessary to reconstruct these pavements prior to the failure date. It would have been ideal to reconstruct this pavement in 2023, but due to funding availability it has been moved to 2025 and cannot be delayed past that date. Portions of this area are between hangars and some of the pavement area will not be AIP eligible. The PCI of these pavements is 28. NPR - TL RC IM = 63

The engineering design of this project was completed under a separate AIP grant.

There is a separate AIG grant that will be submitted for separate usable units of work for the Reconstruction of Ramp 4 Taxilanes (Stage 2). Stage 1 of the taxilanes being reconstructed are included in this AIP application.

DBE Goal Calculation – FAA requires airports to have a current DBE program if they receive \$250,000 or more in AIP funding during a Federal fiscal year. Each DBE program is valid for 3 years. Nevada County Airport's DBE program covers FY 22-24 and requires an update. This will include preparation of a DBE goal calculation as required by 49 CFR Part 26. This will be included in the engineering scope under the proposed grant

2. RESULTS OR BENEFITS EXPECTED

The reconstruction of the Ramp 4 taxilane pavements will provide safe and functioning pavements for operations at the airport, which will have a remaining life so far as deep-seated distress is concerned of 20+ years.

3. APPROACH

Plan of Action - All airport design will conform to Advisory Circular 150/5300-13B, *Airport Design*. Specifications will be prepared based on Advisory Circular 150/5370-10H, *Standards for Specifying Construction of Airports*. All safety requirements as outlined in Advisory Circular 150/5370-2G, *Operational Safety on Airports During Construction* will be included in the Construction Safety and Phasing Plan prepared for this project.

The engineering will be performed as follows:

Reconstruct Ramp 4 Taxilanes – Stage 1
Record of Negotiations

Dear Mr. Ambrose:

The County of Nevada proposes to perform the construction of the Crack Repair Ramp 4 Taxilanes and Reconstruct Ramp 4 Access Road project at the Nevada County Airport, Grass Valley, Nevada County, California, under the 2025 Airport Improvement Program of the Federal Aviation Administration. It is proposed to utilize the services of Brandley Engineering to perform engineering during construction and construction management of this project. The County of Nevada and Brandley Engineering entered into negotiations for the engineering fees related to this project.

The consulting firm of Brandley Engineering was selected on January 24, 2025, from those consultants who submitted their qualifications for engineering services. A scope of work and detailed independent cost estimate in the amount of \$65,794 for the engineering during construction and construction management services were prepared by Richard Poole, Assistant Engineer with the Nevada County Public Work Department on April 21, 2025.

The consultant submitted their fee proposal for the work on April 7, 2025, in the amount of \$67,000. The Sponsor's Independent Fee Estimate was \$65,794, which is within 2% of the consultant's fee proposal. Since the IFE was within 10% of the consultant's fee proposal, the Sponsor considers this reasonable and recommends accepting the consultant's fee of \$67,000.

The final fee proposal is considered reasonable by the Sponsor. A contract is currently being prepared for the agreement between the Sponsor and consultant. The Sponsor's independent cost estimate and consultant's fee proposal is attached to this record of negotiation and hereby submitted to the ADO for a reasonableness of cost determination.

CONTRACTOR CONTRACTUAL REQUIREMENTS

ATTACHMENT 1

During the performance of this contract, the contractor, for itself, its assignees and successors in interest (hereinafter referred to as the "contractor") agrees as follows:

1. Compliance with Regulations. The contractor shall comply with the Regulations relative to nondiscrimination in federally assisted programs of the Department of Transportation (hereinafter, "DOT") Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this contract.

2. Nondiscrimination. The contractor, with regard to the work performed by it during the contract, shall not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The contractor shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.

3. Solicitations for Subcontracts, Including Procurements of Materials and Equipment. In all solicitations either by competitive bidding or negotiation made by the contractor for work to be performed under a subcontract, including procurements of materials or leases of equipment, each potential subcontractor or supplier shall be notified by the contractor of the contractor's obligations under this contract and the Regulations relative to nondiscrimination on the grounds of race, color, or national origin.

4. Information and Reports. The contractor shall provide all information and reports required by the Regulations or directives issued pursuant thereto and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the Sponsor or the Federal Aviation Administration (FAA) to be pertinent to ascertain compliance with such Regulations, orders, and instructions. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish this information, the contractor shall so certify to the sponsor or the FAA, as appropriate, and shall set forth what efforts it has made to obtain the information.

5. Sanctions for Noncompliance. In the event of the contractor's non-compliance with the nondiscrimination provisions of this contract, the sponsor shall impose such contract sanctions as it or the FAA may determine to be appropriate, including, but not limited to:

- a. Withholding of payments to the contractor under the contract until the contractor complies, and/or
- b. Cancellation, termination, or suspension of the contract, in whole or in part.

6. Incorporation of Provisions. The contractor shall include the provisions of paragraphs 1 through 5 in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations or directives issued pursuant thereto. The contractor shall take such action with respect to any subcontract or procurement as the sponsor or the FAA may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or supplier as a result of such direction, the contractor may request the Sponsor to enter into such litigation to protect the interests of the sponsor and, in addition, the contractor may request the United States to enter into such litigation to protect the interests of the United States.
