Department of Public Health

NEVADA COUNTY BOARD OF SUPERVISORS

Board Agenda Memo

MEETING DATE: October 28, 2025

TO: Board of Supervisors

FROM: Kathy Cahill, Public Health Director

SUBJECT: Resolution approving revenue Contract CHVP 25-29 with the California Department of Public Health related to the California Home Visiting Program for the term of July 1, 2025 through June 30, 2026 in the maximum revenue amount of \$441,094, (with Title XIX draw-down totaling \$633,718) accepting the associated State General Fund Expansion revenue.

RECOMMENDATION: Approve the attached Resolution.

FUNDING: Contract services are from the California Department of Public Health (CDPH) for expansion of the local maternal, infant and early childhood home visiting program. Funding for this contract is within the Public Health Department's FY 25/26 Budget, no budget amendment is required. The revenue agreement for FY 25/26 is \$441,094 (with Title XIX draw-down totaling \$633,718). There are no County general fund dollars required in the agreement.

BACKGROUND: The Patient Protection and Affordable Care Act of 2010 authorized creation of the Maternal, Infant and Early Childhood Home Visiting (MIECHV) Program and allocated funding for nationwide maternal, infant and early childhood visitation initiatives. Each state's governor designated the state entity to administer Home Visiting program funds on behalf of the state. For California, this is the state department of Public Health/ Maternal, Child and Adolescent Health (MCAH) Division. CDPH/CHVP State Grant Funding (SGF)-funded Local Health Jurisdictions (LHJs) are approved to implement and/or expand Healthy Families America (HFA), Nurse Family Partnership (NFP), or Parents as Teachers (PAT) home visiting programs in accordance with State requirements to achieve positive outcomes.

Under this contract, Nevada County Public Health's MCAH department will continue home visiting services delivering the Parents As Teachers (PAT) model. Parents As Teachers staff delivers home visiting services throughout Nevada County (both Eastern and Western County Regions). Pregnant women are referred to the program through local health care provider agencies

or other community partners. NCPH staff and contracting staff will assess and enroll eligible families for PAT services and will link non-qualifying referred families and/or families referred after the program has reached full capacity, to other community resources.

The Program is completely voluntary and free of charge. Participants are eligible to receive program services from pregnancy up to the time their child is five (5) years old per PAT Model guidelines.

This program will provide home visiting services which shall include activities to address issues in the areas of maternal, infant and child health, mental health, early childhood development, substance abuse, domestic violence prevention, child maltreatment prevention, child welfare, education and other social and health services.

It is recommended that the Board authorize acceptance of funds from CDPH as services provided support the California Home Visiting Program whose purpose is to: 1) provide leadership and coordinate maternal and early childhood systems and supports to advance federal, state and local efforts to improve the health and well-being of families in California; 2) cultivate strong communities; 3) promote maternal health and well-being; 4) improve infant and child health development; and 5) strengthen family functioning.

Approved by: Kathy Cahill, Public Health Director
