Resolution 23-029
January 10, 2023
Amending Resolution 23-XXX
February 7, 2023

Executive Summary

The Nevada County Legislative Platform provides an advocacy framework to support legislative and regulatory advocacy to ensure the sustainable delivery of core public services, advance top priority objectives of the County as adopted by the Board of Supervisors, and to solicit funding for infrastructure needs, capital projects and other services and programs that support and promote the well-being of Nevada County residents and community. Annual updates to the Platform also facilitate proactive response to top legislative priorities or regulatory positions in a given year.

2023 Key Legislative Positions

The 2023 Key Legislative Positions outlined below represent an overview of top legislative positions that reflect the Board’s adopted priority objectives, applicable pursuits of the California Governor’s Office and pending/upcoming legislative threats and opportunities critical to the county.

Board of Forestry Fire Safety Regulations - Support reasonable legislation and regulatory actions that provide fire safety regulations and home hardening requirements that mitigate wildfire but oppose legislation or regulatory actions that threaten local control over land use and development in rural counties.

Broadband - Advocate for legislation and rulemaking that removes bureaucratic hurdles and processes to the California Advocated Series Fund (CASF) program and for transparent, efficient and rural equitable implementation of the State’s Middle-Mile Infrastructure Development project.

CalAIM Implementation - Advocate for rulemaking to ensure efficient and effective delivery of Medi-Cal specialty mental health services and substance use disorder services that are coupled with clear transparent funding mechanisms; conversely monitor and oppose initiatives that do not include funding mechanisms or place unfunded mandates on counties.

Cannabis – Support legislation on cannabis activity that a) increases resources and support of enforcement on egregious operations, b) alleviates burdensome tax initiatives and duplicative or costly bureaucratic processes on legal cannabis businesses, c) supports effective cannabis enforcement on illegal cannabis operations, and d) permits state-legal cannabis businesses to work with federal financial institutions; and oppose legislation that strips or removes local jurisdictional authority.

CARE Court Funding and Implementation - Advocate to secure adequate, flexible, and sustained funding across all impacted local agencies to support counties' efforts to implement the Community Assistance, Recovery, and Empowerment (CARE) Act and to amend existing law to ensure its successful implementation.

Disaster Reimbursement - Advocate for timely reimbursements associated with declared states of emergencies and subsequent recovery efforts, including green waste removal.

Easing Administration of the Public Records Act (PRA) - Advocate for legislation that eases the administrative costs associated with the Public Records Act to ensure transparency but balance costs to taxpayers.

Expansion of Involuntary Treatment - Oppose the expansion of Involuntary Treatment to address homelessness without adequate safeguards to individual liberty and adequate sustained resources to all impacted departments and programs, and without flexible local control.

Farm Bill Reauthorization - Advocate for Farm Bill Reauthorization and the continuation of federal funds and programs that support rural communities, including key initiatives in the areas of nutrition, workforce housing, federal forest management policy, wildfire protection, preparedness and forest resiliency, amongst many other critical programs.

Forest Management & Green Waste Removal – Advocate for ongoing sustainable funding for wildfire mitigation projects and programs including direct funding allocations to the Office of Emergency Services and community partners.

Homelessness - Support policy initiatives, alternative solutions and legislation that offer comprehensive systems to end homelessness and address immediate needs, and that prevent the causes of homelessness, provide flexible funding for ongoing costs associated with providing services to unhoused residents and those at risk of homelessness, and promote the development of adequate housing.

Housing - Support legislation to streamline development, increase funding for affordable and workforce housing development, and remove barriers to access such as increasing state income limits to keep pace with increases of wage rates and inflation to allow for affordable and workforce housing and service eligibility.

Organic Waste - Advocate for legislation and rulemaking for implementing of AB 1826 and SB 1383 that provides adequate resources for local governments to develop the necessary infrastructure to implement organics diversion programs, including eligibility of green waste material for procurement requirements.

Recreation Infrastructure – Advocate for funding for recreational infrastructure development and ongoing resources to mitigate public safety risks as a results of peak period visitation, and promote sustainable tourism and economic development.

Recreation Public Land Resources and Management - Advocate for sustainable funding, resources, and staffing for state and federal public land managers and law enforcement to meet recreational service needs that includes Bureau of Land Management, United States Forest Service Tahoe National Park, United States Army Corps of Engineers, and California Department of Parks and Recreation.

Sustainable Funding - Advocate for sustainable resources for ongoing programs and services and oppose efforts to establish county mandates or ongoing programs and services with one-time funding mechanisms.

Zero Emission Vehicle Rural Flexibility & Infrastructure - Support legislation that provides the necessary funding and regulatory flexibility, and promotes public-private coordination for local rural communities to fund, develop, and maintain the necessary infrastructure for zero emission vehicles, alternative transportation including bicycles and walking infrastructure, that balances economic development and public safety.

Projects List 2023

While not a comprehensive list of all county priority projects, this is a dynamic list of important projects that Nevada County should further through planning, advocacy and funding. Icons below indicate if the project is in the conceptual or idea phase (light bulb), planning phase (pencil/ruler), or is ready for implementation (shovel).

Deer Creek Canyon Shaded Fuel Break and Related Projects in the Deer Creek Corridor

In close collaboration with community partners, including the Deer Creek Firewise Communities, the City of Nevada City, Fire Safe Council of Nevada County, NID, the Yuba Watershed Institute, and others, support and advance projects to reduce fuel loads in the Deer Creek and Little Deer Creek watersheds.

Dog Bar Bridge Replacement

Provide a safe crossing over Bear River on Dog Bar Road, as the existing structure, which was built in the 1930s, is too narrow. The site is a popular recreation destination.

Eastern County and Regional Biomass Opportunities

Support regional coordination and efforts to advance the development of biomass facilities and related industries in eastern county and greater region that promote sustainable land management, mitigate risks of wildfire and promote healthy forests.

Edwards Bridge Project

This historic bridge over the South Yuba River, at a popular recreation destination commonly referred to as “Edwards Crossing,” was built in 1904. The project would provide a safe permanent crossing over the South Yuba River on North Bloomfield Road, as the existing bridge is structurally deficient.

Higgins Area Economic Development: Water/Sewer Project Funding

\$3.5 million

Construct water and sewer infrastructure that will serve multi-family residential neighborhoods in the Higgins area, creating capacity for much-needed housing. Planning has been completed, but easements still need to be secured in order to make the project shovel ready.

Combie Road Sidewalk/Bike Lane

\$2 million

This Higgins-area economic development, recreation and resilience project will construct a sidewalk and bike lane from State Highway 49 to Magnolia Road. This will support a growing community, connecting housing, schools, and services, while enhancing public safety and reducing vehicle trips.

Helipad Upgrades at Nevada County Airport

\$222,000

Rehabilitate and expand the helipad at the Nevada County Airport to allow for multiple CAL FIRE aircraft uses, including the S-2 tankers and the S-71i Fire Hawk helicopter, which will expand regional wildland firefighting capabilities.

Highway 49 Corridor Improvements

\$15 million

This multi-modal 2.5-mile project will provide significant safety and traffic flow improvements to this two-lane segment of SR 49 between McKnight Way and La Barr Meadows Road. Among other things, it will widen this segment to a four-lane conventional access control highway, install a continuous median barrier, remove numerous ingress/egresses to the highway, construct a frontage road system, install eight-foot shoulders with rumble strips, provide animal undercrossing/fencing, and more.

Hirschdale Bridge and Public Recreational Access to Truckee River

The replacement of the Hirschdale Road at the Truckee River bridge was awarded Federal Funding through the Federal Highway Bridge Program (HBP) and is slated for construction in 2023 to ensure direct public recreational access to the Truckee River and community ingress/egress.

Hobart Mills Workforce Housing

Work with the US Forest Service, Truckee Tahoe Workforce Housing Agency, and other local partners to develop a phased plan for workforce housing solutions on US Forest Service land at Hobart Mills.

Independence Trail Reconstruction

\$1.8 million

The Jones Fire of August 2020 destroyed wooden flumes that served as bridges to transport visitors on Independence Trail West – including those in wheelchairs -- over deep canyons and ravines. Bear Yuba Land Trust, the owner of this section of the Independence Trail, is seeking funding or to transfer ownership of this land to State Parks, in order to rebuild this iconic handicap-accessible recreational amenity.

Road Infrastructure Improvements that strengthen emergency ingress/egress

Funding is needed for design and construction of road improvements on various locations throughout the county to strengthen emergency ingress/egress.

Mobile Crisis Teams

Funds are needed to expand and sustain Mobile Crisis Team (MCT) pilot with Nevada County Behavioral Health and Nevada County Sheriff's Office unified response to crises, including mental health, substance use issues, domestic disputes and more.

Nevada County Courthouse

Coordinate with the City of Nevada City and the State of California to support alternative uses for the courthouse and to manage and minimize any disruptions that arise from the relocation of the court.

Nevada County Animal Shelter and Emergency Evacuation site

\$17 million

The existing animal shelter facility is over 30 years old and is too small to meet current community needs, requiring reliance on foster homes. The facility lacks adequate parking and is not appropriately accessible. The current shelter was designed for old sheltering practices of capture, confine and euthanize and does not offer a modern adoption-centric layout. During wildfire evacuations, the County relies on the animal shelter, as well as the Nevada County Fairgrounds, to house hundreds of animals during emergency evacuations. The current animal shelter’s ability to meet this need is inadequate.

Penn Valley Community Center

The Penn Valley community identified a community center as a top priority in the Penn Valley Area Plan, completed in 2020. On land owned by the Penn Valley Community Foundation, the community center would provide much needed meeting rooms, a commercial kitchen, event and outdoor activity space.

Pines to Mines

Nevada County, along with Tahoe National Forest and local non-profits has prioritized building an 18-mile trail, which would link Nevada City to Truckee and showcase the county’s most beautiful landscapes. Pending the completion of the County-funded environmental review in 2022, grants for construction will be sought in early 2023.

Ponderosa West Grass Valley Defense Zone

A fuels reduction treatment project on 2,420 acres in a high fire hazard severity zone that has not burned in over 100 years. The project will reduce catastrophic wildfire risk and promote forest health while creating safer public evacuation and wildfire suppression routes. It protects approximately 3,000 residences in the WUI communities of Lake Wildwood, Penn Valley, Rough and Ready and the City of Grass Valley, as well as critical infrastructure for state commerce, such as State Highway 20, power and water infrastructure, and Nevada County facilities.

Recreation and Resilience Master Plan

The Plan was initiated in the Fall of 2022 to address challenges and opportunities for Nevada County’s open space, trails and other recreational interfaces, and prioritize solutions that promote community health and safety, economic development, creative placemaking, landscape restoration, environmental sustainability, climate change adaptation, and resilience. The following project areas are anticipated to be included in the plan, including advocacy and funding strategies.

Bear River Recreation Infrastructure Projects – Develop plan and funding needed for planning, design, construction. Explore strategies with partners to address critical infrastructure needs related to recreation safety and resource preservation.

Boca Recreation Infrastructure – explore needs in master plan, work with state and federal partners to explore ways to sustain existing facilities and enhance communications.

Donner Summit Visitor/Recreation Infrastructure – Develop partnerships with Donner Summit Association (DSA) and Placer County to develop plan for this visitor center. Funding needed to build community consensus and implement planning phase for the

eventual construction of visitor/recreation infrastructure on Donner Summit.

South Yuba River Recreation Infrastructure: Multiple Projects

Partner with Bureau of Land Management, State Parks, and other partners to address critical infrastructure needs for safety and resource preservation, including permanent toilets at Purdon Crossing and mile markers along the river canyon.

Rough and Ready Highway/Ridge Road/Adam Ave Intersection Improvements **\$4.2 million**

Realign two three-legged, angled intersections into one four-legged intersection. The proposed improvements would convert the side street stop controls at both existing intersections into a single roundabout. In conjunction with the roundabout, design considerations will include pedestrian and bicycle facility improvements as well.

Rural Community Fire Station Improvements

Projects to improve fire stations in North San Juan, and the Town of Washington will enhance emergency preparedness and provide essential community services in these isolated communities. Funding is needed for plan readiness and construction.

Safe Harbor Evacuation Locations

Support funding and opportunities and planning initiatives to identify safe harbor evacuation sites located within the Nevada County for use during emergencies.

South Yuba River Rim Hazardous Fuels Reduction Project

The project is a landscape-scale shaded fuel reduction area on the San Juan Ridge that will stretch from Bridgeport to Malakoff Diggins State Park, knitting together several key existing projects into a contiguous zone of protection. It will result in approximately 800 acres of new treatment, directly protecting 176 habitable at-risk structures in the project area and ultimately reducing risk for four communities and the economically vulnerable zone in Grass Valley.

Truckee Library **\$25 million**

Advocate for funding to construct a spacious 21st century library to serve the Truckee/Martis Valley Region in partnership with community stakeholders.

Western Nevada County Improved Green Waste Disposal **\$2.5 million**

Purchasing an identified site on La Barr Meadows Road to construct a green waste grinding facility which will allow for reuse of wood chips by locals and/or in co-generation plants, supporting emergency preparedness and resilience.

Woodpecker Ravine Hazardous Fuels Reduction Project

Sandwiched between the City of Grass Valley to the northwest and the densely populated community of Alta Sierra to the southwest, Woodpecker Ravine is particularly vulnerable to wildfire due to its steep topography, heavily overgrown landscape, and proximity to neighborhoods. This project will implement hazardous fuel reduction on 1,390 acres within Woodpecker Ravine Fuel Modification Zone, prioritizing evacuation routes, critical infrastructure, and ridges.

2023 Board Objectives

Fiscal Stability and Core Services

Maintain the County's financial stability and core services.

Emergency Preparedness

Lead the community in all hazards planning, preparedness, response, and recovery with a focus on wildfire. Do this by focusing on improving countywide evacuation routes and safety, continuing to strengthen early alert and critical communication systems, partnering closely with residents and community partners in emergency preparedness, defensible space, home hardening, green waste disposal, and fire-safe land stewardship.

Economic Development

Promote economic development by emphasizing resiliency and entrepreneurship; retaining and attracting high quality jobs; investing in major infrastructure projects; and working with local, state and federal partners to support our small business, nonprofit, and tourism sectors.

Broadband

Equitably expand broadband to support economic development, distance-learning, telework, telemedicine, and general quality of life for all residents by championing the implementation of Nevada County Broadband Strategy Plan policies and last-mile infrastructure projects.

Climate Resilience

Safeguard Nevada County's economic durability, environmental integrity, and public health and safety by preparing for, adapting to, and mitigating changing climate conditions in a way that reflects our rural quality of life.

Housing

Coordinate with local jurisdictions, developers, and other partners to facilitate development of, and access, to affordable and workforce housing.

Homelessness

In partnership with the Continuum of Care, prevent homelessness, address the needs of people experiencing homelessness, and move towards sustainable, ongoing programs.

Recreation

Promote sustainable recreation in partnership with community providers and other jurisdictions to enhance recreational access, support public health and safety, realize economic opportunities and preserve natural resource assets.

Purpose & Use

The Nevada County Board of Supervisors, County Executive Office, and senior executives develop this Legislative Platform on an annual basis in order to prioritize and draw attention to legislative areas of interest to the County as a whole, as well as specific program or specific legislative efforts that affect the County's ability to deliver the best possible services to our residents.

The County Executive Office leads the effort to identify and assess the priorities, funding requests and initiatives described here by engaging the senior executive team, our contracted and organization-based legislative advocates, as well as the Board of Supervisors at their annual workshop, where the Board of Supervisors sets the Board Objectives for each year. Input is also solicited from the appointed and elected department heads regarding program specific issues as well as alignment with County planning documents such as the Capitol Facilities Plan, Health and Human Services Strategic Plan, etc. In addition, input is solicited from jurisdictional partners including the City of Grass Valley, the City of Nevada City, the Town of Truckee, the Nevada Irrigation District, and the Nevada County Superintendent of Schools. This document is shared with our contracted legislative advocacy firm, Shaw Yoder Antwih Schmelzer & Lange, Inc. and Paragon Government Relations, Inc. as well as the public on the County's website. It is used throughout the year by the

Board of Supervisors, County Executive Office and Department Heads to assess legislative issues as they arise and determine if advocacy on a particular issue is in alignment with the County's Legislative Platform.
