## HealthSpan Nevada County

Collective Impact for Health and Wellbeing
Igniting a movement for a healthier, more connected Nevada County

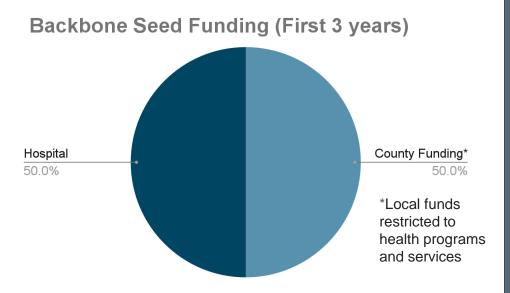

- **HealthSpan** is built on the belief that real community health change happens through *Collective Impact* when we align efforts across sectors toward shared goals.
- We're bringing together nonprofits, businesses, community organizations, healthcare providers, and government partners to improve the systems, structures, and policies that shape health and wellbeing.
- By **sharing knowledge, expertise, and resources**, we can drive lasting improvements in health, longevity, and quality of life for all residents.

Together, we can create a community where the healthy choice is the easy choice.

# HealthSpan Nevada County

- → The County, medical community, and the hospitals are the backbone for health care and social wellness in Nevada County.
- → Collaborating with County departments will be essential to create impactful change in health, longevity and quality of life.
- → Together, we will **lift up all stakeholders** around four pillars of impact: **Food, Movement, Social Connection, and Youth & Families**
- → We will collaborate with Tahoe Forest Health System on County wide joint messaging for key initiatives (i.e. Adult Binge Drinking initiative, Chronic Disease Management)

### Funding Structure & Path Towards Sustainability

#### **Future funding pathways:**

- → Health insurance payors
- → Membership models
- → Earned revenue
- → Policy and systems approaches
- → New collaborative grant opportunities to sustain community-wide impact.
