## **NEVADA COUNTY BOARD OF SUPERVISORS** **Board Agenda Memo**

---

**MEETING DATE:** September 12, 2017  
**TO:** Board of Supervisors  
**FROM:** Steve Monaghan, Chief Information Officer  
**SUBJECT:** 2017-2020 Information and Communication Technology Strategic Plan

**RECOMMENDATION:** Approve the attached resolution adopting the 2017-2020 Information and Communication Technology Strategic Plan.

**FUNDING:** There is no direct cost to approving the 2017-2020 Information and Communication Strategic Plan. Projects identified in the plan will be funded from a variety of sources and their funding will be subject to the usual processes for Board of Supervisors review and actions as they are undertaken.

**BACKGROUND:** The Information and Communication Technology Strategic Plan is a three-year "rolling" countywide strategic planning document that is updated approximately every three years. This is the fifth update to the plan since the new format and approach were established in 2000. The Strategic Plan's purpose is to provide the overall vision, direction and prioritization for countywide technology initiatives and issues.

Through the use of our established information technology governance structure, the Communities of Interests (COI) participated in the process of establishing countywide technology goals and projects to achieve these goals. The Information Systems Steering Board (ISSB) has approved the list of initiatives and associated projects as shown in this 2017 update.

**Item Initiated by:** Diana Carolan  
**Item Approved by:** Steve Monaghan
