MOTION: Motion made by Supervisor Bullock, seconded by Supervisor Scofield, to approve the consent calendar, less Agenda Item #20. On a roll call vote the motion passed unanimously.

Item removed from the Consent Calendar:

Individual Board Member Item: Susan Hoek, Supervisor, District IV

20. [SR 21-0431](#) Resolution urging California Governor Newsom to use his administrative authority to adopt the Department of Labor's federal weekly work standard of 48 hours for herders in California. (Pulled from consent by Supervisor Hall.)
Enactment No: RES 21-198

ACTION TAKEN: Supervisor Hall explained that she pulled the item from the consent calendar due to concerns regarding the wages that are proposed and why Nevada County was weighing in on the issue. Supervisor Hoek responded that there are at least six individuals in Nevada County that herd sheep and/or goats. She explained that their food, housing, and travel to and from the Country is provided by the owners of the farms, as many come from out of the country to provide their services. The herders make more money than they do in their countries of origin.

Chris de Nijs, Agricultural Commissioner, reported that the purpose is to request Governor Newsom use his authority to follow the federal work standards for herders, which provides for a 48 hour per week work schedule.

Daniel Macon, Livestock and Natural Resources Advisor with U.C. Davis Cooperative Extension for Placer, Nevada, Sutter and Yuba Counties, and the County Director for Placer and Nevada, explained that under federal and state regulations there are special provisions in the labor laws that provide for individuals working as a goat and/or sheep herder to be under special consideration as this requires a different level of care than other livestock. In order to be covered by those provisions, herders are required to work 24 hour/7 days a week; therefore California herders are considered to be working a 168 hour work week while other States have a 48 hour work week. Income is pegged to each state's minimum wage; currently in California that is \$2,300 per month, with housing, food, and transportation also provided by the employer. Under the law that changed overtime requirements for agricultural workers in California, employers have to pay overtime, which would increase the wage to \$4,300 per month in addition to housing, food, and transportation that is provided. Sheep and goats are now used for fuels management by municipal agencies or utility companies, and herders are required to be on site 24/7.

Board questioning and discussion ensued. Chair Miller provided an opportunity for public comment and Brad Fowler, District II, provided comments. There being no further public comment, Chair Miller closed public comment.

MOTION: Motion made by Supervisor Hoek, seconded by Supervisor Scofield, to adopt Resolution 21-198. On a roll call vote the motion passed unanimously.

Adopted.

Enactment No: RES 21-199

ACTION TAKEN: Steve Monaghan, Chief Information Officer, reviewed the staff report regarding the \$50,000 grant from the California Emerging Technology Fund (CETF). The County's Broadband Team has set a goal to make Nevada County the most attractive and best place for internet service providers to build out last-mile broadband connections. Their plan is to create a toolkit that will make it easy for the providers to understand how to get projects approved in Nevada County. A major component of that plan will be to clarify the California Environmental Quality Act (CEQA) process, which can be difficult for some of the providers. To address this and other hurdles the Team will write FAQ's, develop forms, templates, and a programmatic Environmental Impact Report (EIR) that will help providers complete some of the pre-environmental work that will be required to get their projects approved. CETF is excited about Nevada County's proposal and is providing the grant to enable the project to move forward. He recommended the Board pass the Resolution accepting the \$50,000.
