County may, by written notice to Contractor, terminate this Agreement in whole or in part at any time, whether for County's convenience or because of the failure of Contractor to fulfill the obligations hereunder. Upon receipt of notice, Contractor shall immediately discontinue all services affected (unless the notice directs otherwise),

and deliver to County all data, estimates, summaries, reports, and all other records, documents or papers as may have been accumulated or produced by Contractor in performing services under this Agreement, whether completed or in process.

- b. For Convenience: County may terminate this Agreement upon sixty (60) days written notice without cause. Upon receipt of such notice, Contractor shall promptly cease work and notify County as to the status of its performance. Notwithstanding any other payment provision of this Agreement, County shall pay Contractor for services performed to the date of termination, to include a prorated amount of compensation due hereunder less payments, if any, previously made. In no event shall Contractor be paid an amount in excess of the full price under this Agreement nor for profit on unperformed portions of service. Contractor shall furnish to County such information as is necessary to determine the mutually agreeable reasonable value of the services rendered by Contractor. The foregoing is cumulative and shall not affect any right or remedy which County may have in law or equity.
- c. For Cause: In the event the Contractor is in material default of the Agreement, the County may elect to immediately terminate the contract. For breaches are capable of being remedied, the County may, after providing up to thirty (30) days written notice to the Contractor, terminate the Agreement in whole or in part for cause or for Contractor default that has not been remedied during that thirty (30) days period.

17.3 Termination by Contractor

- a. For Nonpayment: Should County fail to pay Contractor all or any part of the payment set forth in Schedule E, Contractor may, at Contractor's option, terminate this Agreement if such failure is not remedied by County within thirty (30) days of written notice to County of such late payment.
- b. For Cause: Should County default in the performance of this Agreement or materially breach any of its provisions, Contractor, at Contractor's sole option, may terminate this Agreement upon thirty (30) days written notice.

17.4 Disentanglement

If directed by County, Contractor shall cooperate with County and County's other vendors and contractors to ensure a smooth transition at the time of termination of this Agreement, regardless of the nature or timing of the termination. Contractor shall cooperate with County to accomplish a complete transition of the services being terminated to County or to any replacement provider designated by County, without any interruption or adverse impact on those services or any other services provided by third parties. Contractor shall fully cooperate with County and any new service provider and otherwise promptly take all commercially reasonable steps, including but not limited to providing to County or any new service provider all requested information or documentation required to assist County in effecting a complete transition to the new service provider, provided however, the Contractor shall not be obligated to disclose its Intellectual Property to any third party. Contractor shall provide all information or documentation regarding the services to be transitioned, including but not limited to data conversion tables, client files, and interface specifications. Contractor shall provide for the prompt and orderly conclusion of all work required under the Agreement, as County may direct, including completion or partial completion of projects, documentation of work in process, and other measures to assure an orderly transition to County or the County's designee. All Contractor work done as part of the Disentanglement shall be performed by Contractor and will be reimbursed by the County on a time and materials basis at the Contractor's then current hourly rate for technical services applicable to this Contract. Contractor's obligation to provide the Services shall not cease until the earlier of the following: a) the Disentanglement is completed to the County's reasonable satisfaction, or b) twelve (12) months after the expiration of the then-current Term of the Agreement.

- a. Upon termination of this Agreement, Contractor shall return to County all County-furnished assets in Contractor's possession.
- b. Upon termination of this Agreement, Contractor shall ensure that any and all of County's data maintained by Contractor is extracted in a commercially recognized format acceptable to County prior to the termination date or the completion of the Disentanglement period, whichever is later, and that said data is securely transmitted to County or County's designee.

17.6 Fiscal Insolvency/Source Code Escrow: Prior to commencing work on the Project under this Agreement, Contractor shall open escrow with an Escrow Holder that is acceptable to the Parties, pursuant to an Escrow Agreement which indemnifies Escrow Holder, which requires that Contractor deposit Source Codes for the Software and any updates thereto which at a minimum shall occur with each software release during the course of the Term, as extended, and which authorizes Escrow Holder to notify County of any such deposits. Said Escrow Agreement shall require that, in the event Contractor ceases conducting business in the normal course, admits its insolvency, or makes an assignment for the benefit of creditors; or becomes the subject of any judicial or administrative proceedings in bankruptcy, receivership, or reorganization, and such proceeding is not dismissed within ninety (90) days after it is commenced, directs Contractor to immediately authorize Escrow Holder to release the Source Code and any and all updates for the Project to County. The cost of the Software Escrow shall be paid by the County.

17.7 Renegotiation Option: In view of the fact that it is unknown how long the products and services will be employed by County and that County will require ongoing maintenance and support of the products for as long as the system is operational, therefore after completion of the initial term of the contract including any extensions and renewals, County and Contractor may renegotiate the contract upon mutual agreement of the parties.

17.8 Effect of Termination: Contractor shall cooperate with County to ensure a smooth transition at the time of termination of this Agreement, regardless of the nature or timing of the termination. Contractor shall cooperate with County to ensure that any and all of County's data maintained in the software licensed to the County by Contractor is extracted in a commercially recognized format acceptable to County prior to the termination date, and that said data is securely transmitted to County. The termination of this Agreement shall not affect the County's rights to the Software pursuant to Schedule B (License Agreement) provided that County has paid all Software license fees set forth in the Schedule E and County is not in breach of any provision of this Agreement or the Schedules. If County terminates this Agreement prior to the payment of all Software license fees, or if County is in breach of this Agreement, County shall immediately cease using the Software and shall either destroy or return the original and all copies, in whole or in part, in any form, of the Software and related materials. County shall certify such action in writing to County within one (1) month after the termination date. Contractor shall then have five (5) days from the date it receives such notice to enter into an agreement with the County, satisfactory to the County Counsel, providing for the defense of, and complete indemnification and reimbursement for all costs (including plaintiff's attorney fees) incurred by County in any legal action to compel the disclosure of such information under the California Public Records Act. Contractor shall have sole responsibility for defense of the actual "Confidential" designation of such information.

Contractor and County understand and agree that any failure by Contractor to respond to the notice provided by County and/or to enter into an agreement with County, in accordance with the provisions above, shall constitute a complete waiver by Contractor of any rights regarding the information designated "Confidential" by Contractor, and County shall disclose such information pursuant to applicable procedures required by the Public Records Act.

20.0 Books of Record and Audit Provision

Contractor shall maintain complete records relating to this Agreement for a period of five (5) years from the completion of Services hereunder. Contractor shall permit County to audit said records as well as such related records of any business entity controlled by Contractor. Said audit may be conducted on Contractor's premises or at a location designated by County, upon fifteen (15) day notice. Contractor shall promptly refund any moneys erroneously charged and shall be liable for the costs of audit if the audit establishes an over-charge of five percent (5%) or more of the total Contract amount.

21.0 Taxes

With the exception of sales or use taxes which may be levied by the State of California for software or related materials, County shall not be responsible for paying any taxes on Contractor's behalf, and should County be required to do so by state, federal, or local taxing agencies, Contractor agrees to promptly reimburse County for the full value of such paid taxes plus interest and penalty, if any. Similarly, Contractor shall not be responsible for paying any taxes on County's behalf, and should Contractor be required to do so by state, federal, or local taxing agencies, County agrees to promptly reimburse Contractor for the full value of such paid taxes plus interest and penalty, if any (The fees set forth in Schedule E do not include any amounts for sales taxes, as it is anticipated that all software and related materials will be provided by Contractor by electronic delivery.)

The headings of the several sections of this Schedule A and other Sections which comprise this Agreement, and any table of contents appended hereto, shall be solely for convenience of reference and shall not affect the meaning, construction or effect hereof.

If any one or more of the provisions of this Agreement shall for any reason be held to be invalid or unenforceable in any respect, then such provision or provisions shall be deemed severable from the remaining provisions hereof, and such invalidity, illegality or unenforceability shall not affect any other provision hereof, and this Agreement shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

28.0 Amendment and Waivers

Any term or provision of this Agreement may be amended, and the observance of any term of this Agreement may be waived (either generally or in a particular instance and either retroactively or prospectively) only by a writing signed by the Party to be bound thereby. The waiver by a Party of any breach hereof or default hereunder shall not be deemed to constitute a waiver of any other breach or default. The failure of any Party to enforce any provision hereof shall not be construed as or constitute a waiver of the right of such Party thereafter to enforce such provision.

29.0 Force Majeure

Neither party shall be deemed to be in default of its obligations hereunder if and so long as it is prevented from performing such obligations by any act of war, hostile action, or catastrophic natural event. Should there be such an occurrence that impacts the ability of either party to perform their responsibilities under this Agreement, the nonperforming party shall give immediate written notice to the other party to explain the cause and probable duration of any such nonperformance.

30.0 Publicity

County authorizes Contractor to use County's name in its list of customers. The parties agree that either party or both may issue a mutually acceptable news release regarding County's use of the applicable Software and Support Services. Each party's approval of such news release will not be unreasonably withheld or delayed. Once a press release has been issued, Contractor may publicly refer to County (by name only) as being a customer of Contractor, and only in relation to this Agreement except as otherwise authorized by County.

The County understands and acknowledges that Contractor shall not undertake detailed specification development or estimate preparation until a signed Change Order authorizing such work is signed by County. The County shall be charged at the rates set forth in Schedule E for the development of requirements by Contractor. 4.0 Contractor Responsibilities

- 4.1 Contractor will provide County with required specifications for Local Hardware, including software specifications for required operating systems and network software, so that County may procure and/or configure the necessary Local hardware at County's expense.
- 4.2 If requested by the County, Contractor will provide technical support services to assist County in evaluating its Local Hardware; identifying network, communications and computer resources required to properly operate the Software; and installing and configuring the Local Hardware for the County. If Contractor provides these services, it guarantees to the County that, at the time of installation, the Local hardware will be properly configured and installed, and will provide sufficient network communications, and computer resources to support the anticipated number of End Users.

5.0 Place of Performance

Contractor will perform project work at its own locations as well as in County offices. County will make available such office space and meeting space as is reasonably required for Contractor staff to perform their work.

6.0 Project Management Plan

Contractor Project Manager, with the assistance and consultation of the Project Management Team, will develop a Project Management Plan (PMP) to include the following components, either incorporated into the body of the PMP or presented as exhibits or schedules thereto:

- 6.1 **Project Schedule:** A preliminary high-level Project Schedule is provided in Appendix D-2 of this Schedule D. The Contractor and County Project Managers shall conduct a joint review of the Project Schedule during the initial stages of the project. Once the Project Schedule is agreed by the Project Management Team it will become the primary tool used to guide the project team, monitor, and control the project.

The Project Schedule will be reviewed and updated by the project management team on a regular basis in response to changing circumstances, actual progress and as more detailed planning becomes possible. Any material changes to the accepted Project Schedule which affect the schedule of milestone tasks or that are considered to be of significant impact by either Project Manager will be handled in accordance with the Change Control Plan.

6.0 Deliverables: A list of the key Deliverables, a form for tracking the completion of the Deliverables, and a sample of the Deliverable Acceptance Statement to be used to document completion of Deliverables. Deliverables will be tracked and County's acceptance of Deliverables will be documented. Deliverable documents will be provided to the County Project Manager in an electronic format via email unless otherwise mutually agreed by the project managers. Electronic documents will be delivered in the format of the tool used to produce them (e.g. Word, Excel, MS Project) unless specified differently in the Deliverables List or otherwise mutually agreed by the project managers.

Where deliverables are not documents or where deliverable documents are delivered by a means other than email, the Contractor Project Manager will notify the County Project Manager by email that the deliverable is complete with an appropriate description of the delivery method and how the County can take possession of the deliverable. Where delivery method includes a delay before the County is in receipt of the item, e.g. mail, then the delivery date will be when the County receives the item.

6.1 Data Conversion Plan: A description of the overall approach, responsibilities, and timing of the process for converting data from the County's legacy database to the Licensed Software. The Data Conversion Plan will be based on a two-step data conversion effort. The Contractor will design and develop the programs to extract and cleanse the data from the current data structures into an intermediate file format. Contractor will design and develop the programs to convert the data from the intermediate files into the new system. Contractor will provide key metrics to maintain data validation tables/files and support parallel testing efforts to the County for the purpose of validation in the accuracy of the data and files extracted/imported from Oncore to Acclaim.

6.2 Issue Management Plan: A high-level description of how issues will be classified, logged, and resolved. This plan should include a template of the form to be used for logging issues and their resolutions.

6.3 Interface Specifications: A definition of external interfaces between the Software and other existing or planned information or communications systems. Contractor and County shall have responsibility for preparing and controlling all of the Interface Specifications.

6.4 Training Plan: A description of the strategy for providing comprehensive training in all aspects of system usage, administration and problem resolution will be developed during Project Initiation. The training strategy will include a needs analysis to define who needs training and on what topics, development of training curriculum, arrangement of training logistics, preparation of training materials, and assessing training effectiveness. Training will include classroom lectures and interactive training in concert with the online help resources and user manual. All training will have prescribed user-oriented objectives. Contractor will provide training materials. The Training Plan will incorporate training for the following groups of County staff, and include the indicated content:

- a. Trainers – Contractor will provide general end-user 'train-the-trainer' training to designated County 'Trainers'. This training will be conducted during the pre- installation period. The information the County 'Trainers' acquire will be used as they train the End Users. Several different "train the trainer" classes will be taught prior to live implementation.
- b. Key Users – County staff members identified by management who will be working with Contractor as a part of the installation and implementation team. This includes members of the County-designated Support Team who will be the principal points of contact with Contractor for ongoing maintenance as described in Schedule C.
- c. Supervisors/Managers – County staff members who need to understand and facilitate the system at the operations level will train in a classroom setting. These users will learn how to manage the specifics of daily, weekly, and monthly operations as they pertain to facilitating the program as a whole system. This training will be conducted prior to live implementation.

- d. Technical Users – County staff members serving as database administrators, system administrators and application administrators will be trained in backup, recovery, and advanced application features such as interface maintenance, table maintenance, data management and manipulation, archiving and errorrecovery.
- 6.7** Risk Management Plan: A high-level description of activities that Contractor and the County will implement to mitigate identified areas of risk to the successful completion of the Project. Risk management and control consists of keeping risks within agreed to bounds. It includes the identification, reporting and assessment of the status of each Project risk at the appropriate management levels. The set of identified Project risks is monitored via Project cost, schedule and requirements management systems. New risks may be identified when any or all of the project control areas have significant deviation from the project plan. Risk reviews identify the status and the effectiveness of avoidance and contingency actions for each risk. This process will continually be reassessed during the reporting/status updates for the project. Details on procedures in place for managing risk during the implementation process, including a template for a Risk Log to be used in tracking risks and their mitigations, will be defined in this plan.
 - 6.8** Resource Plan: A description of the roles and responsibilities (task responsibility matrix) of individuals whose efforts will be required to sufficiently staff the Project, as well as a description of how other personnel and non-personnel resources will be allocated and deployed for successful completion of the Project.
 - 6.9** Communication Plan: A description of the communication procedures, reporting requirements and formats, and issue escalation process to be used in communications between Contractor and the County during the execution of the Project.
 - 6.10** Change Control Plan: The procedures to be used for requesting and approving changes to the Project, including changes initiated by either the Contractor or the County. It should include a Change Request form template and list of situations/activities that will require a duly authorized Change Request to be considered valid. Change Control is a formal procedure to manage changes to project deliverables (including requirements, specifications and project plans). Through this process the impact of proposed change(s) on functionality, performance, cost, schedule, and quality objectives will be analyzed, evaluated, and reported. The Change Control Process will include, at a minimum:
 - a. A change request must be made in writing by the party desiring the change, to document the potential change.
 - b. The change will be reviewed and, if acceptable to County, Contractor will submit to County an estimate of the impact to cost, schedule, scope, and quality.
 - c. Contractor will continue performing the services in accordance with the original agreement unless otherwise agreed upon by the County's project manager. Work cannot commence on any new activities related to the change request until all parties agree in writing.
 - d. All change requests will be logged and tracked.
 - e. Contractor's Project Manager and County's Project Manager will adapt project plans to incorporate approved changes.
 - 6.11** Document Control Plan: A description of the manner in which Contractor will index and publish project documentation, and make that documentation available to the County.
 - 6.12** Acceptance Plan: A description of the criteria for final acceptance of the Project and the procedure by which Acceptance will be demonstrated and documented. Unless otherwise provided for in this Agreement or agreed upon in writing by both parties, acceptance testing will be performed on the County's site, on the County's equipment. The Acceptance Plan shall include the following provisions:

- a. The review, approval, and acceptance of all project Deliverables will be the responsibility of County's Project Manager. The County will apply the following Software Acceptance Process to acceptance of all deliverables:
 - i. For the life of this contract, County has the right to complete a review of any deliverable received from Contractor and notify Contractor of County's findings; and
 - ii. If the deliverable is unacceptable, Contractor shall resubmit the deliverable after the appropriate correction or modifications have been made.
 - iii. The process described above will be repeated until final acceptance is obtained, the County waives the irregularity, or the Agreement is terminated.
- b. "Final Acceptance" is defined as:
 - i. The successful completion of all deliverables as stated in the Scope of Professional Services and following the Software Acceptance Process described above, AND
 - ii. The final delivered product fully implemented in County's live production environment AND
- c. County will have thirty-days following completion of the Software Acceptance Process, or such other period that is mutually agreed to by the Parties, in which to accept or reject it in writing. If County rejects it, County will specify in writing its grounds for rejection and Contractor will use its best efforts to make the product conform to the requirements of this contract as soon as possible and at no additional cost to County. Contractor shall continue to use its best efforts to make the product conform to the requirements of this Agreement until County accepts the product or terminates this Agreement upon written notice to Contractor.

6.13 Quality Management Plan: A high-level description of Contractor's procedures for ensuring the overall quality and efficacy of the Software.

7.0 Project Initiation

- 7.1** Contractor will, in accordance with the Document Control Plan, establish a documentation library that is available to County. County shall have the option of making all documentation available on County's intranet site, provided that all documents are treated as confidential and proprietary, and not a matter of public record.
- 7.2** Contractor will initiate systems as described in the Project Management Plan for recording and managing issues, risks, and changes.
- 7.3** Contractor will conduct product overview sessions demonstrating the features of the Software and will review how the Software will be configured to meet the Specifications. The purpose of these sessions is to:
 - a. identify all product configurations necessary to enable functionality to meet defined requirements;
 - b. identify business processes changes required to be adopted by the Client in order to deploy the software; and
 - c. familiarize Client resources with the software for ultimate production usage – as introductory informal training,
- 7.4** Contractor will install the Software into a test area on County's Local hardware for initial testing and training.

8.0 Project Execution

- 8.1** Contractor will manage the overall project effort and supervise each project subgroup tasked with all project deliverables.

8.2 Contractor will provide regular status reports in accordance with the Communication Plan.

8.3 Data Mapping Review

- a. The data mapping review will build on the Data Conversion Plan to complete a detailed study of the data conversion requirements.
- b. The County will be primarily responsible for providing information about the nature and purposes of the data. Contractor will provide subject matter expertise as specifically related to the Licensed Software and schema
- c. The Data Mapping Review will consist of the following tasks:
 - i. Confirm the source files containing data to be converted.
 - ii. Identify the data elements to be converted, or not converted, from each source file.
 - iii. Outline the programs required to extract the data.
 - iv. Provide an approach for controls and reconciliation to ensure the completeness of the mapping.
 - v. Identify data purification issues, including problem, magnitude, and correction alternatives.
 - vi. Document mapped data elements/files within a working document.
 - vii. Provide a "field-level" mapping of source file data elements to the new system database.
- d. In order to efficiently move through this process, the County may elect to engage Contractor to perform additional data conversion activities related to the overall data conversion deliverable. This additional work would be arranged through the Change Request process.

8.4 Data Conversion Development and Test

The development and testing of data conversion programs and files primarily consists of two parallel efforts:

- a. Contractor will develop and test the programs to load the intermediate files into the Contractor database. Only data that is absolutely necessary for proper system function and within the scope of the current database structure will be converted. All data not within the current structure will either not be converted or will be converted at Contractor's discretion at the then-current time and materials rate.
- b. Contractor will develop a mutually agreeable data conversion test plan including appropriate audit trails and summary reports.

8.5 Data Conversion Delivery

- a. Contractor will load the converted data into the agreed upon environment, so the County can conduct acceptance testing in accordance with the Acceptance Plan.
- b. Contractor and the County will work together to refine the process of extracting and loading the data to optimize time and resources required to execute the conversion at three separate points in time:
 - i. Initial data load – This conversion consists of a sample size set of data addressing the majority of business rules used to define/populate County data. Several iterations of this initial data may be loaded for review based on the

number of corrections needed for successful use of the data in testing. The system will be configured using the base configuration for the state-specific features.

- ii. Full/Complete data load – This conversion builds from the Initial Data Load to include all business rules and a complete set of the County data. Several iterations of this data load may also be necessary. The system will be configured using client-specific configurations identified in the product overview sessions. The goal is to use this database and conversion to move into the User Acceptance Testing activities.
- iii. Production data load – this is the final conversion and will be used to deploy the system into production use of the application. The configuration will be the one accepted from the User Acceptance Testing (UAT) activities.

9.0 Training

Contractor will provide training in accordance with the Training Plan. Data used during training will be the County's converted data. In addition to training with the converted data, mock "live" sessions will be run so that the actions currently performed by each department can be simulated on the new system. On completion of each training class, Contractor will provide an assessment of each trainee's skill levels and capabilities with recommendations for any additional recommended training. Additional training will be managed through the Change Request process documented in the PMP at the then-current consulting services rates.

10.0 User Acceptance Testing (UAT)

- 10.1** User Acceptance Testing is primarily concerned with testing the functionality of the delivered software against the County's business requirements and the Product Feature List provided in Appendix B-1.
- 10.2** The County has the primary responsibility for conducting this testing with some assistance from Contractor with process training and troubleshooting.
- 10.3** Acceptance of the converted data is not a part of UAT; it is addressed during the conversion process and tested with each delivery. If data is uncovered during UAT and deemed by the PMC as critical, then that error will be tracked and corrected as part of the UAT process.
- 10.4** Application or data faults or defects uncovered during UAT may require changes to the base application or conversion programs. Prior acceptance of the conversion tasks does not imply that such conversion adjustments will be change requests.
- 10.5** Additional levels of testing, such as system testing and integration testing, may be conducted at the discretion of the County.
- 10.6** The following activities will take place during UAT, as further defined in the deliverables section of Schedule:
 - a. Development of the Test Strategy Plan
 - b. Development of Testing Scenarios and Scripts
 - c. Execution of the Test Plan
 - d. Management, documentation, reporting of test results
 - e. Fault status tracking

11.0 Project Deliverables

11.1 Deliverables Acceptance

For each of the Deliverables there will be a formal acceptance process by which the County Project Manager provides Contractor with assurance that the County is satisfied that the Acceptance Criteria for the respective Deliverable have been met.

The procedure for formal acceptance of a deliverable will have the following steps:

- a. Contractor will complete the deliverable and present documentation or other evidence thereof to the County.
- b. For major project deliverables, Contractor will meet with the County Project Manager in person or by telephone conference call to outline the content of the deliverable and provide any points of clarification.
- c. A Deliverable Acceptance Statement (DAS) will be presented by the Contractor Project Manager to the County Project Manager.
- d. The County Project Manager will review the DAS, confer with the appropriate team members, and sign and return the DAS indicating acceptance, or in the case of non-acceptance, documenting the reasons for the non-acceptance.
- e. In the case of non-acceptance of a deliverable, Contractor will confirm receipt of the County's non-acceptance and provide a written response detailing the plan to address the non-acceptance issue(s).
- f. The Contractor Project Manager will catalog the response on the Deliverable Register and, if the deliverable is not accepted, document the effect on the project in the next Project Status Report.
- g. The County will make its best effort to approve, or reject project deliverables, or otherwise request an extension for deliverables. The timeframe for approval of the submitted DAS is also defined for each deliverable. In the event the County does not respond according to the defined acceptance period for a deliverable, Contractor will assume the deliverable is approved.

11.2 Deliverables List: Contractor will provide the deliverables described in the Deliverables List below. This Deliverables List is subject to revision in the Deliverables section of the Project Plan.

11.3 Final Project Acceptance

- a. Upon completion of all Deliverables, Contractor will present County with a Notice of Completion.
- b. Upon receipt of the Notice of Completion, County will i) sign the Notice of Completion, indicating County's final acceptance of the project; or ii) submit in writing to Contractor notice of any errors that County believes exist within the Software.
- c. If County has identified errors, Contractor will have a plan to correct any reproducible Priority 1, errors, as defined in Schedule C. If no Priority 1 errors exist, or if a plan to resolve has been delivered, then Contractor will provide a DAS to be executed by Customer to memorialize Acceptance.

12.0 Project Schedule

The chart below illustrates the timing and duration of the main activities and milestones of the project. The dates are estimates only as of the date of preparation of this Agreement. The chart is intended as an overview to aid in the general understanding of the project schedule. A more detailed schedule will be included in the Project Plan that falls within the overall structure of this summary schedule and that will be used as the working schedule for the project. The current implementation schedule calls for an X to Y month deployment. The Project Schedule will be developed during the Project Initiation phase and will include analysis of the current business cycle before determining a System Cutover target date.

13.0 Additional Services

County and Contractor contemplate that the Implementation Plan will from time to time be amended during the project. All amendments to the Implementation Plan shall be made in writing on a change control request form and signed by the Project Manager for each party. Services requested of and provided by Contractor that are not within Contractor's obligations under this Agreement shall be subject to the applicable rates as described in Schedule E.
