- Eighteen (18) years of age or older;
- Crisis Intervention, meaning a service that requires more timely response than a regularly scheduled visit, or the person possibly being at risk of needing psychiatric hospitalization;
- Discharged, or transferred while on a 5150 hold, from an ED, and determined to be both medically cleared of any need for inpatient medical procedures and medically appropriate for the CSU; Clients may be admitted to the CSU while on a 5150 hold for purpose of providing assessment, evaluation and crisis intervention services pending psychiatric hospitalization or release from the 5150 custodial hold within twenty-three (23) hours of admission to the CSU. Appropriateness of admission while on a 5150 custodial hold includes a clinical determination by both the treating ED physician and the CRT that the CSU is the most appropriate location at that time for assessment, evaluation, and crisis intervention. Individuals on a 5150 hold who are determined to pose a threat to the safety and security of other CSU clients or staff due to aggressive, violent, disruptive, or dangerous behaviors, shall not be admitted to the CSU. The CRT may also, at times, need to re-assess a CSU client who psychiatrically escalates while in the CSU for re-determining the appropriateness of that admission. These assessments will consider whether the staffing and interventions available to the CSU will meet the psychiatric and behavioral health needs of the client, including whether the environment and support of the CSU specifically is adequate in managing potentially dangerous behavior. Staff at the CSU may also do this re-assessment if they are also a member of the CRT, and bill their time for this activity to the CRT contract.

2) Any time a client cannot be managed in the CSU, including upon a determination that the client poses a threat to other CSU clients or staff due to aggressive, violent, disruptive, or dangerous behaviors, they will be referred back to the SNMH ED or to another medical or

Upon admission to the CSU, the client will have a collaborative meeting that includes a Crisis Unit Specialist, and if available the client's family / supports to develop the best plan for the stay in the CSU. The discharge plan, which includes a Recovery Plan and Relapse Prevention Plan, will be initiated in the first few hours of the CSU stay, and completed prior to leaving the CSU at discharge. The discharge plan provides a clear outline of both strategies for staying safe and linkages to services with community services.

- 3) All clients are to be discharged from the CSU within 23 hours. The CSU supervisor and the County designee must be immediately notified of an exception (e.g., severe weather, etc.) of a client staying longer than 23 hours at the CSU. Any client on a 5150 hold while at the CSU who appears to no longer meet criteria for 5150 will be assessed by the CRT, and be cleared by the on call psychiatrist for a rescind or expiration of the 5150.
- 4) The goal of the CSU is to help stabilize risk factors and eventually, following the resolution of the crisis, to support the client to integrate back into the community and/or reduce the reoccurrence of crises, as well as help clients stay connected to the community. The contractor will integrate family members and other supports in the community into the provided services as much as reasonably possible. - 5) Each client will be discharged from CSU with a Recovery Plan that includes a comprehensive plan to manage risks and to prevent relapse. The plan will be developed after ongoing assessments and needs identification, using motivational interviewing and the Recovery perspective. In addition to identifying relapse prevention strategies, the plans will include the topics of clinical interventions of medication, nursing, psychotherapy, service coordination, and an identification of potentially effective interventions of outside agencies and community resources will be considered in how they will proceed with the client's discharge from the CSU.

5. **Deductible and Self-Insured Retentions** Deductible and Self-insured retentions must be declared to and approved by County. County may require Contractor to provide proof of ability to pay losses and related investigations, claims administration, and defense expenses within the retention. However, failure to obtain and provide verification of the required documents prior to the work beginning shall not waive Contractor's obligation to provide them. County reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.
9. **Subcontractors** Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that

County is an additional insured on insurance required from subcontractors. For CGL coverage subcontractors shall provide coverage with a format at least as broad as CG 20 38 04 13.

10. **Special Risks or Circumstances** County reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.
11. **Conformity of Coverages** If more than one policy is used to meet the required coverages, such as an umbrella policy or excess policy, such policies shall be following form with all other applicable policies used to meet these minimum requirements. For example, all policies shall be Occurrence Liability policies, or all shall be Claims Made Liability policies, if approved by County as noted above. In no cases shall the types of policies be different.
12. **Premium Payments** The insurance companies shall have no recourse against County and funding agencies, its officers and employees or any of them for payment of any premiums or assessments under any policy issued by a mutual insurance company.

Upon initial award of a Contract to your firm, you may be instructed to send the actual documents to a County contact person for preliminary compliance review.

Article 3. SERVICES AND ACCESS PROVISIONS

1. CERTIFICATION OF ELIGIBILITY

Contractor will, in cooperation with County, comply with Section 14705.5 of California Welfare and Institutions Code to obtain a certification of a client’s eligibility for SMHS under Medi-Cal.

2. ACCESS TO SPECIALTY MENTAL HEALTH SERVICES

- A. In collaboration with the County, Contractor will work to ensure that individuals to whom the Contractor provides SMHS meet access criteria, as per DHCS guidance specified in BHIN 21-073. Specifically, the Contractor will ensure that the clinical record for each client includes information as a whole indicating that client's presentation and needs are aligned with the criteria applicable to their age at the time of service provision as specified below.
- B. For enrolled clients under 21 years of age, Contractor shall provide all medically necessary SMHS required pursuant to Section 1396d(r) of Title 42 of the United States Code. Covered SMHS shall be provided to enrolled clients who meet either of the following criteria, (I) or (II) below. If a client under age 21 meets the criteria as described in (I) below, the beneficiary meets criteria to access SMHS; it is not necessary to establish that the beneficiary also meets the criteria in (II) below.
- I. The client has a condition placing them at high risk for a mental health disorder due to experience of trauma evidenced by any of the following: scoring in the high-risk range under a trauma screening tool approved by DHCS, involvement in the child welfare system, juvenile justice involvement, or experiencing homelessness.
- II. The client has at least one of the following:
- a. A significant impairment
 - b. A reasonable probability of significant deterioration in an important area of life functioning
 - c. A reasonable probability of not progressing developmentally as appropriate.
 - d. A need for SMHS, regardless of presence of impairment, that are not included within the mental health benefits that a Medi-Cal Managed Care Plan (MCP) is required to provide.
AND the client's condition as described in subparagraph (II a-d) above is due to one of the following:
 - e. A diagnosed mental health disorder, according to the criteria in the current editions of the Diagnostic and Statistical Manual of Mental Disorders (DSM) and the International Classification of Diseases and Related Health Problems (ICD).

- f. A suspected mental health disorder that has not yet been diagnosed.
 - g. Significant trauma placing the client at risk of a future mental health condition, based on the assessment of a licensed mental health professional.
- C. For clients 21 years of age or older, Contractor shall provide covered SMHS for clients who meet both of the following criteria, (I) and (II) below:
 - I. The client has one or both of the following:
 - a. Significant impairment, where impairment is defined as distress, disability, or dysfunction in social, occupational, or other important activities.
 - b. A reasonable probability of significant deterioration in an important area of life functioning.
 - II. The client's condition as described in paragraph (I) is due to either of the following:
 - a. A diagnosed mental health disorder, according to the criteria in the current editions of the DSM and ICD.
 - b. A suspected mental disorder that has not yet been diagnosed.

3. ADDITIONAL CLARIFICATIONS

A. Criteria

- I. A clinically appropriate and covered mental health prevention, screening, assessment, treatment, or recovery service listed within Exhibit A of this Agreement can be provided and submitted to the County for reimbursement under any of the following circumstances:
 - a. The services were provided prior to determining a diagnosis, including clinically appropriate and covered services provided during the assessment process;
 - b. The service was not included in an individual treatment plan; or
 - c. The client had a co-occurring substance use disorder.

B. Diagnosis Not a Prerequisite

- I. Per BHIN 21-073, a mental health diagnosis is not a prerequisite for access to covered SMHS. This does not eliminate the requirement that all Medi-Cal claims, including SMHS claims, include a current Centers for Medicare & Medicaid Services (CMS) approved ICD diagnosis code.

4. MEDICAL NECESSITY

- A. Contractor will ensure that services provided are medically necessary in compliance with BHIN 21-073 and pursuant to Welfare and Institutions Code section 14184.402(a). Services provided to a client must be medically necessary and clinically appropriate to address the client's presenting condition. Documentation in each client's chart as a whole will demonstrate medical necessity as defined below, based on the client's age at the time-of-service provision.
- B. For individuals 21 years of age or older, a service is "medically necessary" or a "medical necessity" when it is reasonable and necessary to protect life, to prevent significant illness or significant disability, or to alleviate severe pain as set forth in Welfare and Institutions Code section 14059.5.
- C. For individuals under 21 years of age, a service is "medically necessary" or a "medical necessity" if the service meets the standards set forth in Section 1396d(r)(5) of Title 42 of the United States Code.

5. COORDINATION OF CARE

- A. Contractor shall ensure that all care, treatment and services provided pursuant to this Agreement are coordinated among all providers who are serving the client, including all other SMHS providers, as well as providers of Non-Specialty Mental Health Services (NSMHS), substance use disorder treatment services, physical health services, dental services, regional center services and all other services as applicable to ensure a client-centered and whole-person approach to services.
- B. Contractor shall ensure that care coordination activities support the monitoring and treatment of comorbid substance use disorder and/or health conditions.
- C. Contractor shall include in care coordination activities efforts to connect, refer and link clients to community-based services and supports, including but not limited to educational, social, prevocational, vocational, housing, nutritional, criminal justice, transportation, childcare, child development, family/marriage education, cultural sources, and mutual aid support groups.
- D. Contractor shall engage in care coordination activities beginning at intake and throughout the treatment and discharge planning processes.

- E. To facilitate care coordination, Contractor will request a HIPAA and California law compliant client authorization to share client information with and among all other providers involved in the client's care, in satisfaction of state and federal privacy laws and regulations.
6. CO-OCCURRING TREATMENT AND NO WRONG DOOR
- A. Per BHIN 22-011, Specialty and Non-Specialty Mental Health Services can be provided concurrently, if those services are clinically appropriate, coordinated, and not duplicative. When a client meets criteria for both NSMHS and SMHS, the client should receive services based on individual clinical need and established therapeutic relationships.
