## Youth Art Month: Young at Art Arts Education in Nevada County Schools

Scott W. Lay, Nevada County Superintendent of Schools

Over the past decade there has been a greater emphasis on the arts in education which in turn has provided expanded opportunities for enhanced arts education.

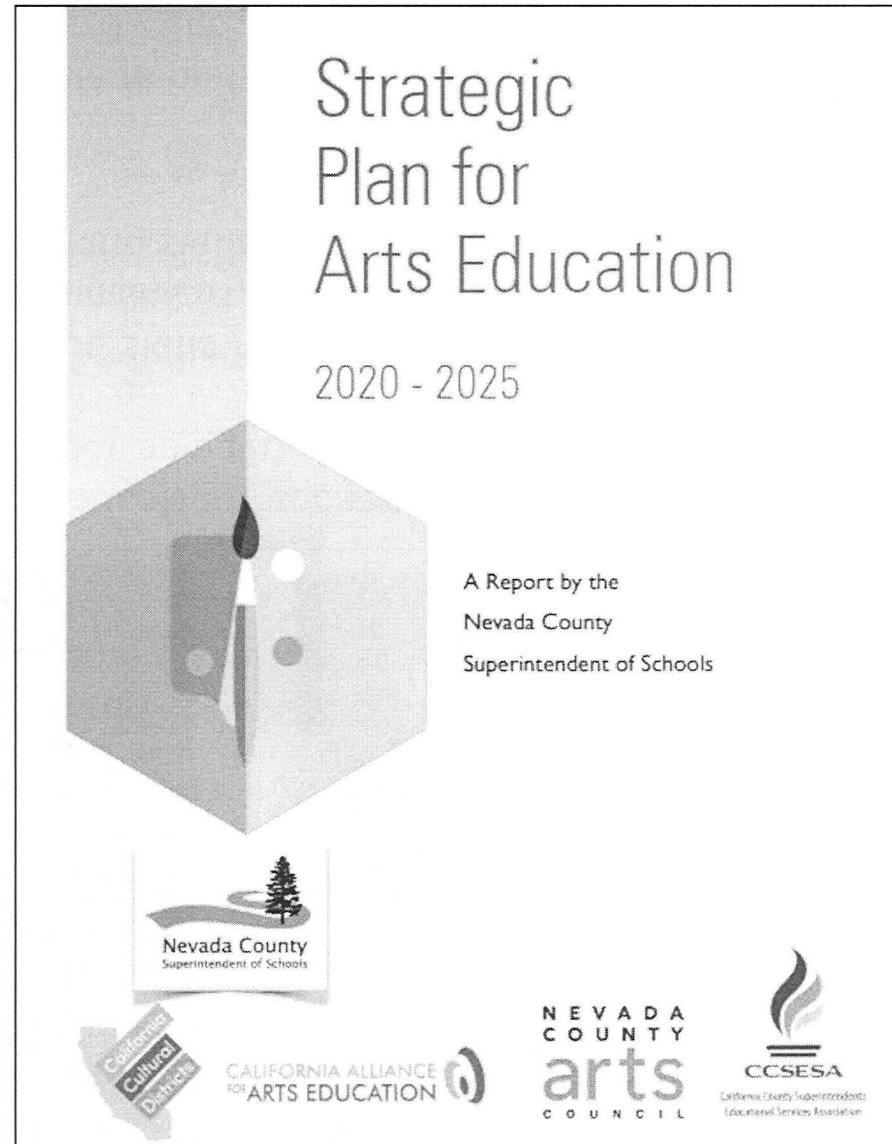

- The state of California passed Proposition 28: Arts & Music in Schools program, which guarantees an annual funding stream for music and arts education (roughly \$938 million, or 1% of the state's funding guarantee (Prop 98).
- The 2022 Budget Act's one time Arts, Music, & Instructional Materials (AMIM) Discretionary Block Grant (available through the 2025-2026 fiscal year).
- Chronic absenteeism has districts looking for ways to engage students through the arts by increasing their course and Extended Learning Opportunities (ELOP) offerings.
- Educators have robust guidelines to follow and resources to tap into (the 2020 Arts Framework- the "how" to teach and the rollout of the 2019 Visual and Performing Arts Standards- the "what" to teach.

## Documents That Guide Arts Education in California:

- The California Preschool Learning Foundations Volume 2 (preschool)
- The 2019 California Arts Standards (transitional kindergarten through grade twelve)
- The 2020 Arts Framework (transitional kindergarten through grade twelve)
- California Career Technical Education Model Curriculum Standards for Arts Media and Entertainment (grades seven through twelve may include courses aligned to these standards)

## NCSoS' Strategic Arts Plan

- Nevada County is engaged in a local Strategic Arts Plan for implementing more Arts Education into our schools.
- Revisions to the plan will occur in the 2024-2025 school year.

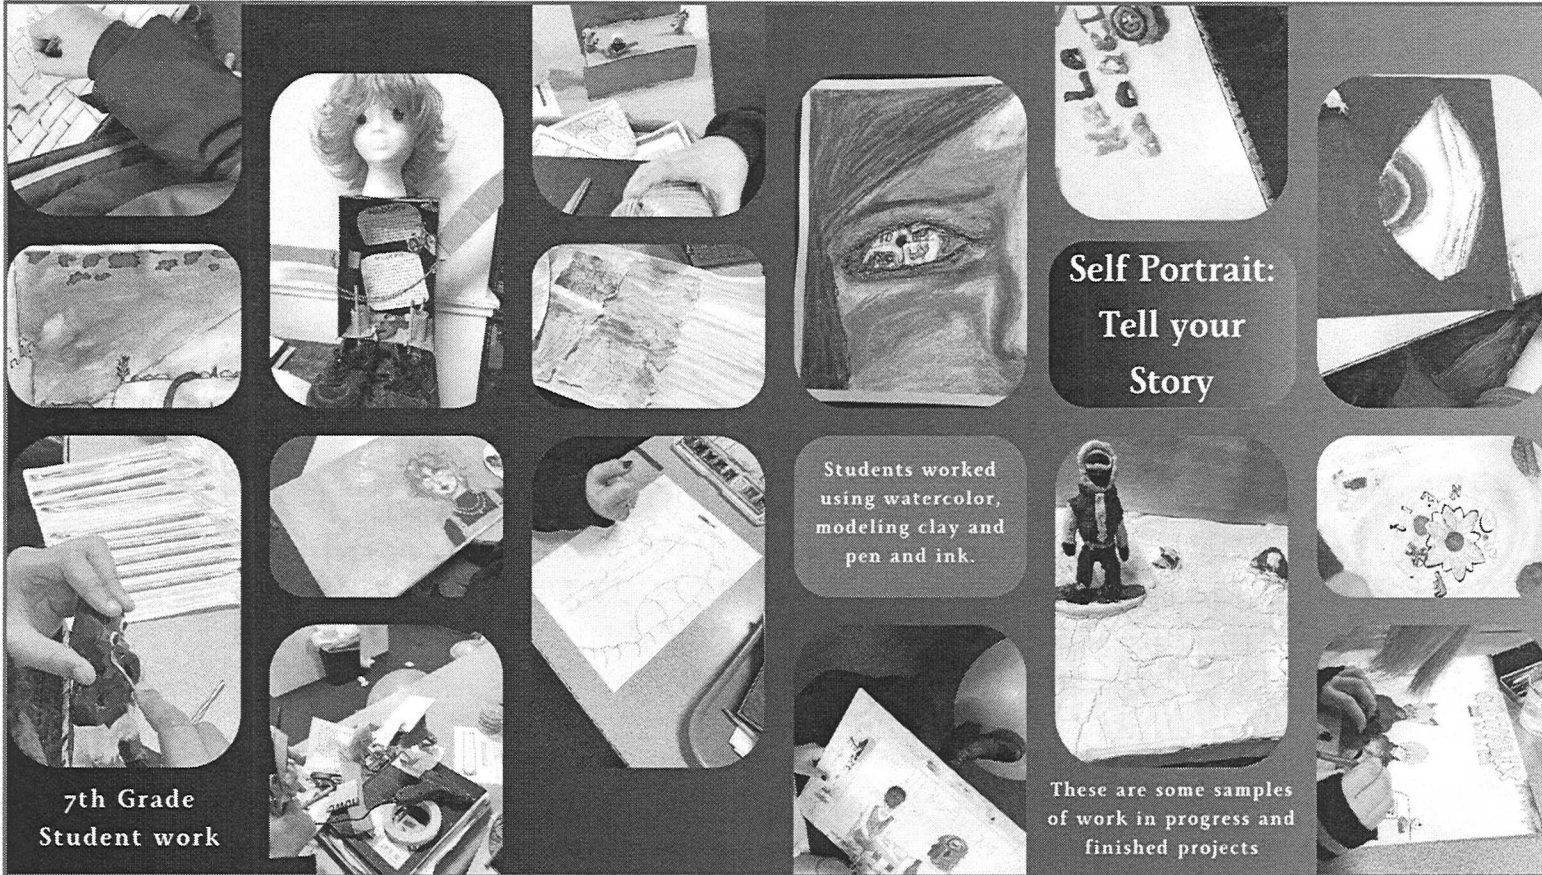

There is proven recognition that the arts in education teaches lifelong skills beyond mastering how to sing, dance, design, act or paint.

Forbes' World Economic Forum outlined the top skills individuals need to thrive in today's economy: creativity, collaboration, communication, critical thinking, and analytical skills. Arts education enhances thinking skills and fosters imagination and innovation.

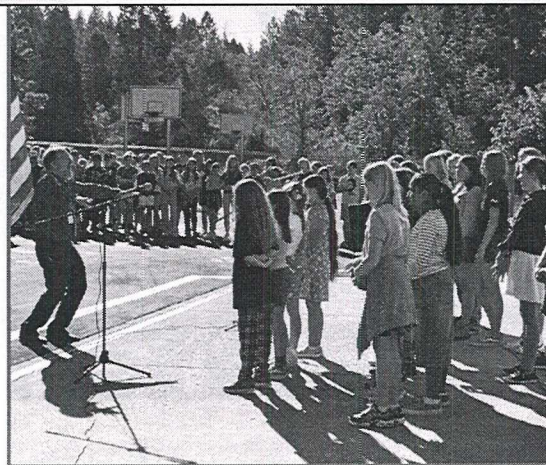

The arts help better prepare students for college and the workforce by giving them the necessary skills of innovation, creativity and imagination to be successful and competitive in today's global market.

Arts education exposes children to a variety of cultures while enriching their learning experience and teaching them how to be empathetic, tolerant and open to working with others, all necessary skills to prepare students for the 21<sup>st</sup> Century and a multicultural, multi-ethnic society.

Exposing our students to *classical music* daily in the classroom not only provides an opportunity to learn about music and the story behind the composer and song, but it calms and centers students to help them be better prepared for all learning activities. Mindfulness and self-regulation are the newest and most effective cognitive practices classrooms often use.

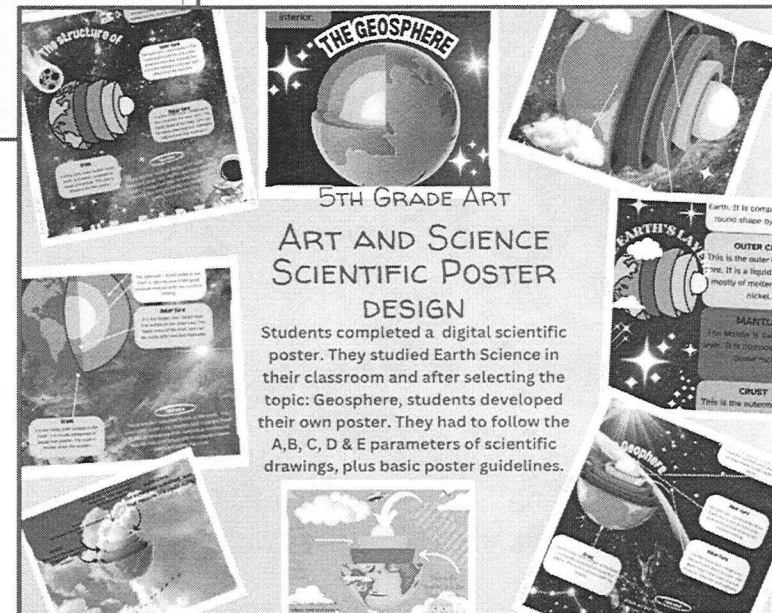

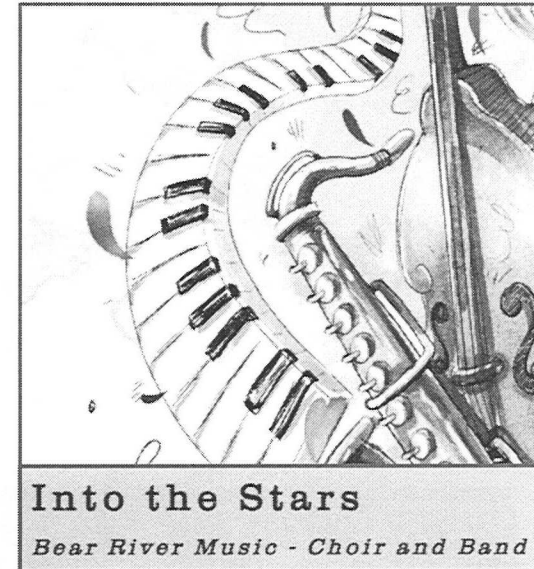

## School and Community Benefits:

The arts facilitate a students learning in all subject areas. The arts are integrated across subject areas in the Common Core State Standards and beyond.

A comprehensive arts education curriculum nurtures a collaborative school culture, building a sense of community within a school and creates ties to surrounding communities and cultures of the world.

A well-rounded arts education has proven to increase student attendance, create connections to curriculum, and build positive behavior, creating a stronger learning environment.

The need to engage students in creative ways has turned the attention to the arts. With the increased funding statewide, the time is ripe. Some sites have hired full time music and visual arts teachers.

As always, finding community partnerships to help support the arts in the schools is necessary and welcomed. Nevada County has incredible partnerships with art organizations and community agencies.

The Arts make me feel alive!

### Student Testimonials:

As someone who struggles with things such as mental illness, art can be really comforting, help me cope through difficult times, bring me out of dark moments, and in general keeps me stabilized. I will continue with art as a hobby and freelance commissions.

The Arts make me feel good about myself! The Arts make me feel super!

They make me feel calm. I play four different instruments and I draw every day in my sketchbook. I am really strong because of the arts.

The Arts are one of the most important things in my day. When I get to play the piano at school it helps me stay focused. When I get to choose the art I do after school, it helps me enjoy school. It helps me thrive through the rest of my day. I have flexibility- I get to fix a piano here! The Arts make my other subjects easier.
