## **NEVADA COUNTY BOARD OF SUPERVISORS**

### **Board Agenda Memo**

---

**MEETING DATE:** April 11, 2017

**TO:** Board of Supervisors

**FROM:** **Laura Pappani, County Librarian**

**SUBJECT:** Resolution proclaiming April 9 through April 15, 2017 as National Library Week in Nevada County

---

**RECOMMENDATION:** Adopt the resolution.

**FUNDING:** Not applicable.

**BACKGROUND:** For almost six decades, the American Library Association has sponsored the national observance in April of National Library Week to celebrate the contributions of libraries in the United States and to promote library use and support. This year's theme is "Libraries Transform."

Nevada County supports its libraries, as evidenced by the passage of Measure A last November. In turn, the Library supports the community, providing books and other materials for pleasure and learning, classes and programs for enrichment and exploration, access to information and technology, and a comfortable place to relax, research, have fun, and/or work.

We strive to provide a welcoming environment and excellent customer service to all who come through our doors, or who reach us by phone or email. As we respond to the public's wishes for more services, programs, and items to borrow, the Nevada County Community Library appreciates the opportunity we have to work with our community to improve, understand, and transform.

**Item Initiated and Approved by:** Laura Pappani, County Librarian
