January 22, 2015

Honorable Board of Supervisors  
Eric Rood Administrative Center  
950 Maidu Avenue  
Nevada City, California 95959

**DATE OF MEETING:** February 10, 2015

**SUBJECT:** Resolution approving execution of the renewal Subrecipient Agreement Number 9903-5320-71209-15 with the California Family Health Council (CFHC) related to funding comprehensive reproductive health services in the maximum amount of \$89,250 for the term of January 1, 2015 through December 31, 2015.

**RECOMMENDATION:** Approve the attached Resolution.

**FUNDING:** In 1970, Congress enacted Title X (Ten) of the Public Health Service Act dedicated to funding family planning and related reproductive health care services. In 1982, California Family Health Council, Inc. became the federally designated fiscal intermediary for Federal Title X funds in California. The Title X monies are then passed through this designated fiscal agent for statewide distribution. The maximum amount payable from CFHC under this Agreement is \$89,250 for calendar year 2015. The funding received from California Family Health Council helps to conserve Public Health's Realignment contribution to the program. Receipt of funding was anticipated, and there are no county general fund dollars required in this Agreement.

**BACKGROUND:** Attached please find the annual renewal Title X comprehensive sexual and reproductive health and family planning program Agreement. The program is designed to improve access to quality healthcare and to provide community-based outreach and education pertaining to reproductive health. Managers and Medical Specialists in the County's Program oversee the implementation, program quality, and regulatory compliance of service delivery. The Title X funds allows for the outreach and partnering with other community partners for educational presentations and referrals related to reproductive health and for clinical services at the County's Truckee Clinic. As there is a reduced number of other providers in the Eastern Region able to offer these services, there continues to be a high demand for these services at the County Clinic. The services providing include:

- Providing STD testing and educational services to decrease the transmission rates of Chlamydia and other sexually transmitted diseases;

- Providing pelvic exams, PAP tests, and breast exams to assist in the early detection of cancer and/or other reproductive health conditions;
- Providing referrals for clients who need further health or mental health services;
- Providing reproductive health education and basic contraceptive services so women are less likely to have an unintended pregnancy.
- Identification and referrals for patients with the following problems: high blood pressure, HIV positive, domestic violence and substance using/abusing including smoking.

It is recommended that the Board approve this Agreement as it renews an important source of funding to help sustain program services.

Please contact me if any additional information is required.

Respectfully submitted,

Jill Blake, MPA  
Interim Director of Public Health
