5. **Exhibits** All exhibits referred to herein and attached hereto are incorporated herein by this reference.
6. **Electronic Signatures** The Parties acknowledge and agree that this Contract may be executed by electronic signature, which shall be considered as an original signature for all purposes and shall have the same force and effect as an original signature. Without limitation, “electronic signature” shall include faxed or emailed versions of an original signature or electronically scanned and transmitted versions (e.g., via pdf) of an original signature.
7. **Time for Performance** Time is of the essence. Failure of Contractor to perform any services within the time limits set forth in Exhibit A, or elsewhere in this Contract, shall constitute material breach of this contract. Contractor shall devote such time to the performance of services pursuant to this Contract as may be reasonably necessary for the satisfactory performance of Contractor's obligations pursuant to this Contract. Neither Party shall be considered in default of this Contract to the extent performance is prevented or delayed by any cause, present or future, which is beyond the reasonable control of the Party.
8. **Liquidated Damages**
Liquidated Damages are presented as an estimate of an intangible loss to the County. It is a provision that allows for the payment of a specified sum should Contractor be in breach of contract. Liquidated

9. **Relationship of Parties**

9.1. **Independent Contractor**

In providing services herein, Contractor, and the agents and employees thereof, shall work in an independent capacity and as an independent contractor and not as agents or employees of County. Contractor acknowledges that it customarily engages independently in the trade, occupation, or business as that involved in the work required herein. Further, the Parties agree that Contractor shall perform the work required herein free from the control and direction of County, and that the nature of the work is outside the usual course of County's business. In performing the work required herein, Contractor shall not be entitled to any employment benefits, Workers' Compensation, or other programs afforded to County employees. Contractor shall hold County harmless and indemnify County against such claim by its agents or employees. County makes no representation as to the effect of this independent contractor relationship on Contractor's previously earned California Public Employees Retirement System ("CalPERS") retirement benefits, if any, and Contractor specifically assumes the responsibility for making such determination. Contractor shall be responsible for all reports and obligations including but not limited to: social security taxes, income tax withholding, unemployment insurance, disability insurance, workers' compensation and other applicable federal and state taxes.

9.2. **No Agent Authority** Contractor shall have no power to incur any debt, obligation, or liability on behalf of County or otherwise to act on behalf of County as an agent. Neither County nor any of its agents shall have control over the conduct of Contractor or any of Contractor's employees, except as set forth in this Contract. Contractor shall not represent that it is, or that any of its agents or employees are, in any manner employees of County.

9.3. **Indemnification of CalPERS Determination** In the event that Contractor or any employee, agent, or subcontractor of Contractor providing service under this Contract is determined by a court of competent jurisdiction or CalPERS to be eligible for enrollment in CalPERS as an employee of County, Contractor shall indemnify, defend, and hold harmless County for all payments on behalf of Contractor or its employees, agents, or subcontractors, as well as for the payment of any penalties and interest on such contributions, which would otherwise be the responsibility of County.

10. **Assignment and Subcontracting** Except as specifically provided herein, the rights, responsibilities, duties and services to be performed under this Contract are personal to Contractor and may not be transferred, subcontracted, or assigned without the prior written consent of County. Contractor shall not substitute or replace any personnel for those specifically named herein or in its proposal without the prior written consent of County.

Contractor shall cause and require each transferee, subcontractor, and assignee to comply with the insurance provisions and information technology security provisions set forth herein, to the extent such insurance provisions are required of Contractor under this Contract. Failure of Contractor to so cause and require such compliance by each transferee, subcontractor, and assignee shall constitute a material breach of this Contract, and, in addition to any other remedy available at law or otherwise, shall serve as a basis upon which County may elect to suspend payments hereunder, or terminate this Contract, or both.

11. **Licenses, Permits, Etc.** Contractor represents and warrants to County that Contractor shall, at its sole cost and expense, obtain or keep in effect at all times during the term of this Contract, any licenses,

permits, and approvals which are legally required for Contractor to practice its profession at the time the services are performed.

12. **Hold Harmless and Indemnification Contract** To the fullest extent permitted by law, each Party (the “Indemnifying Party”) hereby agrees to protect, defend, indemnify, and hold the other Party (the “Indemnified Party”), its officers, agents, employees, and volunteers, free and harmless from any and all losses, claims, liens, demands, and causes of action of every kind and character resulting from the Indemnifying Party’s negligent act, willful misconduct, or error or omission, including, but not limited to, the amounts of judgments, penalties, interest, court costs, legal fees, and all other expenses incurred by the Indemnified Party arising in favor of any party, including claims, liens, debts, personal injuries, death, or damages to property (including employees or property of the Indemnified Party) and without limitation, all other claims or demands of every character occurring or in any way incident to, in connection with or arising directly or indirectly out of, the Contract. The Indemnifying Party agrees to investigate, handle, respond to, provide defense for, and defend any such claims, demand, or suit at the sole expense of the Indemnifying Party, using legal counsel approved in writing by Indemnified Party. Indemnifying Party also agrees to bear all other costs and expenses related thereto, even if the claim or claims alleged are groundless, false, or fraudulent. This provision is not intended to create any cause of action in favor of any third party against either Party or to enlarge in any way either Party’s liability but is intended solely to provide for indemnification of the Indemnified Party from liability for damages, or injuries to third persons or property, arising from or in connection with Indemnifying Party’s performance pursuant to this Contract. This obligation is independent of, and shall not in any way be limited by, the minimum insurance obligations contained in this Contract.
13. **Standard of Performance** Contractor shall perform all services required pursuant to this Contract in the manner and according to the standards observed by a competent practitioner of the profession in which Contractor is engaged in the geographical area in which Contractor practices its profession. All products of whatsoever nature which Contractor delivers to County pursuant to this Contract shall be prepared in a substantial first class and workmanlike manner and conform to the standards or quality normally observed by a person practicing in Contractor's profession.

Valley Vets' Hall and the extraordinary work they contribute to the County to support our most vulnerable communities. Collectively, they have a wealth of experience with, and data they have collected from the groups they represent that made their roles in this project immediately clear: supporting communication and resources to home-bound residents, providing social support, educational outreach, and gathering space for seniors and residents of all ages, and providing food for low-income residents and families.

The partners have worked together previously, with some examples outlined below:

IFM and GCSS have collaborated on a monthly emergency food bag program serving Meals on Wheels and other senior clients, which was launched due to funding by a Dignity Health grant and has continued to this day. The new Sierra Gold Community Senior Center operated by GCSS is located in a building that shares its parking lot with IFM. They are now neighbors!

FREED has funded GCSS in the past to provide Options Counseling services to older adults applying for Meals on Wheels, and GCSS played a significant role in the development of the Nevada County Aging and Disability Local Playbook. In addition, their Executive Director leads a FREED workgroup and other staff participate in multiple workgroups.

GCSS has worked with the Nevada County to renovate and open a senior center. IFM and Nevada County have partnered on many different programs and grants, including CDBG, CSBG, CIF, Community Resiliency Funds, and IFM has presented several times to the Board of Supervisors on the state of food insecurity in Nevada County.

During COVID, FREED partnered with IFM to support referrals to their meal and grocery delivery program. FREED funds were used to provide meals, as well as emergency preparedness materials to IFM participants.

Historical Community Engagement

Local data on the aging and disability landscape of Nevada County was collected from multiple partner agencies, community stakeholders, and research conducted from state and online sources. Every effort was made to be as inclusive and comprehensive as possible. In June 2022, Ellis Planning and Associates facilitated the Nevada County “Master Plan for Aging and Disabilities Local Playbook Planning” workshop. The purpose of the workshop was to gain stakeholder input on the strategic initiatives for the Local Playbook utilizing the data that was collected. The workshop consisted of a diverse group of 20 participants, representing local

leaders and decision-makers, as well as program managers and coordinators servicing the aging and disability populations in Nevada County. In table groups corresponding with the California MPA's bold goal areas, workshop participants drafted six (6) strategic actions that would leverage the driving forces and address the restraining forces to achieve the goal. From March to April 2023, input was received by Local Playbook Workshop participants, community organizations, and the public through an extensive outreach and review effort including a public input process coordinated by Nevada County.

Each department will designate a representative to participate in the regular CSS meetings, though additional representatives may also attend. If a designated representative is not able to attend a meeting, they must identify an alternate to represent them at least the day prior to a meeting and inform the Program Manager of such alternate representative.

The Steering Committee will be the only members capable of awarding contracts, per County policy.

Steering Committee members' primary responsibilities include:

1. Participate in quarterly meetings;

All Partners will participate in regular CSS meetings and are expected to have a representative from their organization participate in every meeting. If no representative from a Partner can participate in the meeting, they will schedule a follow-up call with the Program Manager. If a Partner misses two consecutive meetings, the Co-Chairs will schedule a call with the Partner to identify barriers to meeting attendance and develop a plan to ensure future meeting participation. If issues relating to meeting attendance continue, then the Co-Chairs will follow the process outlined below related to performance issues.

Each of the Partners will manage their project elements as described in the Workplan deliverables. Updates to work plans and issues related to timing will be coordinated by the Program Manager and will be discussed in the regular CSS meetings. These updates will help ensure that all projects are on schedule and allow for early identification of any potential issues or project implementation delays. The partners will work together to record minutes and publish meeting materials.

If there are issues related to performance for the Partners or their subconsultants, an individual meeting with the Co-Chairs will be scheduled by the Program Manager to address issues and develop a plan to resolve the concerns. If performance issues persist, the Co-Chairs will work with the Steering Committee to identify a path to resolution using the process identified in the decision-making processes, performance issues and conflict resolution section below.

D. Resident Representatives

The Steering Committee and Partners will use the outreach and selection process described herein to recruit a minimum of two community members to serve on the CSS as Resident Representatives. The Resident Representatives are required to live within Western Nevada County and must demonstrate they are trusted members of the community.

Resident Representatives will serve for the duration of the grant term, or until they resign. If a Resident Representative resigns, the CSS will implement the established outreach and selection process to recruit a new Resident Representative.

Resident Representatives are required to attend scheduled CSS meetings and are highly encouraged to attend other community meetings to adequately represent community perspectives and to provide feedback to the CSS. Resident Representatives will hold one vote each.

If the resident member misses two consecutive meetings, the Partners will schedule a call with the resident member to identify barriers to meeting attendance and develop a plan to ensure future meeting participation. If issues relating to meeting attendance continue, then the Partners and/or Co-Chairs will discuss finding a new resident member.

E. Program Manager:

A Program Manager position will be a designated County staff member to oversee the grant and its related activities, including managing progress and ensuring the deliverables are being met. This position will coordinate efforts and collaboration amongst members of the CSS.

Resident Representative Outreach and Selection Process

The CSS will use the process outlined herein for selecting Resident Representatives. The CSS may establish a panel to carry out specific selection duties.

A. Defining Selection Criteria

1. Beginning at the first scheduled meeting, the CSS will define the Resident Representative selection criteria to identify the qualities and qualifications desired in a Resident Representative.
 - a) The Resident Representatives are required to live within Western Nevada County and must demonstrate they are trusted members of the community.
 - b) Unless modified by the CSS, the default selection criteria for evaluating candidate Resident Representatives shall be community involvement, leadership skills, communication abilities, and commitment to the community.

B. Applicant Outreach

1. During recruitment for Resident Representatives, outreach will be through print and digital communication.
2. Digital flyers will be distributed to community organizations like the Partners, local veteran groups, and the local Native American group (CHIRP), to share with their members or at their events.
3. Printed flyers will be posted in Western Nevada County libraries (Bear River, Penn Valley, Grass Valley, and Nevada City) and the Eric Rood Administrative Center.
4. Additionally, a quick post will be included in the Nevada County weekly email that is distributed to internal county staff, as well as local community residents and constituents.

C. Application Process

1. Potential prospects will submit an application that includes applicant information, questions related to the selection criteria, and a commitment acknowledgment.
2. The Application form included herein as Exhibit B shall be used, unless modified by the CSS when defining the selection criteria or otherwise.

D. Candidate Evaluation

1. An initial screening will be performed to ensure candidates meet basic criteria. This can be done by a small subcommittee of individual members of the CSS, as delegated by the CSS.
2. A standardized evaluation form, such as the form included as Exhibit C, would be used to assess each candidate. This should be done by a panel of representatives from the Steering Committee and Partners.
3. Interviews may be conducted with shortlisted candidates to further assess their suitability.

E. Final Selection

1. Based on the results of candidate evaluations, a final shortlist of candidates will be nominated for final selection.
2. With input from the CSS, the Co-Chairs, and Partners will select two Resident Representatives in accordance with the decision-making process outlined herein.
3. Selections will be prioritized by those with the most community experience.

Transparent Decision-Making Processes, Performance Issues, and Conflict Resolution

- A. Important decisions, including changes to a project's scope, issues related to project delays or other project elements, will be discussed during the regular CSS meeting. In the case of a time-sensitive decision, a Co-Chairs call will be scheduled to discuss the topic, and notes will be sent out to the CSS team.
- B. The decision-making process is based on consensus. If there is disagreement within the team on the best course forward regarding decision making and/or performance issues with a member and consensus is not possible, then the CSS will use a two-thirds vote to make a final decision. Decision making by vote is a last resort. The CSS is committed to identifying issues and addressing conflict early to ensure they are resolved in a constructive fashion.

In the case of performance issues of a Partner, the Co-Chairs will strive to work closely with the Partner to problem-solve or identify a path to resolving the issues. First, the Co-Chairs, Program Manager, and Partner will hold a one-on-one call to identify issues. If concerns continue, a second call will be scheduled with the Steering Committee and a written action plan will be developed by the Co-Chairs to identify next steps and a corrective path, including a detailed timeline to resolve performance issues. If issues persist beyond the identified timeline, then the full CSS will meet to discuss a path towards resolution.

Meeting Procedures and Process Evaluation

- A. Regular CSS meetings will be open to the public and will be publicized through the Partners existing audience, membership meetings, and other outreach activities. The CSS will meet at least quarterly. Special meetings (in addition to quarterly meetings) may be called as needed. In-person meetings will be held at a location within the Project Area (likely the CRC once construction is complete) that is ADA accessible and convenient for members and partners, with a livestream video option for public to attend remotely. Meeting times will be at a time that is convenient for community resident attendance. Translation services may be accommodated as needed for the public. Meetings will be facilitated by the Co-Chairs and the agenda will be developed by the Co-Chairs in coordination with the Program Manager. The topics for meetings include general coordination, identification of issues, upcoming outreach, critical decision-making, and other updates. There will be designated time on the agenda for public comment. Written public comment cards from the CRC location will also be reviewed and taken into consideration during the agenda formation. The Co-Chairs and Program Manager will coordinate the development of the agenda, including collecting agenda topics from the project team, developing, and sending the agenda at least three days in advance of the meeting. The agenda will be accessible to the public via digitally and/or print. A meeting schedule will be posted to inform the community of upcoming meetings. The Program Manager will track meeting participation.
- B. Partners will coordinate recording meeting minutes and will work with the Program Manager and Co-Chairs to prepare meeting materials relevant to their corresponding project updates.
- C. During its regular meetings, the CSS will review the output of each project to ensure that the deliverables of the CRC grant are being met. The CSS will also check project activities and milestones to measure progress of each project, and, if necessary, make recommendations on how to keep projects on track.

Community Involvement in the Decision-Making

- A. Community involvement in the decision-making process is based on the Partners' approach to engaging their audience and other residents of Western Nevada County, including tenants and small businesses. Strategies may be employed to reach homeless individuals, low-income populations, and others impacted by the digital divide.

- B. Community outreach will include early involvement and regular updates on project progress. This outreach will take place in a variety of settings using various methods, but updates will be provided during the regularly scheduled meetings, and events. If there are project elements that need additional feedback during the project development, community meetings will be scheduled and held at a time that is convenient for a wide range of people. Ongoing feedback will be solicited using surveys and comment cards.
- C. Outreach for those meetings will take place using a mix of strategies including flyers, social media, and email.

Procedures to Change, Add, or Remove Partners

- A. If a Partner would like to invite a new member organization to implement complementary projects with leverage funding, they will bring information, including partner background and an outline of proposed roles and responsibilities, to the CSS meeting. The CSS will discuss and agree on the prospective new member at that time. A prospective new member will be discussed and confirmed by a majority vote during a regularly scheduled CSS meeting.
- B. If a partner is no longer able to participate in the CRC grant, a discussion related to their participation will be brought to the next meeting and the CSS will evaluate their removal using objective criteria, including the Partners performance to date on their related CRC grant project(s). If a Partner decides due to extenuating conditions that they need to leave the CRC grant, they will provide a minimum of sixty days' notice and will actively participate in identifying a replacement organization and planning for their departure. The replacement organization should have proven ability to carry out the Partner's project(s) and deliverables.
- C. If a Resident Representative is removed, the CSS will follow the outreach and selection process established to select a replacement Resident Representative within sixty days.
