Section 1. Introduction

EXECUTIVE SUMMARY

This Capital Improvement Plan (CIP) has been prepared to provide the County of Nevada (County) Board of Supervisors (BOS) and the community with an outline of capital improvement expenditures and revenue projections. This year's CIP represents a five-year, \$147 million program from July 2024 thru June 2028.

Gas tax and General Fund Maintenance of Effort (MOE) constitute the primary discretionary funding sources for the County's road maintenance activities. Since 2015, the County has seen annual fluctuations of up to \$1 million per year. A combined 30% increase in costs during that time further eroded our ability to maintain roads and infrastructure.

At the end of Fiscal Year 23/24 and again in 24/25, the Roads Internal Services Fund (ISF) is scheduled to have limited funds to allow purchases of much needed equipment to assist with road maintenance and so only priority equipment and vehicle purchases are proposed in this CIP. Despite the addition of some priority equipment, the County's over all pavement condition index (PCI) is currently 63 and will continue to drop by approximately 1 point per year given the current funding. Next year it is anticipated that the PCI will be at the Board adopted minimum of 62.

Road Maintenance and Rehabilitation Account (RMRA) funds are projected to average approximately \$4.0 million annually over the next five years to Nevada County for road safety, maintenance, and improvement projects.

With the recent increases in inflation, crude oil prices, both construction materials and operating costs will increase, consequently reducing the amount of work to be completed based on the available funds. The drastic increase in gasoline and diesel prices, combined with the increase in alternatively fueled vehicles will reduce the number of gallons sold, thereby, reducing the road fund revenues. The long-term prognosis for the CIP's fund balance projections is steady as the County receives gas tax and RMRA funds. Moving forward, staff anticipates maintaining a reasonable fund balance in future fiscal years.

Although economic indicators are uncertain, we continue to see robust state and federal grant funding for capital projects. In this plan, the County expects to receive approximately \$35 million in state and federal grants for a variety of transit, roadway safety, bridge, and road maintenance projects. Additional grant funds have been applied for from the Federal Emergency Management Agency and Community Development Block Grant (CDBG), Highway Bridge Program (HBP) and the Highway Safety Improvement Program for roadway related improvements. Additional grants for vegetation management will be applied for as opportunities arise.

PLAN ORGANIZATION

This document has been developed to identify the County's priority road safety, maintenance, and capital improvement activities over a five-year period. Project sheets are included to provide the BOS and the public with relevant project information, including project locations, descriptions, justification, anticipated construction dates, project costs, and funding sources. In addition, fiscal year financial pro forms are included to provide additional details.

SUMMARY OF THE MAJOR REVENUE SOURCES

Road funding is typically broken down into two categories – discretionary funds and restricted funds. Discretionary funds are unrestricted and can be used for a variety of road safety and maintenance activities and improvement projects. This includes funding sources like Gas Tax or General Fund MOE. Restricted revenues are utilized for specific projects or activities and cannot be used for other activities. Local Traffic Mitigation Fees (LTMF) and Federal Grants are examples of restricted fund revenues. A description of each funding source is provided below.

Discretionary Funds

Gas Tax: Gas tax funds (also referred to as Highway User Tax Account (HUTA) are the primary source of discretionary funding for the road maintenance program. These funds typically provide for shoulder and drainage work, road vegetation control, general maintenance (pothole repair, snow removal, crack sealing, pavement failure repairs, etc.), equipment purchases, road preservation, and maintenance projects like overlays.

General Fund Maintenance of Effort (MOE): In June 2017, the BOS adopted a funding program from General Fund MOE revenue. General Fund MOE revenues were established as baseline funding and are subject to annual inflationary adjustments. As a result, General Fund MOE is a predictable and stable source of revenue. These funds are used for road maintenance activities and as a local match on state and federal grant projects. The County is able to leverage an average of approximately \$20 in state and federal funding for every \$1 used as a local match on a grant project. These projects deliver an array of valuable improvements, such as bridge repairs and replacements, high friction surface treatments, thermoplastic striping, sign audits, etc. which help reduce our future maintenance demands.

Regional Surface Transportation Program (RSTP): RSTP funds can be used for a variety of road maintenance activities including road preservation, shoulder maintenance, dirt and gravel road maintenance, and annual striping replacement. The County receives an allocation of funds each year from the Nevada County Transportation Commission (NCTC), and this is considered a stable source of revenue; however, the County must request these funds from NCTC annually.

State Exchange: State Exchange funds are allocated to counties on an annual basis based on an apportionment of Federal Regional Surface Transportation Program (RSTP) funds. Exchange of these federal dollars for state dollars allows for increased flexibility in the use of these funds to complete transportation projects. Like RSTP, State Exchange funds must be used for transportation purposes but are not subject to federal funding restrictions and, as such, these funds are used for a variety of road maintenance activities.

Roads Internal Service Fund (ISF): The Roads ISF was established in 2020 to fund the vehicle and equipment replacement fund for the Roads Division.

Other: This includes minimal Federal Forest Reserve funds and one-time revenues.

Restricted Funds

Grants: County staff regularly apply for, and the County receives grant funding from a variety of sources. This includes from the Highway Safety Improvement Program (HSIP), Highway Bridge Program (HBP), Congestion Mitigation and Air Quality (CMAQ) improvement program, and the Community Development Block Grants (CDBG), among others. These programs help fund much needed roadway safety projects, bridge replacement and rehabilitation projects, congestion and air quality improvement projects, and projects that improve accessibility to

federal properties. In addition, other one-time grants can help augment road safety, vegetation and tree removal, and a myriad of other County public works activities.

Road Maintenance and Rehabilitation Account (RMRA): In April 2017, Governor Brown signed SB1 into law. SB1 results in an average total increase of approximately \$4.0 million annually over the next five years for Nevada County for road safety, maintenance, and improvement projects. SB1 is intended to stabilize HUTA revenue and includes annual inflationary adjustments to ensure long-term fiscal solvency of gas tax revenues. As a result, RMRA revenues have become a stable revenue source.

RMRA funds require the County to submit a list of all projects proposed to be funded by July 1st of each year. The list must include a description and the location of each proposed project, a proposed schedule for the project’s completion, and the estimated useful life of the improvement and is included in this CIP. Annual reports of expenditures are due December 1st of each year. All reports are available online at <http://catc.ca.gov/reports-resources>.

County Service Area (CSA)/Permanent Road Division (PRD): CSA’s and PRD’s are special districts established at the request of property owners that include annual assessments for road maintenance activities. These annual assessments are included on annual property tax bills as a special parcel charge. Funds collected for a CSA or PRD can only be spent on roads and activities within that particular special district.

Development Fees – The Local Traffic Mitigation Fee Program (LTMF) and Regional Transportation Mitigation Fee (RTMF) collects fees from local development to pay for improvements necessary to offset the cumulative net impacts from these developments. Only projects identified in the LTMF and RTMF programs are eligible for these funds.

Other – This includes trust funds, one-time project specific revenues, etc.

SUMMARY OF MAJOR CIP EXPENDITURES

The total projected expenditures for FY 24-25 are projected to be \$34,452,789 (including Solid Waste and Transit projects).

Capital Projects constitute 53% of total CIP expenditures. Table 1 includes the following expenditures:

TABLE 1: CAPITAL PROJECT EXPENDITURES

CATEGORY	AMOUNT	FUNDING SOURCES
Bridge Projects	\$1,838,802	Federal Grants, General Fund MOE, Gas Tax
Development Fee Projects	\$625,000	Federal Grant, to be supplemented with LTMF in later years
Safety Projects	\$100,000	Gas Tax, Federal Grants
Other	\$15,620,257	State Grant, Solid Waste Funds and Rule 20(a)
TOTAL	\$18,184,059	

Maintenance constitutes 35% of total CIP expenditures. Table 2 includes the following expenditures:

ROAD MAINTENANCE AND REHABILITATION PROGRAM

PROJECT DESCRIPTION: This 5-year road maintenance and rehabilitation plan will resurface or repave roads throughout Nevada County, including County Service Areas, and Permanent Road Divisions (CSA/PRD). Roads are selected and prioritized based on the County’s Pavement Management System to ensure revenues are being used on the most high-priority and cost-effective projects that also meet the community’s priorities for transportation investment. The plan includes various potential pavement preservation and replacement techniques.

This plan also outlines roads where the County Road crews are scheduled to perform brush clearing. Additional brush clearing efforts are outlined in other projects. It is anticipated that in FY 2027 the majority of vegetation removal services will shift from County Road Crew responsibility to outside contractors, thus allowing County forces to focus on road maintenance duties.

PROJECT LOCATION: The following locations are tentatively scheduled for road maintenance and rehabilitation in Fiscal years 2024 thru 2028:

SCHEDULE FOR COMPLETION: It is anticipated that each project listed above will be completed before the end of the fiscal year in which the project is identified.

ESTIMATED USEFUL LIFE: Many factors can affect a payment’s useful life, including the quality of the subgrade, drainage conditions, traffic loads etc. Typically, Nevada County expects a 10-15-year useful life out of pavement overlay, and a 2-4 year useful life of a micro-surface.

ANNUAL TRAFFIC STRIPING PROGRAM

PROJECT LOCATION: Various locations throughout Nevada County. Roads are typically broken up into two phases. Phase 1 typically includes higher elevation roads and roads in eastern Nevada County, while Phase 2 includes all other western Nevada County roads.

PROJECT DESCRIPTION: Centerline and edge line striping on various sections of County maintained roads per striping program schedule.

PROJECT JUSTIFICATION: To maintain the County roadways, the Department repaints the centerline and edge line stripes on an annual basis.

FEMA BRUSH CLEARING- RIGHT-OF-WAY SAFETY PROJECT

PROJECT LOCATION: Various locations .

PROJECT DESCRIPTION: The County of Nevada Office of Emergency Services (OES) has been awarded a grant which has identified 140 miles of roadway that will undergo right-of-way identification and vegetation management that will help slow the spread of wildfires, while enabling a quick effective fire suppression response through ingress of firefighting equipment while allowing travelers egress on the same roadways. County Office of Emergency Services and Public Works are working jointly on this project.

PROJECT JUSTIFICATION: The objective is to identify roadway location within the County right-of-way to help identify limits used to reduce vegetation along the roadside of various County roads.

HIRSCHDALE ROAD AT TRUCKEE RIVER BRIDGE REPLACEMENT PROJECT

PROJECT LOCATION: Hirschdale Road East of Glenshire Drive.

PROJECT DESCRIPTION: This bridge on Hirschdale Road at the Truckee River has been identified as being seismically and structurally substandard. This project scope is expected to replace the existing piers and replace the existing superstructure (deck) and abutments. The bridge width will be narrowed to support lower traffic volumes and mixed vehicle, pedestrian, and bicycle usage.

PROJECT JUSTIFICATION: Caltrans monitoring reports have determined that the bridge is considered structurally deficient. In addition, the bridge is currently considered seismically unstable. The County was awarded Highway Bridge Program (HBP) funding to seismically retrofit and rehabilitate the existing bridge.

PROJECT LOCATION: Hirschdale Road west of Hinton Road.

PROJECT DESCRIPTION: Both bridges on Hirschdale Road at the Truckee River and at the Union Pacific Railroad (UPRR) Bridge have been identified as being seismically and structurally substandard. This project scope includes seismic retrofit of the existing piers and superstructure. This work will include deck rehabilitation, overhang removal with barrier installation and conversion to a one-lane bridge, installation of pipe/cable restrainers and shear key installation to address seismic deficiencies.

PROJECT JUSTIFICATION: Caltrans monitoring reports have determined that the bridge is in a state of deterioration and is considered seismically unstable. The County was awarded Highway Bridge Program (HBP) funding to seismically retrofit and rehabilitate the existing bridge.

N. BLOOMFIELD RD AT S. YUBA RIVER BRIDGE EVALUATION PROJECT

PROJECT LOCATION: North Bloomfield Road at S. Yuba River.

PROJECT DESCRIPTION: This bridge – commonly referred to as “Edwards Crossing” - was built in 1904 and is a historic structure with a large span over the South Yuba River. The site is also a popular recreation facility. This bridge is structurally deficient and currently has a weight restriction due to its structural limitations. The Federal HBP program provides reimbursable funds for 100 percent of eligible project costs. The project will evaluate various replacement scenarios before moving forward with project design and construction.

PROJECT JUSTIFICATION: The project will provide a safe permanent crossing over the South Yuba River on North Bloomfield Road since the existing structure is structurally deficient.

DOG BAR ROAD AT BEAR RIVER BRIDGE REPLACEMENT PROJECT

PROJECT LOCATION: Dog Bar Road at Bear River Bridge – south of Magnolia Road.

PROJECT DESCRIPTION: The existing bridge is located on Dog Bar Road at the Bear River (Nevada-Placer County Line). The existing bridge was constructed in 1935, rehabilitated in 2000, and is not considered historic. Although Nevada Irrigation District (NID) has tentative plans to construct the Centennial Dam which would relocate the river crossing, the Centennial Dam project construction date is unknown. Delays in constructing the dam project necessitate rehabilitation of the bridge.

PROJECT JUSTIFICATION: The purpose of the project is to provide a safe crossing over Bear River on Dog Bar Road since the existing structure is functionally obsolete. The existing steel girder structure with a steel deck is too narrow for the current and future traffic volumes.

PROJECT LOCATION: Relief Hill Road at Humbug Creek

PROJECT DESCRIPTION: The County of Nevada is proposing to replace and widen the existing one lane timber deck bridge (Bridge No. 17C-0028) over Humbug Creek. The existing bridge was built in 1952 and is located on Relief Hill Road north of Nevada City. The structure is severely deteriorated and is considered structurally deficient.

PROJECT JUSTIFICATION: The project provides a safe permanent crossing over Humbug Creek and the existing structure is structurally deficient and the roadway is substandard. New structure will enhance the safety of the public. In addition, the project will resolve on-going maintenance and width issues.

DONNER PASS ROAD AT CASTLE CREEK BRIDGE REPLACEMENT PROJECT

PROJECT LOCATION: Donner Pass Road at Castle Creek

PROJECT DESCRIPTION: The County of Nevada is proposing to replace the existing two lane concrete deck bridge (Bridge No. 17C-0051) over Castle Creek. The existing bridge was built in 1920 and is located on Donner Pass Road east of Soda Springs Road.

PROJECT JUSTIFICATION: The project provides a safe permanent crossing over Rock Creek and the existing structure is structurally deficient and the roadway is substandard. In addition, the project will resolve on-going maintenance and width issues.

BRIDGE MAINTENANCE AND REPAIR PROJECT

PROJECT LOCATION: Various bridges location throughout Nevada County

PROJECT DESCRIPTION: The project will identify, prioritize, and make minor repairs on various bridges throughout Nevada County as identified in the Caltrans bi-annual bridge reports. Work will include minor concrete repair, railing repair, and deck repairs.

PROJECT JUSTIFICATION: The County receives bi-annual bridge inspection reports from Caltrans identifying maintenance and repairs recommendations. Maintenance is required on these structures to protect the health and safety of the public and the integrity of the County's infrastructure.

REGIONAL TRANSPORTATION PLAN ACTIVITIES PROJECT

PROJECT LOCATION: Various locations.

PROJECT DESCRIPTION: The Nevada County Transportation Commission (NCTC) partners with Nevada County for support of projects listed in the latest NCTC Overall Work Program. This project coordinates efforts of local, and state agencies, the general public, and private industries to impliment regional transportation activities.

PROJECT JUSTIFICATION: Nevada County partners with the NCTC to complete projects listed in the Overall Work Program including planning efforts to identify and plan policies, strategies, programs, and actions that maximize and implement the regional transportation infrastructure.

LOCAL TRAFFIC MITIGATION FEE PROGRAM PROJECT

PROJECT LOCATION: Various locations.

PROJECT DESCRIPTION: The Local Traffic Mitigation Fee (LTMF) program, administered by the County, was updated in 2017 and includes a number of future improvement and safety projects. In addition to the Ridge Road/Rough and Ready Highway Improvement Project, and Magnolia Road improvements, future projects scheduled for construction outside this 5-year CIP may include:

- Shoulder Widening and Safety Improvement Projects – Countywide.
- Roadway improvement projects- Countywide

This fiscal year, the Nevada County Transportation Commission (NCTC) is working on a regional traffic model update. Nevada County is updating the Local Traffic Mitigation Fee (LTMF) program, based upon the new traffic model.

PROJECT JUSTIFICATION: The Mitigation Fee Act, also known as California Assembly Bill 1600 (AB 1600) or Government Code Section 66000 et seq., governs imposing development impact fees in California. The Mitigation Fee Act requires that all local agencies in California, including counties, follow basic principles when instituting impact fees as condition of new development.

TRANSIT SERVICES BUS WASH IMPROVEMENT PROJECT

PROJECT LOCATION: Future Nevada County Operations Center on La Barr Meadows Road

PROJECT DESCRIPTION: The project will construct a transit bus wash at the Nevada County Operations Center site on La Barr Meadows Road. The Transit Services Division contracted the design work with an engineering firm and coordinated with the Engineering Division to provide engineering support. Engineering prepared project plans, specifications, and cost estimates. Future work will include managing the project through construction and providing construction inspection and management services to deliver the project.

PROJECT JUSTIFICATION: The project will provide a needed modern bus washing system which will improve efficiencies for the Transit Services and Fleet Divisions.

MCCOURTNEY ROAD TRANSFER STATION IMPROVEMENT PROJECT

PROJECT LOCATION: McCourtney Road at Wolf Mountain Road.

PROJECT DESCRIPTION: The project will construct improvements at the McCourtney Road Transfer Station (MRTS).

On February 7, 2023, per Resolution 23-073 the Board of Supervisors Awarded a contract between the County of Nevada and Bobo Construction, Inc. for construction of the McCourtney Road Transfer Station (MRTS) Improvement Project (Res. 21-540), in the amount of \$20,037,837 plus a ten percent contingency of \$2,003,784, for a total amount not to exceed \$22,041,621. This project broke ground on May 1, 2023, with completion schedule for Fall 2024. (<https://www.nevadacountyca.gov/3075/McCourtney-Rd-Transfer-Station-Renovatio>)

PROJECT JUSTIFICATION: The County has identified the need to improve efficiency of current operations at the MRTS and plan for projected growth in operations over the next 25 years. Some of the current issues or conditions at the existing facility are:

- During peak times traffic backups can occur throughout the site, including at the main entry, scales, the Municipal Solid Waste (MSW) drop off area, and the recycling drop off area.
- The MSW building is not an enclosed structure and therefore creates issues onsite (litter/dust) and with the neighbors of the facility (noise). The County is interested in reducing neighborhood impacts as well as developing a more aesthetically pleasing facility.
- Currently the facility is operationally inefficient and needs upgrades to existing equipment and structures to improve functionality, including traffic flow. In addition, improvements to the MSW building are desired in order to increase capacity and create a better loading and compaction area for the long haul trucks and the ability of self-haul customers to drop off their refuse more safely and efficiently.

The facility will also be designed to meet new organic waste diversion requirements as mandated by AB 1826 and SB 1383.

PROJECT COST ESTIMATE – PRELIMINARY ENGINEERING
