4. BACKGROUND

This project has evolved through several different planned approaches over the past several years. Following is a summary of how the County came to its decision to undertake the proposed rehabilitation.

In June 2001, the County applied for funds for a feasibility study for replacement or rehabilitation of the Hirschdale Road bridges under the State Mandatory Seismic Retrofit program. After review by the Office of Structures Local Assistance, the bridges were determined to be eligible for Mandatory Retrofit funding. Under the program, the State provided State funds to match the federal dollars, limiting the County's share of the project costs. PE funds were authorized in September 2002.

The County conducted the feasibility study and proceeded to the Seismic Strategy meeting in April, 2004. The scope that was approved at the Strategy meeting was replacement of the bridges, but the State match was limited to the amount needed to complete a retrofit, should the cost of the replacement exceed the estimated cost of retrofit.

As the environmental and preliminary design of the replacement project proceeded, several elements created additional difficulty and cost with the replacement strategy. First, the time and expense of obtaining permits from the Lahonton Regional Water Quality Board for the work over the Truckee River grew to a significant portion of the project cost. The mitigation and documentation required to demolish a bridge over the Truckee River and construct a new one became increasingly complex and expensive.

Local residents also entered strenuous objection to the possibility for increased truck traffic in and out of the gravel quarry north of Interstate 80. They already were very concerned about commercial gravel truck

operating in their rural community and were vocal in their opposition to the possibility that improved access would create increased use.

As the environmental documentation and preliminary design proceeded, the condition of bridge 17C0045 over the Truckee River continued to deteriorate. The County was forced to close the bridge down to one lane and enforce a load limit. As a result of these restrictions, the quarry operator developed an alternate access to the quarry by obtaining easements for a new road going north and west to Boca Road.

With the introduction of the Highway Bridge Program (HBP) and the use of toll credits for a local agency's 11.47% match, the County began to pursue bridge replacement in 2007. In February 2008, the Board approved a contract with a consultant for a bridge removal and reconstruction project.

In late 2008, the County began investigating the potential costs and benefits of an alternate project scope. The County and our consultant revised the project scope of services to begin work on a lower cost bridge removal and alternative road alignment project in 2010.

The development of this alternate access provided a new potential alternative to address the deteriorating conditions of the Hirschdale Road bridges. This alternative access would serve the needs of the limited number of users, other than the quarry, which still required access over the existing bridges. If the quarry operator was amenable, and all potential access concerns could be addressed, it would be possible to abandon both bridges, rather than replacing them.

The environmental impacts, mitigation and permit cost of this new alternative approach were found to be substantially less than the original scope. Estimated construction costs were dramatically less as this alternative eliminated the need for both structures. The community at the time preferred this alternative, as it permanently removed the commercial aggregate trucks from their neighborhood. The costs of right of way acquisition were mitigated by the cooperation from the quarry owner. The neighbors favored this alternative since the access road would be accepted into County maintained mileage, thus lowering their maintenance liability.

All of these factors resulted in the County petitioning Caltrans for a change of scope. In August 2011 Caltrans approved the alternative project scope, and work began on environmental clearance and project design.

In May 2014 the County issued a draft mitigated negative declaration and notice of availability for public review. During the public review and comment period the County received 78 comments on the proposed project. It became clear through these public comments that the public was universally opposed to the updated project alternative. In addition, a number of issues raised by the public comments caused the County to reassess the project and the likelihood that a mitigated negative declaration would not be sufficient for the project. As a result, the County did not approve the mitigated negative declaration and proposed road bypass alternative.

In late 2014 the County again approached Caltrans with a proposed project scope change. The newly proposed scope included a scaled-down approach at the bridges that included improvements necessary to resolve the seismic deficiencies and sufficiency issues. In early 2015 the County contracted with a consultant to assess the structure condition and develop scoping memoranda for both bridges to resolve bridge seismic deficiencies and increase the bridges' remaining service life approximately 30 to 40 years. The following summarizes the proposed improvements for each bridge:

- Hirschdale Road over Truckee River
 - Superstructure – Complete Replacement
 - Piers – Shear key installation, spall repairs
 - Abutments – Complete Replacement
 - Preliminary bridge rehabilitation costs estimated at \$2.16 million

- Hirschdale Road over Hinton (UPRR) Overhead
 - Deck – AC removal, deck crack sealing, overhang removal with barrier installation and conversion to a 1-lane bridge
 - Superstructure – pipe/cable restrainers added at pier locations
 - Piers – shear key installation, infill walls
 - Abutments – unsound concrete repair

- Preliminary bridge rehabilitation costs estimated at \$1.07 million

The County has provided a significant amount of information relating to the information listed above on the website for this solicitation. Please visit the County's website to review or download this information: <http://www.mynevadacounty.com/nc/igs/purchasing/Pages/Home.aspx>.

If requested, Contractor agrees to serve as an expert witness for County in any third party action or proceeding arising out of this Contract.

Payment

2. **Charges and Payments:**

The charges (herein "Charges") for furnishing the aforesaid Services under this Contract are set forth in **Exhibit "B"**, including, if applicable, hourly rates, unit pricing, and expense, mileage and cost limits. Said Charges shall be presented monthly by invoice, and shall be due within thirty (30) days of receipt unless payment is otherwise set forth in said **Exhibit "B"**, and shall remain in effect for the entire term of this Contract, and any extension hereof. Therefore, if §4 at page one (1) hereof shall indicate a daily amount as **Liquidated Damages**, County shall have the right to assess said daily sum, not as a penalty, but as and for damages to County due to delays in providing Services not in accordance with the said Performance Schedule, or later than the Contract Termination Date (herein "Delay"). Liquidated Damages shall be offset against amounts owing to Contractor, including retention sums.

To the extent that any Delay is a result of matters or circumstances wholly beyond the control of Contractor, County may excuse said Liquidated Damages; provided however, that County may condition such excuse upon Contractor having given prompt notice to County of such delay immediately by telephone and thereafter by written explanation within a reasonable time. The time for Contractor's performance shall be extended by the period of delay, or such other period as County may elect.

5. **Time of the Essence:**

Time is of the essence with respect to Contractor's performance under this Contract. Delay in meeting the time commitments contemplated herein will result in the assessment of liquidated damages, if indicated at §4 at page one (1), hereof. If Liquidated Damages are not so indicated, damages shall be as otherwise provided by law.

Insurance

6. **Commercial General Liability Insurance:** (County Resolution No. 90674)

If §6 at page one (1) hereof shall indicate a **Commercial General Liability** insurance policy is required, Contractor shall promptly provide proof of such insurance evidenced by a certificate of insurance with properly executed endorsements attached, which insurance shall include the following:

Not later than 30 days after issuance of the final audit report, the Consultant may request a review by the County's Chief Financial Officer of unresolved audit issues. The request for review will be submitted in writing.

Neither the pendency of a dispute nor its consideration by the County will excuse the Consultant from full and timely performance, in accordance with the terms of this contract.

CONSULTANT and subconsultant contracts, including cost proposals and ICR, are subject to audits or reviews such as, but not limited to, a contract audit, an incurred cost audit, an ICR Audit, or a CPA ICR audit work paper review. If selected for audit or review, the contract, cost proposal and ICR and related work papers, if applicable, will be reviewed to verify compliance with 48 CFR, Part 31 and other related laws and regulations. In the instances of a CPA ICR audit work paper review it is CONSULTANT's responsibility to ensure federal, state, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. The contract, cost proposal, and ICR shall be adjusted by CONSULTANT and approved by COUNTY contract manager to conform to the audit or review recommendations. CONSULTANT agrees that individual terms of costs identified in the audit report shall be incorporated into the contract by this reference if directed by COUNTY at its sole discretion. Refusal by CONSULTANT to incorporate audit or review recommendations, or to ensure that the federal, state or local governments have access to CPA work papers, will be considered a breach of contract terms and cause for termination of the contract and disallowance of prior reimbursed costs.

All subcontracts in excess of \$25,000 shall contain the above provisions.

30. Covenant Against Contingent Fees:

The Consultant warrants, by execution of this contract that no person or selling agency has been employed, or retained, to solicit or secure this contract upon an agreement or understanding, for a commission, percentage, brokerage,

or contingent fee, excepting bona fide employees, or bona fide established commercial or selling agencies maintained by the Consultant for the purpose of securing business. For breach or violation of this warranty, the County has the right to annul this contract without liability; pay only for the value of the work actually performed, or in its discretion to deduct from the contract price or consideration, or otherwise recover the full amount of such commission, percentage, brokerage, or contingent fee.

31. Disputes:

Not later than 30 days after completion of all work under the contract, the Consultant may request review by the Local Agency Review Committee (Public Works Director and Purchasing Agent) of unresolved claims or disputes, other than audit. The request for review will be submitted in writing.

Neither the pendency of a dispute, nor its consideration by the committee will excuse the Consultant from full and timely performance in accordance with the terms of the contract.

32. Disadvantaged Business Enterprise (DBE) Participation:

This contract is subject to 49 CFR, Part 26 entitled "Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs". Consultants who obtain DBE participation on this contract will assist Caltrans in meeting its federally mandated statewide overall DBE goal.

The goal for DBE participation for this contract is **7%**. Participation by DBE consultant or subconsultants shall be in accordance with information contained in the Consultant Proposal DBE Commitment (**Exhibit 10-O1**), or in the Consultant Contract DBE Information (**Exhibit 10-O2**) attached hereto and incorporated as part of the Contract. If a DBE subconsultant is unable to perform, CONSULTANT must make a good faith effort to replace him/her with another DBE subconsultant, if the goal is not otherwise met.

DBEs and other small businesses, as defined in 49 CFR, Part 26 are encouraged to participate in the performance of contracts financed in whole or in part with federal funds. The Consultant or subconsultant shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The Consultant shall carry out applicable requirements of 49 CFR, Part 26 in the award and administration of US DOT-assisted agreements. Failure by the Consultant to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the County deems appropriate.

Any subcontract entered into as a result of this contract shall contain all of the provisions of this section.

A DBE firm may be terminated only with prior written approval from the County and only for the reasons specified in 49 CFR 26.53(f). Prior to requesting the County consent for the termination, the Consultant must meet the procedural requirements specified in 49 CFR 26.53(f).

A DBE performs a Commercially Useful Function (CUF) when it is responsible for execution of the work of the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved. To perform a CUF, the DBE must also be responsible with respect to materials and supplies used on the contract, for negotiating price, determining quality and quantity, ordering the material, and installing (where applicable) and paying for the material itself. To determine whether a DBE is performing a CUF, evaluate the amount of work subcontracted, industry practices, whether the amount the firm is to be paid under the, contract is commensurate with the work it is actually performing, and other relevant factors.

A DBE does not perform a CUF if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of DBE participation. In determining whether a DBE is such an extra participant, examine similar transactions, particularly those in which DBEs do not participate.

If a DBE does not perform or exercise responsibility for at least thirty percent (30%) of the total cost of its contract with its own work force, or the DBE subcontracts a greater portion of the work of the contract than would be expected on the basis of normal industry practice for the type of work involved, it will be presumed that it is not performing a CUF.

The Consultant shall maintain records of materials purchased or supplied from all subcontracts entered into with certified DBEs. The records shall show the name and business address of each DBE or vendor and the total dollar amount

actually paid each DBE or vendor, regardless of tier. The records shall show the date of payment and the total dollar figure paid to all firms. DBE prime consultants shall also show the date of work performed by their own forces along with the corresponding dollar value of the work.

Upon completion of the Contract, a summary of these records shall be prepared and submitted on the form entitled, "Final Report-Utilization of Disadvantaged Business Enterprise (DBE), First-Tier Subconsultants" CEM-2402F [Exhibit 17-F, of the LAPM], certified correct by the Consultant or Consultant's authorized representative and shall be furnished to the Contract Administrator with the final invoice. Failure to provide the summary of DBE payments with the final invoice will result in twenty-five percent (25%) of the dollar value of the invoice being withheld from payment until the form is submitted. The amount will be returned to the Consultant when a satisfactory "Final Report-Utilization of Disadvantaged Business Enterprises (DBE), First-Tier Subconsultants" is submitted to the Contract Administrator.

If a DBE subconsultant is decertified during the life of the contract, the decertified subconsultant shall notify the Consultant in writing with the date of decertification. If a subconsultant becomes a certified DBE during the life of the Contract, the subconsultant shall notify the Consultant in writing with the date of certification. Any changes should be reported to the County's Contract Administrator within 30 days.

33. Equipment Purchase:

Prior authorization in writing, by the County's Contract Administrator shall be required before the Consultant enters into any unbudgeted purchase order, or subcontract exceeding \$5,000 for supplies, equipment, or the Consultant services. The Consultant shall provide an evaluation of the necessity or desirability of incurring such costs.

For purchase of any item, service or consulting work not covered in the Consultant's Cost Proposal and exceeding \$5,000 prior authorization by the County's Contract Administrator; three competitive quotations must be submitted with the request, or the absence of bidding must be adequately justified.

Any equipment purchased as a result of this contract is subject to the following: "the Consultant shall maintain an inventory of all nonexpendable property. Nonexpendable property is defined as having a useful life of at least two years and an acquisition cost of \$5,000 or more. If the purchased equipment needs replacement and is sold or traded in, the County shall receive a proper refund or credit at the conclusion of the contract, or if the contract is terminated, the Consultant may either keep the equipment and credit the County in an amount equal to its fair market value, or sell such equipment at the best price obtainable at a public or private sale, in accordance with established the County procedures; and credit the County in an amount equal to the sales price. If the Consultant elects to keep the equipment, fair market value shall be determined at the Consultant's expense, on the basis of a competent independent appraisal of such equipment. Appraisals shall be obtained from an appraiser mutually agreeable to by the County and the Consultant, if it is determined to sell the equipment, the terms and conditions of such sale must be approved in advance by the County." 49 CFR, Part 18 requires a credit to Federal funds when participating equipment with a fair market value greater than \$5,000 is credited to the project.

All subcontracts in excess \$25,000 shall contain the above provisions.

34. Inspection of Work:

Consultant and any subconsultant shall permit Nevada County, the state, and the FHWA, if federal participating funds are used in this contract; to review and inspect the project activities and files at all reasonable times during the performance period of this contract including review and inspection on a daily basis.

35. Safety:

 (Sample Calculations for Anticipated Salary Increases)

Consultant _____ Contract No. _____ Date _____

1. Calculate Average Hourly Rate for 1st year of the contract (Direct Labor Subtotal divided by total hours)

Direct Labor <u>Subtotal</u> per Cost Proposal	Total Hours per Cost Proposal	=	Avg Hourly Rate	5 Year Contract Duration
\$250,000.00	5000	=	\$50.00	Year 1 Avg Hourly Rate

2. Calculate hourly rate for all years (Increase the Average Hourly Rate for a year by proposed escalation %)

	Avg Hourly Rate		Proposed Escalation			
Year 1	\$50.00	+	2%	=	\$51.00	Year 2 Avg Hourly Rate
Year 2	\$51.00	+	2%	=	\$52.02	Year 3 Avg Hourly Rate
Year 3	\$52.02	+	2%	=	\$53.06	Year 4 Avg Hourly Rate
Year 4	\$53.06	+	2%	=	\$54.12	Year 5 Avg Hourly Rate

3. Calculate estimated hours per year (Multiply estimate % each year by total hours)

	Estimated % Completed Each Year		Total Hours per Cost Proposal		Total Hours per Year	
Year 1	20.0%	*	5000	=	1000	Estimated Hours Year 1
Year 2	40.0%	*	5000	=	2000	Estimated Hours Year 2
Year 3	15.0%	*	5000	=	750	Estimated Hours Year 3
Year 4	15.0%	*	5000	=	750	Estimated Hours Year 4
Year 5	10.0%	*	5000	=	500	Estimated Hours Year 5
Total	100%		Total	=	5000	

4. Calculate Total Costs including Escalation (Multiply Average Hourly Rate by the number of hours)

	Avg Hourly Rate (calculated above)		Estimated hours (calculated above)		Cost per Year	
Year 1	\$50.00	*	1000	=	\$50,000.00	Estimated Hours Year 1
Year 2	\$51.00	*	2000	=	\$102,000.00	Estimated Hours Year 2
Year 3	\$52.02	*	750	=	\$39,015.00	Estimated Hours Year 3
Year 4	\$53.06	*	750	=	\$39,795.30	Estimated Hours Year 4
Year 5	\$54.12	*	500	=	\$27,060.80	Estimated Hours Year 5
	Total Direct Labor Cost with Escalation			=	\$257,871.10	
	Direct Labor Subtotal before Escalation			=	\$250,000.00	
	Estimated total of Direct Labor Salary Increase			=	\$7,871.10	Transfer to Page 1

NOTES:

- This is not the only way to estimate salary increases. Other methods will be accepted if they clearly indicate the % increase, the # of years of the contract, and a breakdown of the labor to be performed each year.
- An estimation that is based on direct labor multiplied by salary increase % multiplied by the # of years is not acceptable. (i.e. \$250,000 x 2% x 5 yrs = \$25,000 is not an acceptable methodology)
- This assumes that one year will be worked at the rate on the cost proposal before salary increases are granted.
