SCHEDULE OF SERVICES
SHELLEE ANN SEPKO, LMFT D/B/A WHAT'S UP? WELLNESS CHECKUPS

Shellee Ann Sepko, LMFT, herein referred to as "Contractor", shall provide What's Up? Wellness Checkups as an Access and Linkage component of the County's Mental Health Services Act (MHSA) Prevention and Early Intervention (PEI) Plan for the County of Nevada, Department of Behavioral Health, herein referred to as "County".

BACKGROUND:

What's Up Wellness Checkups was established in 2012 out of a grassroots effort to address youth suicide in Nevada County and the need for a universal mental health prevention program in local schools. The Suicide Prevention Task Force, in collaboration with Nevada County Behavioral Health, identified Columbia Teen Screen as the most relevant evidence-based mental health screening program for our community.

Teen Screen Schools and Communities, now housed by Stanford University, is a national mental health and suicide risk screening program for young people ages 11-18. Teen Screen was developed by Columbia University's Division of Child and Adolescent Psychiatry in response to research revealing that 90 percent of youth who die by suicide suffered from a previously undiagnosed mental illness and that 63 percent experienced symptoms for at least a year prior to their deaths. This study was among the first to shatter the myth that suicide is an unpredictable event in youth and highlight the fact that there is time to intervene with at-risk youth, successfully connecting them with mental health services.

In 2012, What's Up Wellness Checkups was granted Mental Health Services Act (MHSA) funding to adapt Teen Screen protocols to our rural community. In 2013 the program began offering universal, no cost mental health screenings to high school students in both Eastern and Western Nevada County. The program began its collaboration with TTUSD and NJUHSD administrations, staff and teachers in order to integrate mental health screenings into campuses and high school culture. In 2013, the program began case management services with the goal of increasing connections to youth and family services by working with school staff, local agencies, and treatment providers.

DESCRIPTION OF SERVICES:

Contractor shall establish a Project Team, which will include the following core positions: Program Director, Assistant Director, Clinical Coordinator, Screening Counselors, Case Manager, Program Assistant, and Prevention Group Facilitators (with job duties described below).

In addition, Contractor will engage Translation/Interpretation Services to create opportunities for outreach in the Hispanic communities in Grass Valley and Truckee on an as-needed basis. Contractor will also engage Bookkeeping Services for fiscal support duties including budgeting, invoicing, and tracking receivables and payables on an as-needed basis.

Contractor will offer screenings to all ninth grade students in the Nevada Joint High School District (NJUHSD) and the Tahoe Truckee Unified School District (TTUSD). Nevada County charter schools and students in other grades shall be offered screening upon consideration of program availability. Contractor may also provide screenings at local youth serving agencies, which may include organizations that serve youth outside of school sites or on HIPAA protected web based platforms.

CONTRACTOR SHALL:

- Visit school sites and coordinate with school officials to gain program buy-in and approval.

- Obtain parental consent, obtain assent from screening participants, receive student referrals for school officials, and administer the screening tool.
- Coordinate confidential screening spaces either in person or with HIPAA protected web platforms and protocols for each site
- Partner with local and other mental health and health service providers, compiling a shareable resource list of providers accepting referrals from screenings and other resources.
- Partner with school staff and administration to help identify accessible resources and services on campus - mental health and academic support, as well as food, clothing and other needs.
- Provide clinical interviews with students who score positive on the screening questionnaire. Determine whether the youth would benefit from a referral for further evaluation.
- Develop a written plan for managing crisis situations and reporting cases of abuse to be distributed and reviewed with the screening team, school administrators/staff in the event of reported abuse or crisis. Work closely with school staff and administration to develop and build stronger safety nets of on campus supports for higher risk students.
- Inform families of referral recommendations and help parents with obtaining a complete post-screening evaluation
- Connect families with appropriate mental health referrals and health insurance, ensuring they are provided access to resources related to their child's mental health.
- Provide educational materials regarding mental health issues to parents.
- Provide individual student meetings to follow up on status of referrals, create and reinforce safety plans for higher risk students, directly connect students to on campus resources, meetings with parents to increase access to services, discuss status of referrals, resources, releases of information, connecting parents to support services, parenting classes, and other resources.
- Provide Prevention Groups that shall:
 - Teach youth effective coping strategies to improve emotional health and prevent mental illness using evidence-based strategies and curriculum with psychoeducation and mindfulness tools to increase resiliency and coping mechanisms
 - Provide weekly groups on participating campuses (up to 8 weekly sessions/group)
 - Provide services to students whose mental health screenings show low-to-moderate symptoms, who request practical tools to manage stress but face significant barriers due to mental health stigma or inability within the family to access traditional forms of mental health treatment

STAFFING:

Despite progress in addressing explicit discrimination, racial inequities continue to be deep, pervasive, and persistent across the country. Though we have made many strides toward racial equity, policies, practices, and implicit bias have created and still create disparate results. Through partnerships with the community, Nevada County Behavioral Health strives to address these inequities and continue progress in moving forward.

Contractor is encouraged to have a diverse and inclusive workforce that includes representation from the disparate communities served by our county. Contractor is expected to think holistically about creating services, program sites and an employee culture that is welcoming and inclusive. Contractor should track

metrics on Diversity, Equity, and Inclusion outcomes within their service delivery. Additional efforts should be made to identify and highlight growth opportunities for equitable outcomes, access to services, and other opportunities. Contractor shall consult with County contract manager about proposed metrics to track.

Services should be designed to meet clients' diverse needs. Contractor will be expected to participate in the NCBH Cultural Competency program, participate in trainings and tailor outreach efforts and marketing materials to engage a diverse population of community members. Given that Spanish is a threshold language in Nevada County, a special emphasis should be placed on engaging Latinx communities and providing services in Spanish.

1) Program Director shall:

Oversee program administrative duties, fiscal management, contract requirements, staff management, school coordination, clinical coordination, crisis trainings, outreach, as well as providing student screenings and family case management services.

2) Assistant Director shall:

Provide program outreach, field placement instruction for MSW students, staff support, prevention group coordination, site coordination, student screenings and family case management services

3) Clinical Coordinator shall:
