Executive Summary

The goals of this funding will contribute to the review, technical support, and certification of commercial cannabis applications. This will include assistance and preparation of environmental documents for compliance with CEQA, implementation of mitigation measures for environmental compliance, including water conservation and other environmental protection measures. Funding will contribute directly to provisional licensees to assist in meeting annual license requirements. This may include the hiring of consultants to assess environmental impacts associated with water, sensitive resources, vegetation, and other environmental features.

Funding may be used to hire additional temporary, and/or contract staffing to review, process, and approve commercial cannabis applications for CEQA and other environmental compliance standards. Costs of preparing information, reports, manuals, and/or other publications that further the review and processing of commercial cannabis permits associated with environmental compliance. Funding may be used for staff training related to the review of commercial cannabis permit applications related to environmental compliance.

Application Narrative

Program Description

Provide a brief description of the current cannabis permitting process in your jurisdiction, including the following:

1. Identify the necessary requirements for a local permit for commercial cannabis activity to be issued. Describe or attach a visual of your permitting process. Clearly identify when site-specific CEQA is conducted.

Nevada County currently permits commercial cannabis cultivation licenses/permits in accordance with local ordinances and state laws. There are two types of cannabis cultivation permits that an applicant can apply for dependent on cultivation canopy sizes. Applicants with canopy sizes 2,500sqft and less apply for a Commercial Cannabis Permit (CCP). Reference the attached "CCP Cannabis Application Packet" for an overview of this process on the cover sheet as well as an application checklist on page 2 of this document. Applicants cultivating between 2,501-10,000sqft of canopy apply for a Cannabis Administrative Development Permit (ADP). Reference the attached "ADP Cannabis Application Packet" for an overview of this process on the cover sheet as well as an application checklist starting on page 3 of this document.

The Nevada County Board of Supervisors adopted Resolution 19-199 adopting the Nevada County Commercial Cannabis Cultivation Environmental Impact Report (EIR) providing detailed information about the environmental impacts related to cannabis cultivation activities as well as mitigation measures regarding cannabis cultivation activities in the County of Nevada. Overall CEQA review is completed concurrently by the Planning Department while all other departments and agencies are reviewing the commercial cannabis application. Upon final review of the application the CEQA checklist is completed in accordance with the programmatic EIR and associated environmental regulations certifiying the application and deeming it complete.

The below provides additional information regarding the local permitting status types and CEQA status types shown through Nevada County's local cannabis permitting program and included in the "Permitting and Licensing Metrics – Attachment 2" included in the submittal documents:

Local Permit Status:

o Approved:

The local commercial cannabis land use permit has been issued and the applicant is approved to complete commercial activity on the parcel(s) in accordance with the approved project plans/documentation.

o Incomplete:

An initial review has been completed of the local commercial cannabis land use permit and deemed incomplete. Additional information and/or changes are required to address minimum compliance requirements and shall be resubmitted for review of minimum compliance requirements.

Status of the Site-Specific CEQA:

Complete:

The project has been reviewed and deemed that it meets all California Environmental Quality Act (CEQA) and all other environmental compliance requirements.

Underway:

The project is currently being reviewed for compliance with California Environmental Quality Act (CEQA) and all other environmental compliance requirements.

2. Describe the applicable environmental review process relevant to the cannabis permits that you allow for in your jurisdiction.

The Nevada County Board of Supervisors adopted Resolution 19-199 adopting the Nevada County Commercial Cannabis Cultivation Environmental Impact Report (EIR) providing detailed information about the environmental impacts related to cannabis cultivation activities as well as mitigation measures regarding cannabis cultivation activities in the County of Nevada. Staff complete the adopted CEQA Checklist (attached) associated with this EIR and related environmental regulations for each commercial cannabis application. Other related environmental reviews are completed specific to the application related to local ordinances and state regulations such as steep slopes, management plans, setbacks to sensitive resources, and other mitigation measures associated with specific site environmental impacts. Reference the attached "CCP Cannabis Application Packet" and "ADP Cannabis Application Packet" for more detailed checklists and requirements associated with the environmental review of projects.

- 3. Identify what requirements must be met by your permittee when providing the state with local authorization response for each of the following:
 - a. "In compliance"
 - b. "Compliance under way"
 - c. "Not in compliance"

In Compliance: An applicant has successfully submitted a complete permit application package for a local commercial cannabis permit to the Nevada County Community Development Agency. This cannabis land use permit has been reviewed by all applicable departments/agencies and deemed complete/approved.

Compliance Under Way: An applicant has successfully submitted a complete permit application package for a commercial cannabis permit to the Nevada County Community Development Agency.

Not in Compliance: The applicant has not submitted a complete permit application package for a local commercial cannabis permit to the Nevada County Community Development Agency.

Statement of Needs/Problem Statement

1. Describe the challenges in the local jurisdiction permitting process that impede the timely transition of your permittees' license from a provisional license to an annual license.

Many of Nevada County's legacy cultivators as well as many of the County's prospective equity applicants have many arduous challenges associated with environmental/CEQA compliance. A majority of legacy cultivators have many site aspects that need to employ mitigation measures for environmental compliance due to years of noncompliance and unpermitted development due to the fear of engaging local and state entities due to past criminalization. These preexisting conditions create many site challenges where creative solutions are needed that typically take longer to resolve. This also can take longer to design and present challenges for environmental consultants when creating associated environmental documents to demonstrate CEQA compliance. Nevada County has seen this with many management plans, steep slope remediation measures, timber harvest conversations/permits, and several other required environmental documents.

Associated front and back-end costs also continue to be a big barrier to entry into the local and state cannabis market. The cost to pay for consultants to complete required environmental investigations and required reports is hard for many cultivators to afford. Implementing the required site mitigation measures also can be very costly.

2. If you have an equity program, describe any additional challenges in implementing the equity program in your local jurisdiction and/or challenges faced by equity applicants in receiving local permits and annual state licenses.

The Nevada County Board of Supervisors adopted Resolution 21-431 on September 28, 2021, adopting the Nevada County Cannabis Local Equity Assessment (LEA), Nevada County Local Equity Program (LEP) Manual, and establishing a Nevada County Local Equity Program. Nevada County will be implementing this program over this next year in collaboration with the community, stakeholders, and our legacy cannabis cultivators.

Prospective cannabis equity cultivators have many arduous challenges associated to environmental/CEQA compliance. A majority of legacy cultivators have many site aspects that need to employ mitigation measures for environmental compliance due to years of noncompliance and unpermitted development due to the fear of engaging local and state entities due to past criminalization. These preexisting conditions create many site challenges where creative solutions are needed that typically take longer to resolve. Associated upfront and back-end costs also continue to be a big barrier to entry into the local and state cannabis market. The cost to pay for consultants to complete required environmental investigations and required reports is hard for many cultivators to afford. Implementing the required site mitigation measures also can be very costly. Cost is a primary challenge for cannabis equity applicants.

Goals and Intended Outcomes

1. List the goals and intended outcomes of this funding opportunity.

Goals should explain how funding will be utilized to impact the issue areas stated in the problem statement. Outcomes should describe specific change(s) or result(s) when the goal is achieved.

At a minimum, the following should be addressed:

- How CEQA compliance will be achieved
- How obstacles will be removed from the permitting process, including opportunities to reduce time to permit issuance.
- How these goals will align with the statutory deadlines mandated for maintenance of a provisional license.

 Local coordination necessary to reach specific outcomes, if multiple departments, divisions, or offices are involved.

Use the format below:

Goal: Our primary goals are related to improving the successful completion of permitting and review of commercial cannabis projects in conformance with local and state environmental compliance requirements. One aspect of this goal will be to increase staffing to complete commercial cannabis permit reviews more expeditiously, answer customer service inquires for commercial cannabis projects, provide technical support, and partner with these customers to help ensure their successful completion of permitting. This will include additional staffing in the Nevada County Community Development Agency. The addition of staffing will also result in the need for improved functional workspace to improve overall efficiencies and to house these staff members. This will result in more expeditiously approved projects with better environmental outcomes for our legacy cultivators.

An additional strategy for these goals is to provide grant funding opportunities for legacy cultivators and equity applicants with provisional licenses to help fund the completion and preparation of environmental documents in compliance with CEQA for permits. This would include the costs associated with hiring a licensed consultant to assess environmental impacts. Also, grant opportunities will be available for employing mitigation measures for site environmental compliance, including water conservation and protection measures. This will allow for legacy cultivators and equity applicants with provisional licenses to get across the commercial cannabis permitting finish line.

To provide additional context on salary information as it relates to this goal, the salaries included in the proposal include the total average cost (salaries and all benefits) for 3 separate Senior Community Development Agency (CDA) Technicians at \$106,570 and an Agriculture Biologist is \$100,453. Staff who will be assigned the work are part of our Cannabis Compliance, Planning, Environmental Health and the Ag Commissioner departments. Specific assigned staff may vary over the period of the grant. The proposal includes the current budgeted rates for these positions with a 2% approved COLA following the recent budget adoption. Senior CDA Technicians work with the public to review and answer questions related to their permits and requirements. These are additional staffing resources that are proposed to be funded and are not currently dedicated to work on these commercial cannabis projects.

Permit fees do not include the work performed by these staff as they work with general questions and permit intake. Once an application is received, the application is reviewed and approved by higher level technical staff. Having the

Senior CDA Technicians and Agricultural Biologist work with applicants up front, the County hopes to receive better applications to bring more citizens into compliance. The County performed recent time studies and an analysis on the average amount of time each of these departments spend assisting applicants and the amounts of time per department are included in the grant proposal each year.

The addition of temporary and/or contract staffing to review, process, and approve commercial cannabis applications/permits as specified in the grant application requires the need to have adequate workspace for these positions. In order for these positions to be successful they need to have these workspaces established. This will require some technical space planning analysis as well as facility modifications and construction including renovations of cubicle and other office areas. The cost for this is estimated at \$60,000 based on the anticipated work needed and costs for similar space planning projects completed by the County organization.

Action	Intended Outcome
Addition of Staffing	Expeditious review of permits and improved technical support to improve completion of cannabis annual licensing.
Grants for Environmental Consulting – Investigations/Documentation	Expeditious completion of required environmental investigations and document preparation meeting CEQA and associated environmental regulations. This Will result in complete application submittals and project approvals for annual licenses.
Grants for Environmental Consulting – Site Mitigation Measures	Expeditious completion of required site-specific environmental mitigation measures such as water conservation and protection measures. This will result in complete project sites to qualify for annual licenses.

Repeat the format above to list additional goals. Add additional rows to the chart as necessary.

For those jurisdictions that have been identified as eligible to receive additional funding due to the status of the local equity program, address the following in

your goal(s):

- a. How this funding, particularly the dollars provided due to local equityprogram status will:
 - i. Support local equity applicants in entering the regulated cannabisindustry;

- ii. Allow local equity applicants to receive cannabis permits and annual licenses more quickly; and
- iii. Further support local and/improve equity program implementation.

N/A

3. If your local jurisdiction has not adopted or is not operating a local equity program, please indicate whether the local jurisdiction is considering adopting alocal equity program, including a potential timeline for this decision.

The Nevada County Board of Supervisors adopted Resolution 21-431 on September 28, 2021, adopting the Nevada County Cannabis Local Equity Assessment (LEA), Nevada County Local Equity Program (LEP) Manual, and establishing a Nevada CountyLocal Equity Program. Nevada County will be implementing this program over this next year in collaboration with the community, stakeholders, and our legacy cannabis cultivators.

SPECIAL TERMS AND CONDITIONS

This California Local Jurisdiction Assistance Grant Program Agreement ("Agreement") is by and between [local jurisdiction] ("Grantee"), and the Department of Cannabis Control ("Department"), hereinafter jointly referred to as the "Parties" or individually as the "Party." Unless otherwise specified in this Agreement, all definitions, rules, guidelines, and requirements specified in the California Local Jurisdiction Assistance Grant Program Guidelines (Grant Guidelines) issued on [date], shall apply to this Agreement. The identification number for this Agreement is [Agreement#].

In consideration of the mutual convents and promises in this Agreement, the Parties agree as follows:

- 1. Authority. This Agreement is authorized and entered into pursuant to the Budget Act of 2021, Item 1115-101-0001 For local assistance. The Local Jurisdiction Assistance Grant Funding allows for direct assistance to local jurisdictions' commercial cannabis programs to transition provisional licenses to annual licenses.
- 2. Grant Term. The performance period of this Agreement shall be from the specified date of the Grant Funding Expenditure Period through March 31, 2025 ("Grant Term"). Grant funds shall be expended only during the Grant Term.
- 3. Grant Award. Based on the Department's review of the Grantee's application and Annual Plan, which constitutes the Scope of Work for this Agreement and is incorporated herein by reference as Exhibit A, and pursuant to the Grant Guidelines, and conditioned upon the requirements set forth in this Agreement, the Department shall provide Grantee a grant award amount as specified in the Grant Award Notification for the term of this Agreement. The Grant Award and Grant funding is to be used for the purposes specified in the Grant Guidelines, and pursuant to the Scope of Work. In no event shall the Department be obligated to pay any amount in excess of the awarded amount. Grantee waives any and all claims against the Department and the State of California for any costs that exceed the grant award amount identified in the Grant Award Notification.
- **4. Unused Grant Funds.** Any amount of grant funds provided for under this Agreement that is not expended by the end of the Grant Term, or at the termination of this Agreement, whichever is sooner, shall be returned to the Department. Grantee shall notify Department of such unused funds and Department shall provide Grantee with instructions as to how to return the funds.
- 5. Funding Contingency Clause. The funding for this Agreement is allocated pursuant to the Local Jurisdiction Assistance Grant Funding. Grantee agrees that the Department's obligation to pay any sum under this Agreement is contingent upon availability of funds disbursed from the Local Jurisdiction Assistance Grant Funding. If there is insufficient funding, the Department shall have the option to either: 1) terminate this Agreement, whereby no party shall have any further obligations or liabilities under this Agreement, or 2) negotiate an Agreement amendment with Grantee to reduce the grant award and scope of work to be provided under this Agreement.
- **6. Grant Fund Disbursement.** Grant funds awarded pursuant to the Local Jurisdiction Assistance Grant Funding will be issued directly to Grantee in one disbursement, upon execution of this Agreement, and passing of a resolution or similar approving authority by the local jurisdiction.

- 7. Subcontractors. No amount of the grant award may be used to subcontract any of the commitments contemplated in this Agreement to another entity or person, unless with the written approval of the Department pursuant to section 13 of this Agreement or if the subcontract work is included the Grantee's Annual Plan and Application Budget Form that was submitted and approved by the Department.
- 8. Documentation and Reporting Requirements. Grantee must be able to demonstrate to the satisfaction of the Department that the grant funds were expended for eligible uses and consistent with the activities identified in its application, and under the Grant Program. Grantee must provide progress and annual reports as specified in the Grant Guidelines. Grantee must maintain records detailing the expenditure of all grant funds for a period of seven (7) years after the end of the Grant Term and shall provide this information to the Department upon request.
- 9. Audit. Grantee agrees that the Department, the California State Auditor, or their designated representative shall have the right to review and to copy any records and supporting documentation pertaining to the performance of this Agreement. The books, accounts, files, receipts, and other records of Grantee which are applicable to this Agreement shall be made available for inspection, review, and audit immediately upon request by the Department and its representatives to verify proper use of the grant award, in accordance with the Grant Guidelines. Grantee agrees to allow the auditor(s) access to such records and to allow interviews of any employees who might reasonably have information related to such records. Further, Grantee agrees to include a similar right of the State to audit records and interview staff in any subcontract related to performance of this Agreement.
- 10.Eligible Uses. Grant funds shall be used for the purpose of assisting local applicants and local licensees in that local jurisdiction to transition from provisional licenses to annual license, and to successfully operate in, the state's regulated cannabis marketplace and consistent with the Grant Guidelines and the Grantee's application for Local Jurisdiction Assistance Grant Funding. As determined by the Department, upon its review, Grantee shall reimburse the Department for any ineligible or improper uses of grant funds.
- 11. Termination of Agreement. This Agreement may be terminated by the Department upon action, or inaction by the Grantee that constitutes a material breach of this Agreement. A material breach includes, but is not limited to, refusal or inability to complete the commitments contemplated in this Agreement or the Grant Guidelines, improper expenditure of grant funds, failure to properly maintain records or allow the Department access to records as required under this Agreement or the Grant Guidelines, and failure to timely complete and submit the reports required under this Agreement or the Grant Guidelines. The Department will notify Grantee in writing if it intends to terminate the Agreement pursuant to this section and provide Grantee an opportunity to cure the breach within thirty (30) calendar days.
- **12. Assignment.** This Agreement is not assignable by Grantee, either in whole or in part, without the consent of the Department in the form of a written amendment.
- 13. Amendment. This Agreement may be amended or modified only in writing signed by all parties.

200 0005 (40,0004)

- 14. Grantee Representations and Warranties. Grantee represents and warrants that:
 - a. Grantee is an eligible applicant as set forth in the Grant Guidelines;
 - b. It is not a party to any agreement, written or oral, creating obligations that would prevent it from entering into this Agreement or satisfying the terms herein;
 - c. All of the information in its grant application and all materials submitted to the Department are true and accurate;
 - d. Grantee's governing body has authorized the Grantee to enter into this Agreement and has designated by title the individual authorized to sign the Agreement on behalf of Grantee;
- **15. Nondiscrimination.** Grantee shall comply with all applicable federal and state laws and statutes related to nondiscrimination, including, but not limited to, race, color, national origin, gender, handicap or disability, sexual preference, drug addiction, and alcoholism.
- **16.Union Activities.** Grantee acknowledges that Government Code Section 16645.2 applies to this Agreement. Pursuant to Government Code Section 16645.2, Grantee certifies that none of the grant award will be used to assist, promote, or deter union organizing. If Grantee makes expenditures to assist, promote, or deter union organizing, it shall maintain records sufficient to show that no portion of the grant award was used for those expenditures. Grantee shall provide those records to the Attorney General upon request.
- **17.Media Release.** Grantee may elect to issue a press release related to this Agreement, but any release shall be approved by the Department in writing prior to such release. Such approval shall not be unreasonably withheld.
- 18. Indemnification/Warranty and Disclaimer/Limitation of Liability. Grantee shall defend, indemnify, and hold the Department and its agents or assigns, harmless from and against all claims, damages, and liabilities (including reasonable attorneys' fees) arising from this Agreement due to the Grantee's breach of this Agreement, or the result of the Grantee's negligence or willful misconduct. Under no circumstances will the State of California, the Department, its agents, or employees, be liable to the grantee for any direct, indirect, incidental, special, or consequential damages that arise from this agreement.
- **19.Force Majeure.** If by reason of force majeure Grantee's performance hereunder is delayed or prevented, then the performance by Grantee may be extended for the amount of time of such delay or prevention. The term "force majeure" shall mean any fire, flood, earthquake, or public disaster, strike, labor dispute or unrest, embargo, riot, war, insurrection or civil unrest, any act of God, any act of legally constituted authority, or any other cause beyond the Grantee's control which would excuse Grantee's performance as a matter of law.
- **20. Notice of Force Majeure.** Grantee agrees to provide the Department written notice of an event of force majeure under this Agreement within ten (10) days of the commencement of such event and within ten (10) days after the termination of such event, unless the force majeure prohibits Grantee from reasonably giving notice within this period. Grantee will give such notice at the earliest possible time following the event of force majeure.
- **21.Integration.** This Agreement (including the exhibits hereto and any documents explicitly incorporated by reference, and any written amendments hereof executed by the Parties) constitutes the entire Agreement between the Parties related to this grant award and supersedes all prior agreements and understandings, oral and written, between the Parties with respect to the grant

award described herein.

- **22. Notice.** Within thirty (30) calendar days of the effective date of this Agreement, Grantee shall notify the Department, in writing, of the name, address, phone number, and email of its contact person for future communication relating to this Agreement. In addition, Grantee agrees to immediately inform the Department of any changes to the name, address, phone number, and email of its contact person. Unless otherwise specified in this Agreement, any notice required or permitted to be given under this Agreement to the Department shall be emailed to grants@cannabis.ca.gov.
- 23. Ambiguities. Each Party has had the opportunity to seek the advice of counsel or has refused to seek the advice of counsel. Each Party and its counsel, if appropriate, have participated fully in the negotiation, drafting, review, and revision of this Agreement. Any rule of construction to the effect that ambiguities are to be resolved against the drafting Party shall not apply in interpreting this Agreement. The language in this Agreement shall be interpreted as to its fair meaning and not strictly for or against any Party.
- **24. Necessary Acts, Further Assurances.** The Parties shall at their own cost and expense execute and deliver any further documents and shall take such other actions as may be reasonably required or appropriate to carry out the intent and purposes of this Agreement.
- **25. Sections and Other Headings.** The section and other headings contained in the Agreement are for reference purposes only and shall not affect the meaning or interpretation of this Agreement.
- 26. Representation on Authority of Parties/Signatories. Each person signing this Agreement represents and warrants that he or she is duly authorized and has legal capacity to execute and deliver this Agreement. Each Party represents and warrants to the other that the execution and delivery of this Agreement and the performance of such Party's obligations hereunder have been duly authorized, and that this Agreement is a valid and legal agreement binding on such Party and enforceable in accordance with its terms.
- **27.Severability.** If any portion of this Agreement is to any extent invalid, illegal, or incapable of being enforced, such portion shall be excluded to the extent of such invalidity, illegality, or unenforceability; all other terms hereof shall remain in full force and effect.
- **28.Governing Law and Consent to Jurisdiction.** The Agreement will be governed, construed, and enforced according to the laws of the State of California without regard to its conflict of laws rules.
