SCHEDULE OF SERVICES
TAHOE TRUCKEE UNIFIED SCHOOL DISTRICT

Tahoe Truckee Unified School District (TTUSD), herein referred to as “Contractor”, agrees to provide services through the Wellness Program as a Prevention component of the County’s Behavioral Health Services Act (BHSA) Early Intervention Plan for the Nevada County Behavioral Health Department, herein referred to as “County.”

Project Background:

The Tahoe-Truckee community experienced a series of tragic teen suicides 143 years ago. In 2012, the California Healthy Kids Survey (CHKS) reported that 34% of TTUSD 9th graders felt so sad or hopeless for 2+ weeks in a row that they stopped doing usual activities. It was a 42% increase from the 2010 data and well above the state average. Even more concerning was that in the spring of 2012, 30% of Truckee High 9th graders reported seriously considering attempting suicide. It was known that these youth were struggling; yet very few were talking about it and even fewer were engaging in services voluntarily. Students expressed a desire to have more support services available to them at their school sites. In order to best support youth, services needed to go to where youth were, build relationships and ask what’s important to them. By offering on-site K-12 Wellness Centers and Mental Health Specialists, TTUSD ensures students have the essential tools, supports, and resources to strengthen their mental health and resilience. The CHKS 2025 data shows that the number of 9th graders who reported considering suicide dropped 80% and those who reported feeling sad or hopeless dropped 53% from 2012. The Wellness Program has played an critical role in promoting a positive mental health culture in the TTUSD schools and educating students about healthy coping skills and the supportive mental health resources available to them.

Project Detail:

The Tahoe Truckee Unified School District (TTUSD) Wellness is a collaboration between the school district, Placer and Nevada counties, Tahoe Forest Hospital and the Community Collaborative of Tahoe Truckee (CCTT) partners designed to provide a youth-friendly point of entry for students to connect to supportive adults and access community and school wellness resources. At the heart of the Wellness Program are K-12 Wellness Centers that serve as access points for students to ask questions, learn new skills, seek support, and link to a variety of school and community services. Through the Wellness Centers, students can connect to a hub of supportive wellness programming, including health education workshops, peer mentoring programs, student empowerment groups, social emotional curriculums, school-based therapists, school-based mental health screenings, and linkages to critical community mental health resources. TTUSD School Mental Health Specialists provide short-term counseling, risk assessments, and connect high need students to an array of school and community mental health supports. A team of four (4) licensed and associate clinicians serve as TTUSD Mental Health Specialists, providing intensive, evidence-based therapeutic services across all TTUSD K–12 campuses. The Mental Health Specialists support Tier 3 students experiencing the early signs of a mental health or substance use disorder, complex family stressors, and/or childhood trauma. Their role encompasses clinical assessment, short-term individual and group therapeutic interventions, safety assessments, and comprehensive case management to help students and families navigate vital community systems of support. Each TTUSD school has a Coordinated Care Team that meets weekly to identify and review students requiring mental health or substance use interventions. This multidisciplinary team receives referrals from Wellness Center Specialists, Mental Health Specialist, school counselors, teachers, parents, and students. The team assesses risk levels to ensure students are referred to the appropriate level of Multi-Tiered System of Support (MTSS) intervention. TTUSD currently utilizes Satchel Pulse, an online platform that offers a range of Social Emotional Learning (SEL) skill-development tools and mental health screeners

for students in grades K–12. The Coordinated Care Team uses the SEL skill-building screeners to inform and develop targeted Tier 2 and Tier 3 skill building intervention groups based on identified student needs, as well as to help determine medical necessity for CYBHI billing. Tier 3 students are often referred to the Coordinated Care Team for a Mental Health Specialist referral. TTUSD Mental Health Specialists provide dedicated case management and referral services to ensure students and families are connected to appropriate long-term resources. Specialists work directly with families to navigate insurance complexities and facilitate warm hand-offs to county, hospital, and community-based providers for students’ ongoing clinical care. They support families in accessing County Behavioral Health and wraparound services, while providing direct referrals to vital resources such as food insecurity, housing assistance, and other basic needs.

Contractor’s Responsibilities:

Under this Agreement, Contractor agrees to operate eight K-12 Wellness Centers and a team of four Mental Health Specialists to provide linkage, navigation, case management, and clinical therapeutic interventions to Tier 3 students. Contractor shall provide trained, licensed clinicians who will be available to provide timely, responsive, and student centered school-based mental health and navigation services to students designed to prevent mental challenges from becoming severe and disabling.

Contractor agrees that funds provided under this Agreement will be used to help support:

Traditionally, youth in Tahoe-Truckee Area have been both an unserved and underserved population. Service providers have struggled with how to reach and serve this adolescent population. Many youth in the community are experiencing or at risk for suffering from mental and emotional stress. The project seeks to provide support for Tier 3 students experiencing the early signs of a mental health or substance use disorder, complex family stressors, and/or childhood trauma. A team of Mental Health Specialists will provide clinical assessment, short-term individual and group therapeutic interventions, safety

assessments, and comprehensive case management to help students and families navigate vital community systems of support.

Additional Contract Information:

Despite progress in addressing explicit discrimination, racial inequities continue to be deep, pervasive, and persistent across the country. Though we have made many strides toward racial equity, policies, practices, and implicit bias have created and still create disparate results. Through partnerships with the community, Nevada County Behavioral Health strives to address these inequities and continue progress in moving forward.

Contractor is encouraged to have a diverse and inclusive workforce that includes representation from the disparate communities served by our county. Contractors is expected to think holistically about creating services, program sites and an employee culture that is welcoming and inclusive. Contractors should track metrics on Diversity, Equity, and Inclusion outcomes within their service delivery. Additional efforts should be made to identify and highlight growth opportunities for equitable outcomes, access to services, and other opportunities. Contractor shall consult with County contract manager about proposed metrics to track.

Services should be designed to meet clients' diverse needs. Contractors will be expected to participate in the NCBH Cultural Competency program, participate in trainings and tailor outreach efforts and marketing materials to engage a diverse population of community members. Given that Spanish is a threshold language in Nevada County, a special emphasis should be placed on engaging Latinx communities and providing services in Spanish.
