To whom it may concern.

I am a local resident and business owner in Nevada City. I wanted to thank you for independent economic study for the Idaho Maryland mind.

Many if not all local citizens I've talked to have been very stressed about the county selling out and allowing a greedy corporation to destroy our homeland for profit. We believe this mine will have little to no benefit to most and leave the land, air, and waters polluted for all future generations to come.

Our health, our home, our future is priceless and should not be sold to anyone at any cost. Please continue to do the right thing for us all.

Thank you,

Ariel Wolansky

Do Not Approve THE IDAHO-MARYLAND MINE: A PROUD HISTORY, A BRIGHTER FUTURE

The Idaho-Maryland Mine was once one of America's greatest gold mines, helping to grow Nevada County and protect the local economy during even the toughest days of the Great Depression. From 1866 and 1954, the mine produced roughly 20 million ounces. It was forced to close due to a federal gold price fix.

Today, Nevada County is struggling to build a strong economy, and Rise Grass Valley's plan for the Idaho-Maryland Mine offers a bright future to families who want to deepen their roots in Nevada County.

Please fill out and send back to us your support for the Idaho-Maryland Mine

I support re-opening the Idaho-Maryland Mine

Nevada County is in tremendous need of new, well-paying jobs that can help provide a strong economic future for today and for decades to come. Rise Grass Valley's plan to build a modern and environmentally sensitive mine that respects neighbors and our natural environment while creating over 600 new local jobs is a once-in-a-generation opportunity to revitalize our local economy.

Re-opening the mine means over 300 new employees in safe and satisfying careers with an average expected annual salary of more than \$90,000 plus benefits. The mine will also spur an additional 300 jobs through related new business in the area. This project will enhance the pride and confidence of Nevada County workers and their families and help build stable and prosperous lives.

Opportunities like this come along rarely. Rise Grass Valley has a responsible, innovative project for Nevada County. I urge the Board of Supervisors and other county officials to jump start our local economy by strongly supporting the re-opening of the Idaho-Maryland Mine.

Rise Grass Valley will employ best practices for underground mine safety and use state-of-the-art mechanization and technology to create a safe workplace environment. Rise Grass Valley will also bolster community public safety resources by making fully trained and equipped emergency service teams available to respond to emergency situations in the surrounding region as needed.
