Project Title: Combie Rd Multi-Purpose Trail Project

Total Project Cost: \$1,380,000

Total Requested Amount of LTF Pedestrian/Bicycle Funds: \$45,000

Project Description: This project proposes to construct a Class 1 pathway for non-motorized users on the north side of Combie Road from the intersection of Higgins Dr. to W. Hacienda Road near Lake of the Pines in Nevada County, CA. Currently disjointed segments of sidewalk and pathway on the route do not allow pedestrians and bicyclists to safely traverse the Combie Road corridor, which contains a number of essential uses and services such as grocery stores, a drug store/pharmacy, banks, hardware stores, schools, churches and residents. The separated pathway will link the pedestrian crossing at Higgins Road where there is a large commercial center with planned high density residential uses; to a segment of pathway at Cascade Crossing, a residential development; to an existing sidewalk and separated pathway at West Hacienda Drive, which access three schools (K-12), a commercial center and the Lake of the Pines residential community. The new pathway would be approximately 3,000 feet long and 8 feet wide. The majority of the project design and all of the right of way and State California Environmental Quality Act environmental permitting have been completed. The project will provide gap closures and remove mobility barriers by providing a continuous and safe, separated pathway that will result in fewer non-motorized conflicts on this busy corridor.
