Subject: Question about "Agritourism"

To The Honorable Board of Supervisors:

On Tuesdays agenda, Agritourism was mentioned. I recognize this from Agritourism in Europe, where people stay at farms and are perhaps, introduced to the operations of the farm, and can sometimes participate in the workings of a farm or agriculture business.

Is this being used as, or also being used as a way to legitimize allowing out of area "tourists" to come and work on the local Marijuana crops?

If so, I'm certainly against it, considering the increase in theft and squatting that we've experienced on Tyler Foote Rd properties in the past 5 or more years, coinciding with greater numbers of "trimmigrants" arriving each season.

Sincerely,
Lisa Powers
