Further the Parties agree that Contractor shall perform the work required herein free from the control and direction of County, and that the nature of the work is outside the usual course of County's business. In performing the work required herein, Contractor shall not be entitled to any employment benefits, Workers' Compensation, or other programs afforded to County employees. Contractor shall hold County harmless and indemnify County against such claim by its agents or employees. 10. **Assignment and Subcontracting** Except as specifically provided herein, the rights, responsibilities, duties and services to be performed under this Contract are personal to Contractor and may not be transferred, subcontracted, or assigned without the prior written consent of County. Contractor shall not substitute or replace any personnel for those specifically named herein or in its proposal without the prior written consent of County.

Contractor shall cause and require each transferee, subcontractor, and assignee to comply with the insurance provisions set forth herein, to the extent such insurance provisions are required of Contractor under this Contract. Indemnifying Party also agrees to bear all other costs and expenses related thereto, even if the claim or claims alleged are groundless, false, or fraudulent. This provision is not intended to create any cause of action in favor of any third party against either Party or to enlarge in any way either Party’s liability but is intended solely to provide for indemnification of the Indemnified Party from liability for damages, or injuries to third persons or property, arising from or in connection with Indemnifying Party’s performance pursuant to this Contract. Section III- Willow Glen Care Center

Introduction

The Willow Glen Care Center (WGCC) is a 60 bed, long-term Residential Care Facility for the Elderly in Yuba City, California. The facility is licensed by the Community Care Licensing Division of the California Department of Social Services. The Center specializes in serving elderly and other adults with dementia and other mental health conditions. Willow Glen Care Center is operated by a nonprofit, 501(c)(3) corporation in California.

Mission Statement

The mission of the Willow Glen Care Center is to provide quality, low cost, long-term mental health, residential care to the elderly with dementia and other mental health conditions in Northern California.

Program

The Willow Glen Care Center will operate a 24-hour, long-term residential care facility for the elderly and other adults with dementia and other mental health conditions. The primary focus of the program is continuous diagnostic assessment of the individual's mental health status, prevention of a mental health crisis, stabilization and maintenance of the mental health condition, and transitional planning with appropriate referrals. It is intended for individuals who have an identifiable dementia or mental health condition or crisis requiring temporary or long-term placement outside of their home.

Willow Glen accepts "voluntary" adult residents who are referred from County agencies or community mental health providers who meet the admission criteria established for the program.

The desired outcome for residents and their families is a successful stable placement in a transitional or long-term care program that provides a safe environment, specialty mental health services, self-respect and personal dignity.

Placements at Willow Glen are intended to deal with the problems identified by facilities not specializing in mental health. Residents will only be discharged or transferred from this facility when: 1) the resident has successfully completed a treatment plan and no longer needs residential or rehabilitation services, 2) the resident legally requests a transfer or discharge, or 3) the resident needs a higher level of medical or psychiatric care.

Willow Glen will have established relationships with other providers to handle medical back-up, emergencies, higher levels of care and other referral needs. It is expected that all residents moving to a lower level of care (e.g. board and care) would be returned to the county of origin for placement.

Nondiscrimination

Consistent with the requirements of applicable federal or state law, the Contractor shall not engage in any unlawful discriminatory practices in the admission of beneficiaries, assignments of accommodations, treatment, evaluation, employment of personnel, or in any other respect on the basis of race, color, gender, religion, marital status, national origin, age, sexual orientation or mental or physical handicap.

The Contractor shall comply with the provision of Section 504 of the Rehabilitation Act of 1973, as amended, pertaining to the prohibition of discrimination against qualified handicapped persons in all federally assisted programs or activities, as detailed in regulations signed by the Secretary of Health and Human Services, effective June 2, 1977, and found in the Federal Register, Volume 42, No. 86, dated May 4, 1977.

Patients' Rights

The parties to this contract shall comply with applicable laws, regulations and State policies relating to patients' rights.

Average Length of Stay

Placements for many Willow Glen residents will be long-term. Long-term care for some residents with an active mental health condition may be up to eighteen months before a referral is made to a lower level of care. Some residents may stay beyond the average length of stay of eighteen months depending on their mental health status. All residents will be reviewed monthly for medical and service necessity.

Program Goals

- a. To provide a 24-hour long-term care program for mentally ill adults who have an identifiable dementia or other mental health condition.
- b. To provide professional and specialty mental health services designed to meet the needs of residents and their families.
- c. To prevent crises, stabilize and maintain the mental health condition and improve the functioning of the resident.

- g. To be in compliance with goals, objectives and requirements of County's Managed Care Mental Health Plan.

Program Objectives

- a. To develop program components, methods and systems to meet the needs of the elderly with dementia or mental illness.

- d. To develop and monitor quality standards appropriate to the efficacy of care of residents and their families during their stay.
- e. To develop and monitor outcome measures to determine resident progress.
- f. To maintain consumer, agency and provider relations for the benefit of the resident and their family.

Program Elements

The program at Willow Glen is designed to prevent mental health crises, stabilize and maintain the mental health condition and aid the resident with daily living skills, personal care assistance, socialization and information and referrals to other services or a less restrictive living situation.

Structured services and activities are offered to residents during day and evening hours, seven days per week. A general outline of the services is as follows:

1. Crisis Intervention – This intervention method is used individually and with family members when a resident presents with behavior or emotions out of control, or when situations arise that have the potential to be out of control. The intervention utilizes individual counseling/intervention techniques that allow the resident to be expressive in a safe environment, to engage in problem solving and to participate in rational decision-making activity. The intervention may involve active participation by qualified Center staff to resolve emergency health and safety needs, and conduct other mental health assessments. This element is available to residents twenty-four (24) hours per day, seven (7) days per week.
2. Psychopharmacologic Medication Evaluation and Management – All residents will be assessed by a psychiatrist for current and continued pharmacological needs at the time of admission and as needed during the resident's stay at the Center. Additional needs for medication will be referred to the resident's family physician or the consulting primary care physician. All medication used at the Center will be ordered by a physician and monitored by qualified Center staff. Residents will self-administer medications under Center staff supervision. Medications will not be used as a substitute for staff or for limiting or restricting residents' rights.
3. Day Rehabilitation Service – Contractor is certified as a Medi-Cal provider for Day Rehabilitation Services. Day Rehabilitative Services provide specific services, interventions and activities to maintain or restore personal independence and functioning. Service activities include assessments, evaluations, treatment planning, therapy, rehabilitation activities and collateral coordination and support for the resident. Services are provided on a referral basis from the Medical Director or the Mental Health Agency. These services are provided seven days per week for 5 – 8 hours per day.
4. Family Counseling – Family involvement in the progress and/or treatment of the resident is a priority. Additionally, family guidance and support will be provided to assist the family with difficult placement issues e.g. guilt, abandonment, anger, unresolved family problems. Services will be provided on a scheduled basis by appropriately trained and/or credentialed staff. Therapeutic family goals will be established and facilitated by the family counseling element.
5. Medical Service Referral – Residents with medical conditions or emergent medical needs will be referred to appropriate medical services or assisted with making arrangements with their primary physician or other health care provider. When appropriate, professional care may be provided in the Center by qualified consultants or other qualified providers. If a higher level of care is indicated and the resident needs temporary placement outside of the Center, every attempt will be made to secure the resident's return placement.
6. Community/Peer Support Groups – Residents and their families will be aided by both internal and external participation in groups including Alcoholics Anonymous, Narcotics Anonymous, Alanon, California Alliance for the Mentally Ill, Alzheimer's Support Groups and others as necessary and as available to the residents at the Center. Some of the groups may be held at the Center for the benefit of the resident. Most meetings will be in the community and involve others besides the residents of the Center. The goal of this program element is to link residents and their families with community support systems according to their needs.
7. Resident Advocacy – Advocacy services are offered to all residents and their families in general through scheduled information meetings at the Center. Residents with special needs will be coordinated with proper county agencies such as Adult protective Services, the County Conservator and the County

Mental Health Case Manager. Information would include, but is not limited to, assistance with living arrangements, financial aid, treatment referrals, medical services, legal advice and disability services.

8. Community Socialization – Community interaction is a key program element for residents. Planned community involvement is scheduled regularly to involve residents with community activities related to normal daily living skills, recreation, social gatherings, education and church. Resident abilities are assessed and goals are established for each individual to determine the most appropriate activity. Family participation is encouraged in most activities.
9. Therapeutic Community – Residents will participate in decisions related to their individual needs plans, as well as, the small community in which they reside. Daily meetings are planned to: deal with problems of the residents living together; plan activities; assign duties; address complaints and support each other.
10. Planned Activities – A planned activity schedule will be posted on the resident's bulletin board weekly which represents the efforts of the residents and staff to design activities that will best meet the needs of the residents. The activities will represent the social, recreational, educational and spiritual needs of the residents, both individually and collectively. Special efforts will be made to allow for family participation in the activity schedule. Activities may include arts and crafts, physical activities, exercises, music, gardening, shopping, cooking, community events, chapel, picnics, movies and games.
11. Daily Living Skills – Residents will be responsible for some of the normal daily living responsibilities at the Center. Cleaning personal and common spaces, personal laundry, grooming and hygiene are activities that most residents will be able to engage in without much assistance from staff. However, if residents are not able to perform the routine tasks of daily living because of a debilitation or disability, staff will assist the resident with these tasks and work to help the resident work through the debilitation or provide ongoing assistance to those with disabilities that will not be corrected during their stay at the Center.
12. Brief Case Management – All residents will be supported with on-site case management services during their stay at the Center. These services will coordinate with all external agencies that are involved with the resident. Special cooperation will be given to the County Case Manager assigned to the resident. Each resident will be afforded the opportunity to participate in the planning of their needs plan. The resident's family will also be given the opportunity to provide input into the plan of care. At discharge, the resident will be given a plan for continued care which describes how to access further treatment, support groups, assistance from other agencies and information on what to do if they are confronted with a future potential placement problem.
