Subject: In-Person Meetings of the Board of Supervisors
Date: Saturday, August 8, 2020 3:19:59 PM

CAUTION: This email originated from outside of County of Nevada email system. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I am writing to urge the Supervisors to resume meeting in person with at least some in-person public participation. Most counties have been doing that for quite some time. You should join them for the upcoming August 11 meeting.

As someone who nearly died from the corona virus, I can certainly understand the fear that it inspires, especially among those in its most dangerous age range (as was I). However, in seeking and accepting a public office, you undertook an obligation to perform that office to the fullest extent possible. That certainly includes an obligation to appear before the public in person so that you may be questioned and challenged.

The Supervisors should meet in person, with masking and social distancing and with an audience also masked and socially distanced. Any Supervisor who does not feel comfortable with taking such a limited risk in serving his or her constituents should resign from office.

Alfred Jones

Subject: BOS Agenda, 8/11, Item 26
Date: Saturday, August 8, 2020 3:21:43 PM

CAUTION: This email originated from outside of County of Nevada email system. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I am writing to urge the Supervisors to reject the proposed temporary Urgency Ordinance setting high fines for private businesses that do not comply with any COVID-19 Order.

Our local businesses have now labored for nearly five months under these COVID-19 Orders. No one would ever start a business under these conditions. Our existing businesses struggle to stay alive, hoping (apparently against all hope, if current trends continue) that they will be allowed to resume operations in a way that can be profitable before they fail completely.

There is no reason to add to their misery with a pile-on ordinance placing confiscatory fines on top of all the other burdens they now face. Let the county and the state enforce all the existing COVID-19 Orders. Do not add yet a greater burden to our struggling local economy.

Dear Supervisors Hall, Scofield, Miller, Hoek and Anderson:

I am writing to strongly oppose Item 26, the temporary Urgency Ordinance related to enforcement of COVID-related. Please do not fine the citizens of our county for not bowing to this COVID insanity.

Let our businesses open again without unnecessary restrictions, such as masks, gloves, etc.

Sincerely,
janet White

Date: Saturday, August 8, 2020 3:43:35 PM

CAUTION: This email originated from outside of County of Nevada email system. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I am requesting that you consider that some of us in this community have medical conditions that make wearing of a mask a health risk. My medical training, Dr Fauci and research old and new prove that how we are wearing masks are ineffective. What matters, as we all demonstrate madness, is to look at the number of deaths!!

We have had one in this county at the very beginning. Our hospital is not impacted with ICU Covid patients. We have been functioning since lock down without these crazy orders in this safe, local community that I love.

We cannot compare ourselves to Los Angeles, San Francisco. This virus has to pass through the people. I guess those that support this controlling measure want to wear ineffective masks for the rest of their lives. Not on my timeline.

I VOTE NO!!

Kathy Grimes

Please VOTE "NO" ON SR-3359 (COVID Ordinance)

Don't hurt our local businesses anymore then they already are! And there are mask exemptions for customers that need to be allowed.

From Gov Newsom's ABC News Covid update of 7/28 –

“In closing, I can't mandate anything I can only help influence”

https://m.facebook.com/story.php?story_fbid=3049367341767314&id=100000822346153

So if it's not a mandate we should not be penalizing our local businesses.

Thank you,

Sheri Fogarty

No matter how well intentioned this ordinance seems, it will have unintended side effects that will irreparably harm the communities of Nevada County, and destroy the appeal and character that has drawn many of us to visit and relocate here.

We should not be letting the unprecedented testing for and sensationalizing of this virus fool us into taking steps that we will regret and that cannot be undone. Small local businesses give our community an appeal that supports our property values and attracts tourism.

Take a stand for the future of our community and VOTE "NO" ON SR-3359 (COVID Ordinance).

To whom it may concern.

I am not in favor the SR_3359 ordinance and ask that you vote NO on the behalf of the county and public.

Thank you,
Melanie Giffen

(1) According to CA law, "A local health emergency can only be called if there is an **IMMINENT** and **PROXIMATE THREAT** of an **INTRODUCTION** of a n infectious disease." In other words, an emergency is immediate, at hand -- not 3+ months **LATER!** The "introduction" of the disease was back in February. There are **NO LEGAL GROUNDS** for this unlawful "local health emergency" to continue.

(2) Your governing body has the **LEGAL** authority, power and **DUTY** to terminate this "local health emergency" **IMMEDIATELY** -- and all the orders that are associated with it go away.

(3) The health orders state that "there is no vaccine for Covid-19." That is **NOT** legal grounds for a local health emergency. This is **DECEIT** and **FRAUD**.

(4) Are you personally prepared to go to prison for **FRAUD** by allowing this unlawful local health emergency to stand? Are you aware that fraud is a felony that carries a prison sentence?

(5) You are aware that you **EACH** are **COMPLICIT** in fraud by **INTENTIONALLY MISREPRESENTING THE INFORMATION** about this "local health emergency" for monetary gain? In other words, you are allowing this "local health emergency" to stand in order to get state and federal funds. This is **FRAUD**, which is a **FELONY**, and which carries a **PRISON SENTENCE**.

(6) Are you aware that **YOU** have the power, authority and legal duty to make a motion for a vote to terminate this unlawful "local health emergency" **TODAY?**

(7) Are you aware that there are **NO LEGAL GROUNDS** for a "local health emergency" according to state law?

(8) Why are you breaking state, federal and local laws by allowing the continuance of this local health emergency, which violates state law?

(9) What evidence (as required by state law) have the health officers submitted to you that supports their orders?

(10) Are you aware that OSHA guidance states that "cloth masks do not protect against COVID-19"?

(11) You already are aware that there is no reputable medical science and evidence that supports healthy people wearing masks, so why do you support this?

(12) Why are you PERPETRATING FRAUD ON THE PUBLIC by allowing a local health emergency to continue when there are no grounds to do so?

(13) Would you explain how my RELIGIOUS BELIEFS protect me (or not) from having to wear a mask?

(14) Can you tell me why you SUPPORT the public being HARASSED and INTIMIDATED in places of business, when our state civil code protects me from discrimination based on my medical condition, and allows for my "free and equal" access to all business establishments of any kind, whatsoever?

(15) Why have you given away your authority by allowing the health officers to defy your requests for information?

(16) Why do you continue to put the ELECTORATE at EXTREME PERIL of health risks and DEATH, as testified by countless licensed physicians, associated with wearing masks?

(17) Are you prepared for LEGAL ACTION AGAINST YOU PERSONALLY for your FRAUDULENT actions (a felony, with a prison sentence) by not terminating the local health emergency, as required by law?

(18) Why do you CONDONE DISCRIMINATION against those with medical conditions, who cannot hear people who are wearing a mask?

(19) Why do you condone and support the masking of the public, going against all evidence presented to you by competent medical doctors and mental health professionals, who testify of the psychological and physical trauma these masks create?

(20) How much money is your body/agency receiving from the state and federal government in emergency aid?

(21) When and where do YOU PERSONALLY WEAR A MASK and is it a sterile and hygienic mask that is kept clean and disposed of between each interaction, and put on and removed after washing your hands, according to CDC guidelines?

(22) Are you prepared to FACE A PRISON SENTENCE FOR FRAUD, by intentionally misrepresenting the "local health emergency" just so you can get state and federal funds?

(23) Are you aware that UNLESS YOU TERMINATE this unlawful "local health emergency" -- the public is moving ahead with a very VISIBLE LAWSUIT and all the media to go along with it?

(24) You INACTION has ERODED the public TRUST. And there is an election right around the corner. Why would we elect you to office?

(25) You are aware that YOU WORK FOR THE PUBLIC, and THE PUBLIC DEMANDS YOU TERMINATE this "local health emergency" by VOTE today!

Dear Board of Supervisors & other Public Officials,
Heidi Hall District 1 County Supervisor <heidi.hall@co.nevada.ca.us>, Ed Scofield District 2 County Supervisor <ed.scofield@co.nevada.ca.us>, Dan Miller District 3 County Supervisor <dan.miller@co.nevada.ca.us>, Sue Hoek District 4 County Supervisor <sue.hoek@co.nevada.ca.us>, Richard Anderson District 5 County Supervisor <richard.anderson@co.nevada.ca.us>, "Amy Irani Environmental Health Dept. Director - COVID-19 Business Compliance Lead" <env.health@co.nevada.ca.us>, "Dr. Richard Johnson" <health.officer@co.nevada.ca.us>, Jill Blake Public Health Director <public.health@co.nevada.ca.us>, "bos.publiccomment@co.nevada.ca.us" <bos.publiccomment@co.nevada.ca.us>, "kim.blix@co.nevada.ca.us" <kim.blix@co.nevada.ca.us>

First of all, I want to remind you all that you are PUBLIC SERVANTS of the citizens of Nevada County. That means you are in your position to serve the citizens, NOT to control them.

What is the purpose of all government? See second paragraph of The Declaration of Independence:

....."That to secure these [God given, unalienable] rights, Governments are instituted among men, deriving their just powers from the consent of the governed."

What are "We The People" supposed to do when we are not happy with our government officials because they are not securing and protecting our unalienable rights? Continue reading in the same paragraph of The Declaration of Independence."

----"That whenever any form of Government becomes destructive to these ends, it is the Right of the People to alter or to abolish it, and to institute new government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem to them most likely to effect their Safety and Happiness."

The time has come for YOU, ALL OF YOU, to be accountable for your actions and decisions. I have already written you previously that YOU ARE IN VIOLATION OF YOUR OATH OF ALLEGIANCE. This is grounds for removal. You are not serving THE PEOPLE, i.e., you are NOT protecting our God-given, unalienable rights.

CHANGE YOUR COURSE OF ACTION NOW!

(1) According to CA law, "A local health emergency can ONLY be called if there is an IMMEDIATE and PROXIMATE THREAT of an INTRODUCTION of an infectious disease." In

other words, an emergency is immediate, at hand -- not 4+ months LATER! The "introduction" of the disease was back in February. There are NO LEGAL GROUNDS for this unlawful "local health emergency" to continue. Even the heavily manipulated numbers of deaths, active cases, and resolved cases DO NOT SUPPORT A LOCAL HEALTH EMERGENCY!

(2) Your governing body has the LEGAL authority, power and DUTY to terminate this "pretend local health emergency" IMMEDIATELY -- and ALL THE ORDERS that are associated with it, to go away.

(3) The health orders state that "there is no vaccine for Covid-19." That is NOT legal grounds for a local health emergency. This is DECEIT and FRAUD.

(4) By now you should be aware that OSHA guidance states that "cloth masks do not protect against COVID-19." There is also no reputable medical science and evidence that supports healthy people wearing masks. Why are you supporting mask wearing?

(5) You are DIVIDING our community and SUPPORTING the public to be HARASSED and INTIMIDATED in places of businesses, even though California Civil Code 51(b) protects us from discrimination based on our medical conditions or religious beliefs and allows for our "free and equal" access to all business establishments of any kind, whatsoever.

(6) Your actions have and continue to cause small businesses to close, individuals and small businesses to be continually harassed and intimidated, and there has been at least one suicide. All because of YOUR ACTIONS. AREN'T YOU PROUD OF YOURSELVES? How do you sleep at night? Where is your moral compass?

"Our Constitution was made only for a moral and religious people. It is wholly inadequate for the government of any other."

- John Adams

"Of all the dispositions and habits which lead to political prosperity, Religion and Morality are indispensable supports."

- George Washington (Farewell Address, 1796)

Proverbs 29:2 "When the righteous are in authority, the people rejoice: but when the wicked beareth rule, the people mourn."

(7) Are you prepared for LEGAL ACTION AGAINST YOU PERSONALLY for your FRAUDULENT actions (a felony, with a prison sentence) by not terminating the local health emergency, **as required by law?**

(8) Nevada County has received or will receive \$10 Million from the state and federal government in emergency aid. It appears that money dictates your decisions, not principals. It appears you are willing to make Nevada County citizens slaves to mask wearing so that YOU can get the \$10 million for purposes the citizens DO NOT WANT, and DO NOT NEED. You all need to go to prison!

(9) Your INACTION has ERODED the public TRUST, and there is an election right around the corner. I think you all know what that means.....

(10) You have been reminded that YOU WORK FOR THE PUBLIC, and THE PUBLIC DEMANDS YOU TERMINATE this "pretend local health emergency" by a VOTE today!

(11) With all that being said, YOU HAVE NO BASIS TO PASS SR 20-3359, continuing to make individual citizens slaves to mask-wearing and ruining more small businesses. There IS NO EMERGENCY!!!

Instead, vote to end the "pretend local health emergency" and end all this nonsense immediately!

Susan Frisbie

"Those who would give up essential liberty to purchase a little temporary safety deserve neither liberty or safety." - Benjamin Franklin

To whom it may concern,

I am writing to you as a concerned citizen of Truckee CA.

It has come to my attention that you plan to conduct a vote this Tuesday without public input, or in a public forum of any kind whether via an open Zoom type virtual meeting or with actual public attendance with proper distancing and masking, that will gravely effect many businesses in our community.

First of all, the fact that you plan to make such a decision on Item 26 without public input is appalling. How do you plan to ascertain public input if you don't allow public comment. How are you representing your constituents if you don't allow them input?

Please email me back and let me know if you really plan to make decisions that will be devastating to the livelihoods of our town members in a secretive, back room, closed door session. You know and we all know this is not right.

Dear Supervisors Hall, Scofield, Miller, Hoek, and Anderson:

The proposed temporary Emergency Ordinance related to enforcement of Covid-related issues which is to be discussed at a meeting of the Board of Supervisors on August 11 is of great importance and impact to all members of our community.

I ask that this issue be heard in front of a live community audience so that our residents may be able to express their concerns to you in person. I am certain that an in-person hearing could be arranged which would mitigate the risk of exposure to Covid-19 . . . i.e. limited seating within the chambers, temperature checks prior to entry, a mask requirement, etc. My understanding is that Nevada County is currently the only CA county which is preventing community members from attending live BOS meetings. If this is correct, then I am certain that the methodology for a safe meeting already exists.

Please allow community members to express their concerns IN PERSON on this very important issue to our businesses and individual residents.

Thank you,

Terry McLaughlin
District 1 Resident and homeowner

Subject: Temporary Covid-19 Emergency Ordinance, Item 26
Date: Saturday, August 8, 2020 7:00:40 PM

CAUTION: This email originated from outside of County of Nevada email system. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Supervisors Hall, Scofield, Miller, Hoek, and Anderson:

I am writing to you in opposition to the fairly draconian fines and enforcement being considered in Item 26 of the Covid-19 Emergency Ordinance.

Thankfully, Nevada County has not experienced the dramatic numbers of Covid-19 cases which resulted in serious illness, hospitalization, or deaths, which have occurred in other counties around the country. My understanding is that the recent increase in positive cases experienced within our county was traced primarily to a large weekend party held over the 4th of July weekend, as well as increased testing - not to residents purchasing groceries, dining at restaurants, or getting haircuts.

As I go about my business in Grass Valley or Nevada City, what I am witnessing are residents who, by and large, respect the request or requirement to wear a protective mask and to remain approximately 6 feet apart. Most residents are considerate and patient in their attempt to comply with these precautions. I have also found that every business I have entered has gone to great lengths to ensure safety and cleanliness for its employees and its customers. In this time of distress, both physically and economically, our community must do everything within its power to help our small businesses remain open and viable. We have already seen a number of establishments close, as they have not been able to weather the lack of income and the uncertainty of the times. **WE DO NOT WANT TO SEE ANY MORE BUSINESSES LEAVE OUR COMMUNITY!!** Just yesterday, when leaving the public parking lot on Main Street in Grass Valley, I noted that 3 businesses in a row were shuttered and permanently closed - and that was just on one block. The viability, as well as the vitality of our community depends upon these businesses!

The fines recommended to be imposed upon non-compliant business are designed to quite literally put them out of business. I am not suggesting that a business may remain open while completely ignoring safety and health precautions, but I don't believe that we are witnessing that type of behaviour. Our business owners, whether they be manicurists, grocers, restaurateurs, or dentists, are all doing their best to protect their employees and serve their customers. If an issue of non-compliance is witnessed or reported, educating the business owner on the proper conduct would be in order - but not a \$10,000 fine!

Please do not burden our already struggling business community with the threat of draconian fines or loss of licensing. This divisive measure is in no one's best interest - not the citizens, not the business owners, not the county.

Thank you,

Terry McLaughlin
District 1 property owner

Attachments: [The Science VS.FaceMasks.doc](#)

CAUTION: This email originated from outside of County of Nevada email system. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Actual illness and death rates associated with this COVID "influenza" are less than cases of annual flu. We have never needed to be in a state of emergency causing such hardship and destroying our local economy. Therefore, the County should officially terminate any state of emergency and all mandates, guidelines or requirements not based on verifiable information. Also, it's irresponsible for the Board of Supervisors not to hear both sides of this issue before making decisions that affect us all.

According to the World Health Organization's June 5, 2020, guidance on face mask use, there's no direct evidence that universal masking of healthy people is an effective intervention against respiratory illnesses. While masks do not prevent the spread of viral infections, the WHO still makes a case for universal mask-wearing, citing benefits such as reduced stigmatization of people caring for COVID-19 patients in nonclinical settings, making people feel like they're doing something to help, serving as a reminder to be compliant with other measures, and economic benefits for people who can sew homemade masks. These do not see compelling enough reasons for Nevada County. SARS-CoV-2 is a beta-coronavirus with a diameter between 60 nanometers (nm) and 140 nm, or 0.06 to 0.14 microns (micrometers).² This is about half the size of most viruses, which tend to measure between 0.02 microns to 0.3 microns. Virus-laden saliva or respiratory droplets expelled when talking or coughing measure between 5 and 10 microns, and it is these droplets that surgical masks and respirators can block.

For further extensive information on the scientific findings of the ineffectiveness and health impacts of mask-wearing regarding contagious respiratory illnesses, see the attached file.

Sincerely,

David Adams

Dear Supervisors Hall, Scofield, Miller, Hoek and Anderson:

I am writing to strongly oppose Item 26, the temporary Urgency Ordinance related to enforcement of COVID-related.

You need to treat People as adults and trust that they care deeply about the health of their customers and they know how to protect them. Take some guidance from Gov. Noome of South Dakota. Have faith in your constituents. We are smarter than you think.

I have over 45 years of Clinical and Research laboratory experience and I am licensed by the State of Calif. For me to work in a hospital, I have to undergo extensive training in all aspects of laboratory testing including, yes, how to properly wear and use a mask and eye protection. I worked in a high complexity lab that demanded sterile conditions because we worked with transplant patients that were immune compromised. Bacteria and viruses much less lethal than Sars could kill them. You have absolutely no idea the risk you are putting people in by forcing them to wear a mask without proper education and competency evaluations.

The data tells us, for the most part, Covid 19 overwhelmingly affects older people and those with co-morbid conditions. We all know this, so let this cohort decide for themselves if they would rather stay home and be safe or risk having a good meal with some socializing. Let the rest eat out and enjoy. If they get sick, the risk of death is no greater than the yearly flu. Treat us like the adults we are.

Additional Points:

A smart lawyer, eager to make a name for him/herself, could probably make a good case against those that are demanding mask wearing without adequately offering special training in the use of a proper mask as well as protective eye wear.

Dining-in penalized. On what basis is there a distinction between being a customer in a restaurant and a customer in any business? Why is it ok for a customer to enter a grocery store, a pharmacy, a dry cleaner, a smoke shop, a liquor store, or any other business but not enter a restaurant? In any business, social distancing rules are in effect. The only answer is that one cannot wear a mask while eating or drinking, even if safely spaced from other diners. There are two factors here: fresh air flow and masking.

Outside spaces allow fresh air/breezes to carry away any virus droplets. But some of our restaurants have installed higher rates of fresh air intake and advanced filtration systems into their HVAC systems. Similar as on airplanes. Yet, the one size fits all "COVID-19 Orders" do not recognize these fresh air and filtration measures and refuse to allow dining-in.

To the Board of Supervisors,

Below are some interesting facts from Doctors that I bet you don't know about. Please do not believe me, do the research yourselves! I'd send you the links to hear the words coming out of their mouths, but I know you won't or cannot open them for fear of the virus. (a real virus, not the one being used for profit and control)

1. Dr. Stella Immanuel, out of Houston Texas said she has personally treated over 350 patients with COVID-19 with Hydroxychloroquine (low dose, 200mg twice a week), daily Zinc, and Zithromax!
ALL OF THEM RECOVERED!

2. Montana physician Dr. Annie Bukacek discusses how COVID 19 death certificates are being manipulated. In her brief video (Can be found on Bitchute). Dr. Bukacek blows the whistle on the way the CDC is INSTRUCTING PHYSICIANS to exaggerate COVID 19 deaths on death certificates!

3. Why current treatments work:

Hydroxychloroquine - Releases lysosomal enzymes into cel to digest toxins

Vitamin C- Powerful antioxidant helps reduce damage from toxin-induced oxidative stress (free radicals)

"COVID-19 actually are Exosomes and not a virus that invades your body from the outside, it comes from in your body to help you and it's a reaction to the real cause of illness" - Dr. Andrew Kaufman

4. "We have about 380 TRILLION Viruses in our bodies, it's called a virome. We have about 60 TRILLION Bacteria in our body, and we have about 6 TRILLION Cells." COVID-19 differs from the other flu viruses and that the bay sequences there are very difficult to occur in nature that they were re-combined from other components! The thesis is that the so-called "virus" originated at Fort Detrich."
- Dr. Shiva Ayyadurai MIT Ph.D

5. Do you realize that Pasteur's germ theory has NEVER been proven?! NEVER!?! Shocker, I know!! How about the fact that COVID-19 has NEVER been proven to exist using the Gold Standard of Koch's Postulates!?!? For two centuries, Koch's postulates have set the gold standard for establishing the microbiological etiology of infection and disease.

This is the POWER of PROPAGANDA and the Corporations/Big Pharma who stand to profit and who

own the MEDIA networks!

6. "Fake Problem, Fake Solution" – The Fake problem, "OMG, these viruses are going to kill us!" The real problem is we have immune-compromised people, it's the TERRAIN! The Real Solution is "How do we beef up the immune health of people." Well, that means we have to attack corruption because these lawyer lobbyist politicians are the ones who've destroyed our air, water, and food! They don't want to talk about that, they'd rather move this thing to a "Boogie Man Virus" to control you, quarantine you, and vaccinate you! That's where we're headed!

Here's a couple of rhetorical questions for you: Where are all of the Bio Hazard bins for all of the used masks and gloves??? And, if this is such a deadly disease why does everyone have to be tested to find it???

People are SO easily fooled.

"It's easier to fool people than to convince them they're being fooled." - Mark Twain

Who cares that Nevada County has hundreds of people who have tested positive?!? It means nothing! A half an hour later these same people could and have tested negative! The creator of the PCR test, Kary Mullis, who won a Nobel prize in chemistry for it, said that his test should not be used to diagnose viruses — and yet we are destroying billions of lives all over this planet over this test. Kary Mullis died last fall or he would surely be speaking out.

If a Nobel Prize winner believed his test was inaccurate and unreliable for the purpose of diagnosing viruses, so why do you trust the test???

"Stop thinking that the mask-wearing is temporary, that if we all cooperate we'll get to go back to normal. There's no going back to normal. Our government is in the process of destroying our lives, for good!

If we all refuse to cooperate, we could end this stupidity NOW! Stop cooperating! Stop Complying!

And STOP saying, "It's just a mask. Stop saying, "Why are you getting so upset over a silly mask?"

It's not just a mask! Millions have lost their jobs, thousands and thousands of businesses around the country are closed, for good! Our economy is being decimated while Big Corp and Big Banks get richer. Our children will never get to live lives as children. Our loved ones have to suffer and die alone in hospitals and nursing homes! Speaking of MILLIONS, give it all back, it's a bribe!

And, it's not just a mask. It's a hellish, evil system, and we/you, the Board of Supervisors must stop this insanity!

Dr. Russell Blaylock warns that not only do face masks fail to protect the healthy from getting sick, but they also create serious health risks to the wearer. The bottom line is that if you are not sick, you should not wear a face mask.

Stop believing your television, they're lying, they're fooling you! They're leading you on a path that you don't want to go on, that I don't want to go on, that none of us want to go on.

There soon will be no return.

Stop trusting these sociopaths!

Sincerely,

Leah Fahrenheit

Dear Elected Representatives,

This tyranny needs to stop!

I very strongly believe that "The Virus" is far, far less of a threat to humanity than the MEDIA and the EXTREME Left would like all to believe. **The FACTS do not support the hysteria.**

For me this has NOTHING to do with the current President! **MY RIGHT TO SURVIVE AND BREATHE IS UNDER ATTACK!!**

We could solve this entire problem RIGHT NOW by doing one simple thing: STOP THE SHUT DOWN!

Those who are scared or at high risk could take whatever precautions they wish to make themselves feel "safe" while the rest of us GET BACK TO BUSINESS.

The idea that millions and millions of people need to have their lives, jobs, social activities, relationships, and businesses disrupted or destroyed under the guise of "compassion" or "safety" is absolute **INSANITY!!!**

The miniscule percent of actual fatalities from "The Virus" does not justify the socio-economic devastation to our Nation!

BE ON THE SIDE OF FREEDOM! BE AMERICANS!

VOTE NO ON SR-3359!

R. K. Davis,
Registered Voter of Nevada County

Dear Supervisors Hall, Scofield, Miller, Hoek and Anderson:

Hiding from constituents and 'ruling' from the basement is not the way to govern. Open up your meetings to the public, ...you know, the thing...the thing where the public can weigh in on this 'scam'demic. Remember, you're 'elected' not anointed, you're here to 'serve' the people. I thought county supervisors were supposed to be one of us, but it appears you are 'them' by taking the side of the fascist governor.

I am writing to strongly oppose Item 26, the temporary Urgency Ordinance related to enforcement of businesses that I may add pays your salary.

Date: August 8th, 2020

Subject: VOTE "NO" ON SR-3359 (COVID Ordinance)

To the Board of Supervisors,

First and foremost, I want to remind you all that you are PUBLIC SERVANTS of the citizens of Nevada County. That means you were elected to serve the citizens, NOT to control them, destroy their livelihoods, fine or harass them! You are public servants, not dictators.

You have no basis for supporting SR-3359.

"CDC admitted they screwed up COVID19 infection counts. It misled the public and apologized, clarifying that the amount of people truly infected is much lower than what was originally reported. The erroneous assertions by the CDC were so egregious that the director of the Harvard Global Health Institute said "how could the CDC make this mistake? This is a mess."

The American Coronavirus Task Force also admitted to fudging the National COVID19 death count when Dr. Birx said the deaths are people who died "**with**" COVID19 not "**from**" COVID19, thus making the real death count much lower than what is currently being reported.

Dr. Anthony Fauci admitted masks won't help against the virus and, in order to avoid future lawsuits, **mask manufacturers are now including warnings that their products do not deter COVID19.**

Fauci also said that continuing to close the country could cause irreparable damage.

CDC backtracked their initial claim that led governors to shutdown their states & clarified that COVID19 does not spread easily on surfaces.

The original emergency measures were enacted in order to prevent hospitals from being overrun by covid patients that never materialized. The curve was flattened. The CDC, WHO, Dr. Fauci, our governors, and many more were completely wrong about the potential threat of this virus. There is no reason to continue draconian emergency measures based on the same erroneous fear of what "might" happen thinking that prompted the initial emergency measure debacle. We didn't have the data then. We do now. **It's over.**

Governor Newsom himself has said, "I cannot Mandate anything!" So why is it that you all

think you can? Governor Newsom's so called mandates are illegal and unenforceable, as is Sean Powers Ordinance SR 20-3359!

(1) According to CA law, "A local health emergency can only be called if there is an **IMMINENT** and **PROXIMATE THREAT** of an **INTRODUCTION** of an infectious disease." In other words, an emergency is immediate, at hand -- not 3+ months **LATER!** The "introduction" of the disease was back in February. There are **NO LEGAL GROUNDS** for this unlawful "local health emergency" to continue.

(2) Your governing body has the legal authority, power and **DUTY** to terminate this "local health emergency" **IMMEDIATELY**.

(3) The health orders state that "there is no vaccine for Covid-19." That is **NOT** legal grounds for a local health emergency. This is **DECEIT** and **FRAUD**.

(4) You are **EACH** are **COMPLICIT** in fraud by **INTENTIONALLY MISREPRESENTING THE INFORMATION** about this "local health emergency" for monetary gain? In other words, you are allowing this "local health emergency" to stand in order to get state and federal funds. This is **FRAUD**, which is a **FELONY**, and which carries a **PRISON SENTENCE**.

(5) Are you personally prepared to go to prison for FRAUD by allowing this unlawful local health emergency to stand? Are you aware that fraud is a felony that carries a prison sentence?

(6) There are **NO LEGAL GROUNDS** for "Ordinance SR 20-3359" according to state law.

(7) What evidence (as required by state law) has the health officers submitted to you that supports their orders?

(8) Are you aware that OSHA guidance states that "cloth masks do not protect against COVID-19?"

(9) You are already are aware that there is no reputable medical science and evidence that supports healthy people wearing masks. In fact, evidence presented to you, as testified by competent medical doctors and mental health professionals, points out **the psychological and physical trauma** these masks create.

(10) Can you tell me why you **SUPPORT** the public being harassed and intimidated in places of business, when our state civil code protects citizens from discrimination and allows for "free and equal" access to all business establishments of any kind, whatsoever?

(11) Why have you given away your authority by allowing the health officers to defy your requests for information?

(12) Are you prepared to **FACE A PRISON SENTENCE FOR FRAUD**, by intentionally misrepresenting the "Ordinance SR 20-3359" just so you can get state and federal funds?

(13) **UNLESS YOU TERMINATE** this unlawful "Ordinance SR 20-3359" the public is moving ahead with a very visible **LAWSUIT?**

I demand that you reopen businesses, churches, and homes immediately.

The emergency measures that were based on erroneous and possibly fraudulent information have already:

- Added nearly 6 trillion to national debt
- Laid-off or furloughed 50 million workers
- Placed 60 million on food stamps
- Gone from 3.5%to 14.7% unemployment
- Crippled the petroleum industry
- Ruined the tourism industry
- Bankrupted the service industry
- Caused an impending meat and protein crisis
- Threatened, fined, and arrested church leaders
- Exacerbated mental health problems
- Shut down schools and colleges
- Given unbridled power to unelected officials
- Increased suicides
- Delayed surgeries and treatments for profound illnesses
- Infringed upon countless important civil liberties
- Placed 300 million Americans on house arrest
- Irreparably damaged families, friendships, communities and society

If you continue to perpetrate the harm that is being done, you, personally, will be held legally responsible.

Respectfully,

William Nolan

I oppose item 26 (Urgency Ordinance) on the agenda for the upcoming BOS meeting on Tuesday, August 11.

Masks are fine but not everyone should be required to wear them and people should have breaks when they do. Not wearing masks is a compassionate act because it is unhealthy to wear them constantly. We are teaching fear and separation rather than what is true, connection and unity. We need people empowered about their health and safety. We do not need to feed more beliefs that our health is more dependent on other people and what they do than on what we do. True power comes from choice. True power comes from within.

To the Nevada County Board of Supervisors:

I urge you to vote "No" on Item 26 (SR20-3359). This ordinance is unnecessary and unfair to our local businesses. Our county is not even on the covid watch list, which would require stage 3 businesses to close. If other stage 3 businesses and churches are allowed to be open, restaurants should also be included. This is especially so for those who have taken measures on their own, unsupported by the state or federal government, to assure the cleanliness of their facilities, even assuring excellent air quality through installing a UV air scrubber. This arbitrary ruling penalizes those who have taken every measure to assure safety in accordance with the previous guidelines. We have already seen businesses go under in our town. Please stand up to protect our businesses and our community! We are at risk of more than catching a virus if we lose the well-being of our community as a result of arbitrary rulings unrelated to the reality of our local situation and needs.

Thank you standing up for Nevada County!

I am writing to urge your NO vote on Item 26, the temporary Urgency Ordinance related to enforcement of COVID-related.

The proposed fines are extraordinary and are excessive for what would be classified as misdemeanors.

County and State government agencies, particularly Health and Environment departments, have not provided scientific evidence of epidemic.

It is not appropriate nor advisable to assign county staff to "enforcement officer" roles.

Dear Supervisors Hall, Scofield, Miller, Hoek and Anderson:

I am writing to strongly oppose Item 26, the temporary Urgency Ordinance related to enforcement of COVID-related.

Restaurants that serve diners outside will be able to do so for only about two more months. Then, rains and cold weather will curtail business to a trickle, so by October ALL restaurants will be out of business. Take-out cannot sustain a restaurant at a profit in most cases. So, a business must choose whether to go bankrupt because their business is shuttered by the government or to go bankrupt for trying to perform their normal business. Like telling someone they are sentenced to die—here is a gun. You can kill yourself or we will do it. Don't tell me that is not draconian!

The ordinance turns business owners into police by placing the burden on them to assure customers follow mask and other COVID-19 orders.

Dining-in penalized. On what basis is there a distinction between being a customer in a restaurant and a customer in any business? Why is it ok for a customer to enter a grocery store, a pharmacy, a dry cleaner, a smoke shop, a liquor store, or any other business but not enter a restaurant? In any business, social distancing rules are in effect. The only answer is that one cannot wear a mask while eating or drinking, even if safely spaced from other diners. There are two factors here: fresh air flow and masking.

Outside spaces allow fresh air/breezes to carry away any virus droplets. But some of our restaurants have installed higher rates of fresh air intake and advanced filtration systems into their HVAC systems. Similar as on airplanes. Yet, the one size fits all "COVID-19 Orders" do not recognize these fresh air and filtration measures and refuse to allow dining-in.

Cotton or paper surgical masks are not effective in controlling a virus. These masks cannot stop a virus as their particle size are small enough to fit through the holes in the fabric or simply escape via the open edges of such loosely-worn masks. So, most of this draconian enforcement is based on invalid science. Here are the facts: A report from the CDC in May, 2020 evaluated different Personal Protective Measures (PPE) in limiting the spread of COVID. Hand hygiene was identified as effective, but regarding disposable medical masks and cotton masks it concludes "there is limited evidence for their effectiveness in preventing influenza virus transmission either when worn by the infected person for source control or when worn by uninfected persons to reduce exposure."

https://wwwnc.cdc.gov/eid/article/26/5/19-0994_article

An article published in the New England Journal of Medicine on April 1, 2020 on the topic of COVID-19 stated that "We know that wearing a mask outside health care facilities offers little, if any protection from infection." And goes on to say "the desire for widespread masking is a reflexive reaction to anxiety over the pandemic." The article was subsequently amended on June 3, 2020 to include the statement "We strongly support the calls of public health agencies for all people to wear masks when circumstances compel them to be within 6 ft. of others for sustained periods." Thus, spacing OR masking is adequate while neither is necessary for short interactions.

<https://www.nejm.org/doi/full/10.1056/NEJMp2006372>

The use of N95 respirators (unlike a cloth or surgical mask, a respirator is fitted to the face with an airtight seal) are not effective in stopping a virus. Quoting from a manufacturer of such masks: "Oil and fat-based particulates are

very small and “slippery” for lack of a better term. They are often capable of penetrating filters that non-oil particulates cannot, even when those particulates are small. These include everything from certain hazardous chemicals to viruses like SARS, which has a lipid (fat) shell around it.” The letter “N” means Not resistant to oil-based particulates. Thus if N95 respirators cannot stop a SARS virus then loose fitting cotton or paper masks cannot. (COVID is also referred to as SARS 2)

Further on masks, there is significant controversy among health experts around the world on the effectiveness of masks. Many European countries do not require masks, and their death rates are low. Refer to this article for some perspective: <https://fee.org/articles/europes-top-health-officials-say-masks-arent-helpful-in-beating-covid-19/>

Dine-in restaurants have reduced the seating capacity to create safe spacing between tables and diners not in one party. That spacing is adequate protection without the need for continuous masking while dining-in.

Our county’s recent increase in COVID cases cannot be traced to dining-in. It can be directly traced to some large weekend rave parties illegally held within the county over the 4th of July weekend.

The Governor is applying a one-size-fits-all approach rather than allowing each county to assess the situation and apply appropriate measures.

Punishing the County’s restaurants punishes the county’s citizens and ability to provide County services. Sales tax revenues have plummeted.

The Governor’s order to wear masks in all businesses has already activated the “Face Mask Fascists” in Nevada County to spy on and report businesses if an employee has to temporarily “come up for air” from continuously wearing the suffocating masks. Even if the employees are practicing safe distancing. One of our Supervisors has on social media whipped up these Fascists to report to the county so enforcement officers can go out and inspect, issue citations and fines, and this is directed at all businesses, not just for restaurants—a bank was targeted! That is despicable and like the Gestapo or Stassi secret police.

Some of our businesses have been physically attacked and vandalized already by vigilantes who are empowered by the draconian measures being taken by our county and believe they have the right to take matters into their own hands. Passage of this Ordinance will make this issue worse. We are now a lawless society, enabled and encouraged by our County’s staff and Supervisors.

The Governor is promising monetary aid to our county for legitimizing his dictatorial and illegal orders. A small benefit for the much greater damage that will be inflicted on our county’s businesses for years to come.

The number of cases identified in the US has risen, based mainly on more frequent testing. But the death rates are dropping around the country because of better understanding of the virus and how to treat it. The single death in Nevada County was to a very elderly person with terminal cancer who wanted to spend her last days in her Truckee home. There are only 20 active cases in our county as of today.

You are shooting yourselves in the foot. When all these businesses close due to your fining measures, where will your salary come from?

Thank you for considering this matter from a common sense point of view.

As A tax pair on six pieces of property in the County of Nevada. I have served on advisory committees 14 years and lived here for 44 years. I Am a disable vet ,and I Served my country. Question are you ready to provide masks to everyone in the county? There are many to count even afford them now they say you can't wear paper masks etc. It is time to give this a lot more thought. Our governor just backed away because of wrong reports being given are not giving from our computer systems in our state that has caused a lot of confusion. Don't be part of it. Best regards

Dear Supervisors Hall, Scofield, Miller, Hoek and Anderson:

I am writing to strongly oppose Item 26, the temporary Urgency Ordinance related to enforcement of COVID-related.

I am asking that the BOS allow this issue be heard in front of a live community audience. Ours is the only county in the state to have the Supervisors hide from the public. Social distancing can be practiced in BOS chambers if that is your concern.

Our county residences and businesses are taking the threat of COVID-19 very seriously as evidenced by a very low rate of 3.31/1,000 population, and only one death purported to be of an elderly cancer patient. The very fact that this death, although tragic, be reported as a COVID death is preposterous. Do not allow our county to be ruled by draconian measures applied by a Governor or other state official. Our county is unique and has proven that we can social distance as appropriate without outside influences.

I urge a NO vote on item **26**.
