**RE: Funds Request for Fire Safe Council of Nevada County's Firewise Communities Program.**

**Amounts Requested:**

Funds Requested: \$18,000

**Total funding = \$18,000**

**Agency/Organization Identification:**

**Name:** Fire Safe Council of Nevada County (FSCNC)

**Contact Person:** Jamie Jones, Chief Operating Officer

**Address:** P.O. Box 1112, Grass Valley, CA 95945

**Phone:** (530) 272-1122

**Fax:** (530) 272-3232

**Email:** [jamie@areyoufiresafe.com](mailto:jamie@areyoufiresafe.com)

**Project Title:**

Firewise Communities Program

**Project Description:**

The FSCNC has developed and successfully delivered many fire prevention programs throughout Nevada County for the past twenty years. The Council is proud of their success and actively seek funding to further their goal of establishing Firewise Communities. The risk of catastrophic wildfire in Nevada County is a real and ever-present hazard for residents and the natural environment including forests, watersheds, air quality, and wildlife habitat. Of the three required elements for wildfire to occur --- heat, oxygen, and fuel --- the fuel load hazard is the only element which can be proactively altered so as to reduce the wildfire hazard in Nevada County. According to the FEMA approved Local Hazard Mitigation Plan, the number one natural hazard in Nevada County is wildfires. The FSCNC is the ultimate delivery mechanism for wildfire education and prevention programs meeting the specified objectives to help reduce the risk of loss of lives, property, and natural resources from wildfire in Nevada County through the implementation of the nationally recognized Firewise Communities USA program.

The FSCNC is requesting funding for these efforts to certify 15 new Firewise Communities in the 2019/2020 fiscal year. Certification for the following Firewise Communities is being requested:

Proposed Firewise Communities:

	Community Name	Acres	# Parcels	# Improved Parcels	Sup District	Fire Agency	FW Analysis Zone
1	<a href="#">Dalmatian Drive</a>	160	55	53	1	Peardale	14
2	<a href="#">Echo Ridge</a>	470	174	150	1	NCC	6
3	<a href="#">Harmony</a>	250	46	38	1	NCC	6
4	<a href="#">Washington/Hill</a>	80	109	93	3	GVFD	10
5	<a href="#">6B Ranch and Friends</a>	640	92	77	4	NCC	9
6	<a href="#">Bitney Springs</a>	5,335	328	233	4	Penn	7
7	<a href="#">Robinson-Byron - Brem</a>	645	67	49	4	NSJ	3
8	<a href="#">Cruzon Grade</a>	1,225	125	73	4	NSJ	4
9	<a href="#">Kentucky Flat</a>	350	52	39	4	Penn	6/7
10	<a href="#">Squirrel Creek Ranches HOA</a>	315	64	60	4	R&R	7
11	<a href="#">West Sages</a>	670	47	26	4	NSJ	3
12	<a href="#">Donner Lake Woods</a>	42	46	31	5	Truckee	east
13	<a href="#">Pine Forest</a>	90	119	39	5	Truckee	east
14	<a href="#">Scotts Flat Pines Neighborhood</a>	240	22	16	5	NCC	12
15	<a href="#">Washington</a>	4,585	295	123	5	Washington	east
	<b>Total</b>	<b>15,097</b>	<b>1,641</b>	<b>1,010</b>			

FSCNC has embraced the national Firewise Communities program and actively promotes and encourages a multi-agency effort designed to reach beyond the fire service by involving homeowners, community leaders, planners, developers, and residents in the ongoing effort to protect lives, property, and natural resources from the risk of wildfire - before a fire starts. The FSCNC is proud to include the County of Nevada as a partner in these goals.

The FSCNC was recognized in 2010 by the National Fire Protection Association with the Firewise Leadership Award by quickly outpacing other counties in California in establishing new Firewise Communities. To date, FSCNC has worked with 37 individual communities in Nevada County to complete and/or retain their Firewise Community certification status. Currently FSCNC has 4 communities in the assessment phase of the certification. An additional 48 communities are currently in the process of becoming certified. FSCNC continues to actively promote Firewise Community certification throughout Nevada County.

FSCNC works in conjunction with local fire chiefs, CAL FIRE, and Registered Professional Foresters (RPF) to develop individual community wildfire hazard assessment reports, recommendations, and associated action plans to proactively address the wildfire hazard.

Continuing education for wildfire prevention is necessary due to the ongoing influx of new residents moving to the wildland from urban areas of our state. Most newcomers are unaware of the high wildfire hazard in Nevada County, or how best to mitigate it on their property and in the community. New development is ongoing and the need for awareness of Firewise concepts is critical.

**Organization Background:**

The FSCNC was established in 1998 as a 501(c)(3) non-profit corporation serving all residents of Nevada County. The organization is committed to delivering proactive fire prevention programs and projects to reduce losses from wildfire and promote the national Firewise Communities program throughout Nevada County.

The FSCNC organization is audited annually by an independent CPA. Audit reports are available on their website at [www.areyoufiresafe.com](http://www.areyoufiresafe.com). The organization is proud to have clean audit reports without exception.

**FSCNC’s Mission Statement:**

*“To provide Firewise education and programs to enhance emergency preparedness for catastrophic wildfire to all citizens in Nevada County in order to reduce the loss of life, property and natural resources and to promote Firewise Communities/USA®; to network with other Fire Safe Councils, Firewise Communities/USA®, governmental agencies and foundations for the benefit of the citizens of Nevada County.”*

This mission guides the FSCNC as they deliver community education and assistance programs with regard to fire prevention. Their goal is to enable individual communities to become official nationally recognized Firewise Communities through their direct technical assistance. The FSCNC also provides direct assistance for the annual re-certification process required by the national Firewise program.

The FSCNC is governed by a Board of Directors, representing a cross-section of the community including, professional firefighters, Registered Professional Foresters, businesses, the insurance industry, homeowners, and governmental agency representatives.

**2017-2018 FSCNC Board of Directors List:**

<b><u>Position</u></b>	<b><u>Name</u></b>	<b><u>Representing</u></b>
Chairman	Donn Thane	Retired Forest Service
Vice-Chair	Rick Noelle	Real Estate Industry
Treasurer/Secretary	Dave Walker	Certified Public Accountant
Director	Bill Drown	Law Enforcement/Fire Protection Council
Director	Sue Hoek	Board of Supervisors
Director	Hank Weston	Member at Large
Director	Eric Trygg	Member at Large
Director	Pete Williams	Member at Large
Director	Alan Doerr	GIS Specialist
Director	Steve Eubanks	Retired Tahoe National Forest Supervisor
Director	Don Wagner	Fire Chief’s Association
Director	Wanda Mertens	Insurance Industry
Associate	Heidi Hall	BOS Alternate
Associate	Crawford Bost	Member at Large
Associate	Bill Houdyschell	HOA Representative
Associate	Jim Mathias	CALFIRE
Associate	Jerry Martinez	Bureau of Land Management
Associate	Jecobie Waters	US Forest Service
Associate	Bob Long	Firewise Coalition
Associate	Gretchen Bennitt	NSAQMD Director
Associate	Josh Robinson	Banking Industry
Associate	Cathe’ Fish	Master Gardeners

In 2018, the FSCNC Board of Directors updated their strategic plan to guide the FSCNC through the next five years (2018-2023) including their focus on establishing certified Firewise Communities. FSCNC's strategic plan focuses on four specific areas: Funding; Projects; Executive/Personnel; and Education. The FSCNC Board of Directors has formed committees to implement each of these goals and strategies in the corresponding section of the plan.

The FSCNC has worked aggressively to engage homeowners, residents, community leaders, planners, realtors, and developers, to address the wildfire issue, and has achieved award-winning results in the past.

**FSCNC's Recent Accomplishments:**

<b>Program Title</b>	<b>Description</b>	<b>Results</b>
<b>Firewise Communities</b> <i>(funded by Nevada County Title III and special request funding )</i>	Formal outreach and education on the Firewise Communities program to homeowner groups, road associations and communities at risk of catastrophic wildfire	Nevada County has 37 certified Firewise Communities, and 52 on a waiting list. NFPA recently reported that Nevada County has more Firewise Communities than any other county in California.
<b>Defensible Space Chipping Program</b> <i>(Funded by PG&amp;E, California Fire Safe Council, donations, and memberships)</i>	Door-to-door service which rotates in various areas of the county each week	During the 2018-2019 fiscal year, the chipping program was able to service 249 homes which cleared an estimated 557 acres producing over 15,368 cubic yards of material.
<b>Special Needs Assistance Program</b>	Defensible Space clearing for qualified low-income seniors and/or certified physically disabled persons	SNAP funding was unavailable during the 2018-2019 fiscal year
<b>Defensible Space Advisory Visit</b> <i>(Funded by Nevada County Prop 172, donations, and memberships)</i>	Personal consultation at individual residences to teach how to effectively create and maintain wildfire defensible space.	The program provided over 1,000 one-on-one defensible space educational visits to Nevada County residents at their home.
<b>Education Workshops &amp; Community Presentations</b>	Various topics offered in a classroom setting for focused education on wildfire related issues.	Subjects include Firewise Communities, Creating Effective Defensible Space, Scotch Broom Challenge, and Emergency Preparedness. This program provided over 50 educational presentations and workshops in the community last fiscal year.

<p><b>Scotch Broom Challenge</b> <i>(Funded by undesignated contributions)</i></p>	<p>A community education and awareness program to control and reduce the highly flammable Scotch Broom and related varieties due to the impact to the landscape as wildfire ladder fuel. A landowner weed wrench loan program is available as part of this program.</p>	<p>Working with cooperating organizations, the Council challenged the community to control this highly flammable and invasive plant. 10 project sites were implemented in 2018, and 15 in 2019. Over 300 volunteers participated in this program.</p>
<p><b>Children’s Educational Outreach Program</b></p>	<p>In cooperation with local fire departments, the Council provides age-appropriate educational material for in-school fire education presentations such as elementary Fire ABC’s coloring book, middle- school Wildfire Activity Book, upper grades The Hidden Treasure-Forests &amp; Woody Biomass, and student take home flyers on fire safety topics.</p>	<p>Over 5,000 children annually receive this important fire safe program which includes not only home fire safety, but family evacuation planning, and wildfire topics.</p>
<p><b>Education Lending Library</b></p>	<p>Fire related educational books, forestry periodicals, scientific studies, DVD’s (and videos) are loaned to individuals for focused learning.</p>	<p><b>Titles Include:</b> Firewise Communities Fire Safe Inside and Out; Wildfire: Preventing Home Ignitions; Foresters: Growing Forests for Our Future; the Society of American Foresters Journal of Forestry; Be Cool About Fire Safety; Making Your Home Firewise; Fire Wars; and an Ounce of Prevention...just to name a few.</p>

It is noteworthy that virtually all programs and projects offered by the FSCNC are provided at little to no cost to participants. FSCNC does not require any contribution for accessing services or participating in fuel reduction projects. Due to the lack of funding for grant writing and overhead/administration, in 2009 the Council’s Board of Directors provided a suggested donation schedule for all FSCNC’s programs which has proven to increase the direct financial contributions from the community. These dollars serve as local matching for the various grant program operations that grants do not provide funding for. In July 2010, the Council began a membership program to help fill the void reduced funding under the Title III program would leave. According to FSCNC’s independent accountant for the 2018-2019 fiscal year, the Council raised \$42,857 in donations, \$15,749 from memberships, and close to \$22,523 from fundraising activities.

The Firewise USA community investment report verified there were \$ \$2,187,834 of in-kind and dollar match contributions in 2018 and to date, 2019 has already recorded \$1,015,116.37. This amount exceeded the match requirement of this program for the 2018-19 fiscal year. FSCNC is humbled by the strong support from the community and are pleased with their progress to become more self-reliant, outside of grant funding.

Many insurance companies have issued non-renewal notices to residents living in Nevada County due to the very high wildfire hazard risk (as rated by CAL FIRE). Beginning in 2012 the USAA, a national insurance carrier, began visiting the Fire Safe Council of Nevada County with the objective of touring each certified Firewise Community to determine if the ground conditions warranted an effort to establish a rate reduction profile. Their visits were successful in verifying a reduced fire hazard risk in certified Firewise Communities, and they have filed a rate reduction program with the California Insurance Commissioner for homeowners living within certified Firewise Communities. This is a testament to the results the FSCNC's efforts yield, in terms of the ability to retain homeowners' insurance, as well as homeowner's potentially qualifying for financial savings through rate reductions in their premiums. It also demonstrates the success of the Firewise Communities program in terms of creating a sustainable desired condition on the ground for wildfire prevention.

**Tasks Included:**

Homeowner presentations, homeowner association Board of Director presentations, community wildfire hazard field assessments, written hazard assessments with mitigation recommendations, planning for Firewise Community education day celebrations including vendor booths, equipment and product demonstrations, assistance with grant applications for project funding identified in Firewise community assessments, media relations, press releases, and talk radio guest speaking as necessary to entice communities in submitting an application for formal Firewise Community designation.

<b>Expenses:</b>	<b>Amounts:</b>
Funds are to be used to contract Firewise Community Assessments to qualified person(s). This includes Registered Professional Foresters, Fire Scientists and Local Fire Agencies.	\$18,000
<b>Total</b>	<b>\$18,000</b>

**Utilization of Requested Funding:**

The funding requested provides for the FSCNC to conduct education, promotion, and implementation of the national Firewise Communities concept with FSCNC's institutional base of operations providing fire prevention programs throughout Nevada County. Specifically, the certification of the aforementioned Firewise Communities. Funds will be utilized for the completion of the Community assessments by a contractor to be determined through the FSCNC's selection process.

This funding will provide for up to 15 Firewise Community Certifications. This process will include Firewise Community Certifications during the 2019-20 fiscal year. The selected Firewise Communities have been decided based chronological wait, acreage and residential concentration. Collaboration from the Nevada County Firewise Coalition will assist in the ongoing education and outreach for the Firewise program continues as part of FSCNC's formal Strategic Plan.

**Success Measurements:**

The Firewise Communities program serves any Nevada County resident willing to participate. The expected outcome is to add designated Firewise Communities throughout all of Nevada County to the national registry. FSCNC's goal includes to add a minimum of twenty additional Firewise Communities in 2019-20. Further benefits include an overall reduced risk of wildfires, the creation of safer evacuation routes, and reduced potential for structural loss due to awareness of the effectiveness of defensible space and hardening of structures. Other measurements of success through earned media placements for Firewise objectives are tracked to indicate the success of FSCNC's educational and outreach efforts. The expected outcome for media relations activities would include 12 printed and radio placements. The timeline to complete the process to become a certified Firewise Community has decreased significantly,

thanks to our expanded partnership with the County of Nevada. What typically took 12-18 months from the initial commitment, to completing the formal wildfire hazard assessment, writing the report with recommendations, developing an action plan, and hosting a community education day only takes 3-9 months.

Thank you for considering funding the Firewise Communities program at the FSCNC. The County's continued support and strong partnership with the FSCNC will create more Firewise Communities in Nevada County while improving overall public safety through wildfire fuel mitigation. If you would like further information or need clarification on items contained herein, please contact me at (530) 272-1122.

Sincerely yours,

Jamie Jones  
FSCNC Chief Operating Officer
