Despite progress in addressing explicit discrimination, racial inequities continue to be deep, pervasive, and persistent across the country. Though we have made many strides toward racial equity, policies, practices, and implicit bias have created and still create disparate results. Through partnerships with the community, Nevada County Behavioral Health strives to address these inequities and continue progress in moving forward.

We encourage our contractors to have a diverse and inclusive workforce that includes representation from the disparate communities served by our county. Contractors will be expected to think holistically about creating services, program sites and an employee culture that is welcoming and inclusive. Contractors should track metrics on Diversity, Equity, and Inclusion outcomes within their service delivery. Additional efforts should be made to identify and highlight growth opportunities for equitable outcomes, access to services, and other opportunities. Please dialog with your County contract manager about proposed metrics to track.

Services should be designed to meet clients' diverse needs. Contractors will be expected to participate in the NCBH Cultural Competency program, participate in trainings and tailor outreach efforts and marketing materials to engage a diverse population of community members. Given that Spanish is a threshold language in Nevada County, a special emphasis should be placed on engaging Latinx communities and providing services in Spanish.

County reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.
 11. **Subcontractors** Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that County is an additional insured on insurance required from subcontractors.
