18. **VENDOR FINANCIAL STABILITY.** If a vendor is currently involved in an ongoing bankruptcy as a debtor, or in a reorganization, liquidation, or dissolution proceeding, or if a trustee or receiver has been appointed over all or a substantial portion of the property of the vendor under federal bankruptcy law or any state insolvency law, the vendor must provide the County with that information as part of its bid/proposal. In accordance with Section 4.4.1(e)(6) of the Nevada County Purchasing Policy and paragraph 7 of this document, the County may use information regarding a bidder's financial responsibility when making an award determination.

The County reserves the right to take any action available if it discovers a failure to provide such information to the County, including but not limited to, a determination that the vendor should be declared non-responsible and/or non-responsive, and suspension or debarment of the vendor, in accordance with the processes defined in the Nevada County Purchasing Policy.

By submitting a bid/proposal in response to this solicitation, the vendor agrees that if, during the term of any contract it has with the County, it becomes involved as a debtor in a bankruptcy proceeding, or becomes involved in a reorganization, liquidation, or dissolution proceeding, or if a trustee or receiver has been appointed over all or a substantial portion of the property of the vendor under federal bankruptcy law or any state insolvency law, the vendor will immediately provide the County with a written notice to that effect and that it will provide the County any relevant information requested in order for the County to determine whether the vendor has the financial ability to meet its obligations to the County.

ATTACHMENT B: SPECIFICATIONS

1. GENERAL REQUIREMENTS AND BIDDER SPECIFICATIONS

Sealed bids are requested for one (1) Rigid Hull Aluminum Patrol Boat and Trailer, measuring 21 to 22 feet in hull length. The boat should feature a vee-bottom, bow-rider design with walk-through cabin access to the bow. The vessel shall be designed with a partially enclosed half-cabin with sliding windows on the port and starboard side and a drop-down curtain at the rear. The boat should be powered by dual 200 HP outboard motors, or an equivalent engine configuration that provides a minimum maximum speed of 45 MPH. The vessel must be equipped with dual consoles, with the steering and helm located on the starboard side.

The vessel must be suitable for law enforcement, search-and-rescue operations, and patrol functions on the waterways within and surrounding Nevada County. The boat and trailer configuration, balance, and construction must ensure stability and maneuverability at all speeds, under varying wind, water, depth, and wave conditions typically encountered in the rivers, lakes, and waterways of Nevada County. Water conditions may range from flat to 2-3-foot waves caused by boating traffic and wind. Several of the lakes are located at high altitudes, approximately 6,000 feet. Additionally, the boat will occasionally be deployed in heavy storms.

The primary function of the boat will include general lake patrols, search and rescue operations for possible drownings and lost individuals, rescue of stranded vessels, towing other boats over several miles, and conducting vessel inspections by tying off to other boats. The boat will be used for both nighttime and daytime patrol/rescue operations. It will be deployed on regular 10-hour shifts, with potential extensions to 18-hour shifts, and is expected to be in use for approximately 400 hours per season. Operations will be seasonal, with peak usage occurring during the summer months. The boat will be trailered to various locations, including narrow county roads, and will not be moored permanently.

It is intended that the manufacturer, when selecting components, materials, and design practices for the specified vessel, shall use those which are the best available in the industry for the type of operation and conditions for which the vessel shall be subjected. All components, materials and design practices shall be selected to give maximum performance, service life and safety and do not merely reflect the minimum requirements of the specifications.

Bids must include all costs of the finished vessel including labor, materials, and all other costs for a completely operational vessel upon receipt. The bid shall include any and all applicable sales and or use taxes and California Department of Motor Vehicles registration fees.

Warranties will include:

- **Engine and Pump:** Full manufacturer's warranty
- **Hull:** Minimum 1—year warranty on materials and workmanship
- **Equipment:** Manufacturer's warranty or as required by California law

All work done, when and where governed, must comply with current USCG, NMMA and ABYC Regulations.

Owner's and service manuals for all applicable components shall be provided with the boat and trailer upon delivery.

The successful bidder must be a recognized manufacturer of heavy aluminum watercraft who has been in business continuously for a minimum of 24 months prior to the bid opening date.

All equipment and components listed as standard by the manufacturer for the model quoted shall be furnished whether or not such items are detailed herein (**e.g. special wrenches, tool kits, jacks adequate to safely lift the vessel when loaded to rated capacity, etc.**)

The County shall not accept any part, component or system which is not an established standard product of the manufacturer (e.g. "prototypes", "experimental", etc.)

The bidder shall list on a separate sheet any variations from or exceptions to the conditions, requirements or specifications of this document. This sheet shall be labeled **"Exceptions to Bid Conditions and Specifications"** and shall be attached to the bid form. It is not the intent of these specifications to restrict a manufacturer's ingenuity in design or to conflict with the standard marine construction practices.

- 1.1 A representative from the Nevada County Sheriff's Office will have advance notice from the manufacturer of various stages of construction.
- 1.2 The successful bidder shall deliver the completed vessel and trailer to a location designated by Nevada County and shall provide a minimum of one eight-hour training session of operation and maintenance instruction for designated Sheriff personnel.
- 1.3 The original dealer's Report of Sale along with a Certified Weight Certificate shall be furnished to the consignee at the time of delivery of the vessel.
- 1.4 Bidders must comply with Disabled Veterans Business Enterprise (DVBE) requirements, Recycling Certification, Contractor Certification Clauses, and CONTACTORS CERTIFICATION CLAUSES. Supporting documents are included in this bid package provided in **EXHIBIT A** through **EXHIBIT C**.
- 1.5 The vendor shall have **one hundred twenty (120) calendar days** to build and deliver the completed vessel and trailer to the location agreed upon. The 120 days shall begin on the date the purchase order contract is signed between the vendor and the County of Nevada. There shall be a monetary penalty for each day beyond the set delivery date. Penalty terms will be discussed and agreed upon at time of order.
- 1.6 Boat and trailer are to be delivered F.O.B. destination, where the destination will be a location within Nevada County to be determined, within no more than one hundred and twenty (120) calendar days from date of order.

- 1.7 Acceptance of delivery by County will be conditional upon the boat being demonstrated to be operational and meeting all the requirements of the purchase contract.
