A resume or additional sheets may be attached containing any information that would be helpful in evaluating your application. Letters of recommendation and references for support are encouraged, but not required.

- Please provide a narrative that describes your experience or expertise related to the category you selected.

My husband and I moved to Nevada County in July 2006 and have owned our home at [REDACTED] Nevada City since January 2006. It is my desire to continue to live here and enjoy the many offerings our community provides without our neighborhoods being degraded by the odor and other nuisances caused by marijuana cultivation while at the same time conforming with the right of people to cultivate marijuana under California law.

- Please provide your last two years of employment history, if any, including name, address, phone number and e-mail address of your employer and a brief description of your job duties. If self-employed, please provide the business address, phone number, and a brief description of your business.

Retired Corporate Financial Planning Director

- Please describe your relevant qualifications to serve on the Community Advisory Group.

I have held many leadership roles throughout my career which required me to work with people around the world. I am a strategic thinker who looks for solutions that best solve the problems/issues at hand with an eye toward the long-term success of the major stakeholders. I believe in respectful cooperation among all interested parties and necessary compromises that may need to be agreed upon in order to solve the issue at hand.

- Please explain why you wish to serve on the County's Community Advisory Group.

This community is my home and I want to see it thrive by having diverse offerings to our community members and for those who may visit or consider living here in the future. It is important to me that our community does not develop a reputation of being a "pot community". I am not against people growing marijuana for their own use and I respect the current law that allows people to do so, but I want to make sure the parameters put in place to govern the cultivation of marijuana serve all the citizens and not just those who are the cultivators.

- Are you now or have you ever been affiliated (as an officer, owner, director, trustee, partner, advisor, consultant, etc.) with any cannabis businesses? If yes, please explain. Yes ☐ No ☒
- Do you own real property, personal property, financial holdings, or receive income from any source which might present a potential legal conflict of interest, or appearance of conflict of interest, with your requested appointment? If yes, please explain. ☐ Yes ☒ No

Communication Style and Openness to Other Perspectives

- Please provide a short paragraph describing your interest in and willingness to be open to other perspectives and new information.

I am interested in the unique qualities of each person's opinion and perspectives. I recoil at generalizations because they are not productive; I am interested in facts and realities that relate to the objectives that are trying to be attained.

I am a strategic thinker who is able to sort through the clutter and break complex issues down into manageable pieces to chart the best path forward. I can see commonality where others may only see differences.

Association/Organizational Experience

- Please describe any experience you have participating in a group advisory, committee or decision making process.

During my career I was responsible for the forecasts and budgets at major corporations. I had to work with Department Heads throughout the organization, domestically and internationally, to ultimately formulate financial budgets that substantially met the needs of the various divisions while still meeting the company's overall financial objectives.

- Please list any of your past or present affiliations with associations or organizations.

Currently volunteer at the organizations below:

ReadUp! Nevada County Library, tutor

Book Buddy Program Nevada County Library, Program Coordinator

The Friendship Club, various volunteer roles throughout the year

Past volunteer roles: Child Advocates, CASA; Family Resource Center, tutor

Yes ☒ No ☐

If not, when are you available to attend meetings.

Member protocols

I hereby submit my name for consideration to serve in an advisory capacity to the Nevada County Board of Supervisors. In doing so, I understand that:

1. Persons serving on the Community Advisory Group must agree to follow and abide by all guidelines and protocols established by the County regarding civil discourse, active listening and communication, media protocols and, when appropriate, confidentiality.
2. Persons serving on the Community Advisory Group must agree to attend all meetings of the CAG unless excused by the Community Development Director for good cause. Consistent attendance by members of the CAG is critical to the success of this process.
3. Persons serving on the Community Advisory Group shall be volunteers and shall serve without compensation. Reimbursements for certain required incidental expenses will be allowed only at the discretion, and with pre-approval, of the Community Development Agency Director.
4. Persons serving on the Community Advisory Group will be required to complete a Fair Political Practices Commission (FPPC) Form 700, Statement of Economic Interest disclosing their personal assets and income.
5. Persons serving on the Community Advisory Group are appointees of the Chair of the Nevada County Board of Supervisors and serve at the will and pleasure of the Board.

I have been growing medical cannabis for personal use for the last 10 years. I am a 100% organic farmer

- Please provide your last two years of employment history, if any, including name, address, phone number and e-mail address of your employer and a brief description of your job duties. If self-employed, please provide the business address, phone number, and a brief description of your business.

I am a self employed farmer. Business ~~and~~ phone number and address the same as listed.

- Please describe your relevant qualifications to serve on the Community Advisory Group.

I am a long-time resident of Nevada County and I have raised produce here for more than 10 years. I have cultivated medical cannabis for 10 years

- Please explain why you wish to serve on the County's Community Advisory Group.

I want to serve on the committee because I am concerned that the future ordinances should give precedence to outdoor cultivation, not indoor cultivation. Outdoor cultivation uses far fewer chemicals and 100% organic nutrients than indoor cultivation. Clean Cannabis is the goal.

A resume or additional sheets may be attached containing any information that would be helpful in evaluating your application. Letters of recommendation and references for support are encouraged, but not required.

- Please provide a narrative that describes your experience or expertise related to the category you selected.

I have been practicing law for 39 years, the last 30 in Nevada County. I have been involved in the criminal aspects of cannabis prohibition throughout my career. Since the Compassionate Use Act I have also been involved in advising individuals on compliance with state law and county ordinances regarding cannabis and cultivation. I have represented a number of individuals on appeals from violation of the county ordinance over the last four years.

I have been a member of panel discussions on cannabis cultivation as a legal expert for ASA-NC and SYRCL. I write a column on the legal aspects of cannabis for the Nevada County Cannabis publication.

- Please provide your last two years of employment history, if any, including name, address, phone number and e-mail address of your employer and a brief description of your job duties. If self-employed, please provide the business address, phone number, and a brief description of your business.

I have been a self-employed attorney since 1983. I have been a sole practitioner since 2002. Business mailing address and phone and e-mail are above

- Please describe your relevant qualifications to serve on the Community Advisory Group.

As indicated above I am a recognized local expert on the legal requirements regarding cannabis under both state law and local ordinance. In this aspect of my professional life I have met with people with the full spectrum of views about cannabis use and cultivation.

- Please explain why you wish to serve on the County's Community Advisory Group.

I would like to promote and support a reasonable plan for Nevada County's participation in the new statewide system for regulation and use of cannabis and cannabis products. I am particularly interested in finding an elegant balance between the local economic interests, consumers, and impacts of commercial cannabis activity.

- Are you now or have you ever been affiliated (as an officer, owner, director, trustee, partner, advisor, consultant, etc.) with any cannabis businesses? If yes, please explain. Yes ☐ No ☒

- Do you own real property, personal property, financial holdings, or receive income from any source which might present a potential conflict of interest, or appearance of conflict of interest, with your requested appointment? If yes, please explain. Yes ☐ No ☒

Communication Style and Openness to Other Perspectives

- Please provide a short paragraph describing your interest in and willingness to be open to other perspectives and new information.

As an attorney I am trained to state a point of view for a client. In order to do that persuasively I have always found it necessary to understand every point of view about the situation. I have also developed good research skills, and empathy for people from all walks of life and with disparate views. I believe all of this experience can be applied to discover the real needs for cannabis policy in Nevada County, and crafting an ordinance to address those needs.

Association/Organizational Experience

- Please describe any experience you have participating in a group advisory, committee or decision making process.

In college I was chair of the student association communications board and the finance board the next year. I have chaired volunteer community organizations (town council etc) and served on boards of legal organizations (California Attorneys for Criminal Justice (CACJ)). I have served on Boards of several small non-profits over the years, dealing with issues of drug abuse, incarceration, mental illness etc. I have been on the CACJ legislative committee for seven years, involved in drafting, supporting and opposing legislation, including meetings with legislators and committee staff.

- Please list any of your past or present affiliations with associations or organizations.

Member of CACJ, past board member and officer, legislative committee; NACDL (National Association of Criminal Defense Lawyers); SYRCL member, event sponsor, legal panelist;

I am the producer of the Nevada County Cannabis Cup, which is an annual cannabis education and business expo that focuses on Nevada County. The Nevada County Cup took place this year, March 18-19, at the Grass Valley Holiday Inn. We were able to work in coordination with local authorities to create a successful event.

I am also a local cannabis consultant. I provide consultations regarding best practices, suitable properties, as well as cannabis business and marketing.

I produced "The Future of Cannabis; A Free Town Talk," at the Nevada Theatre in Nevada City, January 30, 2017, and was aired live on KVMR.

I am a veterans advocate and have spoken at the California State Capitol about veterans and medical cannabis use. A former Marine Corps Infantry Sergeant [REDACTED]

- Please provide your last two years of employment history, if any, including name, address, phone number and e-mail address of your employer and a brief description of your job duties. If self-employed, please provide the business address, phone number, and a brief description of your business.

CEO Land-4-215.com [REDACTED]

I founded Land-4-215.com in 2009 and worked there until January of 2016.

Land 4 215 was founded to provide land and land-use consulting to patients and caregivers seeking to farm their own medical cannabis.

CEO 420FarmLandUSA.com [REDACTED]

In 2016 I founded 420FarmLandUSA.com and work there currently, providing cannabis consulting to farmers, land owners, real estate agents and businesses interested in the cannabis industry

- Please describe your relevant qualifications to serve on the Community Advisory Group.

Founded 2 very successful cannabis companies, that do not produce cannabis.

Former military police officer.

Produce cannabis events.

Serve on the board for KVMR.

Consult people and companies new to the cannabis industry on a daily basis, as well as entities that are already in the cannabis industry.

Excellent Communication Skills.

Medical Cannabis Patient

- Please explain why you wish to serve on the County's Community Advisory Group.

I am a Gold Country native, and a Marine Corps veteran. I feel a duty to serve this group, as I have experience in both law enforcement and the cannabis industry. My unique insight will prove to be an invaluable tool to those with varying viewpoints about the future of cannabis regulation. I love Nevada County, and believe this is an important moment in our county's history.

- Are you now or have you ever been affiliated (as an officer, owner, director, trustee, partner, advisor, consultant, etc.) with any cannabis businesses? If yes, please explain. Yes ☒ No ☐

Yes, I am the manager of 420FarmLandUSA.com, which leases land for legal cannabis production. Previously owned Land-4-215.

- Do you own real property, personal property, financial holdings, or receive income from any source which might present a potential conflict of interest, or appearance of conflict of interest, with your requested appointment? If yes, please explain. Yes ☒ No ☐

I receive money from tenants who are cannabis farmers, and make my living from the cannabis industry but do not see this as a conflict of interest, but a unique vantage point from which to view the industry and its relationship to other local industries. I note this in the interest of transparency.

Communication Style and Openness to Other Perspectives

- Please provide a short paragraph describing your interest in and willingness to be open to other perspectives and new information.

I believe the key to making democracy work is the willingness and ability to take seemingly opposing ideas and find commonalities that allow those opposing ideas to exist together for the benefit of both sides. America was founded on the principle that many people with varying views can live together in a productive and safe society. I would be honored to work with anyone, regardless of their viewpoint, if their desire is to create a positive result for the citizenry. I have worked as a military police officer, and in the cannabis industry. This allows me to understand both the public safety side, as well as the industry side of the conversation.

Association/Organizational Experience

- Please describe any experience you have participating in a group advisory, committee or decision making process.

I serve on the Board of Directors for KVMR 89.5 FM. I am on the Fund Development Committee, Station Development Committee, Board Development Committee, and am also a broadcaster at KVMR.

- Please list any of your past or present affiliations with associations or organizations.

United States Marine Corps

KVMR

Nevada County 4x4 Recovery Club, which provides free roadside service to off-road motorists

I am NOT a member of the Nevada County Cannabis Alliance, which should be noted.

Dear Philip,

Thank you for submitting your application for the Community Advisory Group (CAG) to gather community input and provide recommendations for the Nevada County cannabis ordinance.

Please note the Board of Supervisors approved a change to the CAG application form at its April 25, 2017 meeting.

These changes include:

On page 1 – The addition of three categories under the Applicant Expertise section, including:
Homeowners' Association
Homeowner
Agricultural interest

On page 3 – The addition of the word "legal" to the second question, to now read as "Do you own real property, personal property, financial holdings, or receive income from any source which might present a potential legal conflict of interest, or appearance of conflict of interest, with your requested appointment?"

Please respond to this email and indicate:

Statement of Interest

My interest in serving on this committee is to balance the safety and concerns of all of our communities' children and their parents, with the rights of the community at large. I feel this is an opportunity to keep the kids first and still allow for some freedoms granted by the recent initiative passing.

Some of the skills I can bring to your committee include win/win negotiations, business /financial knowledge. I have developed and maintained numerous community contacts. This background will be a great help with the upcoming work on your committee.

I have lived in Nevada County since 1988. Since moving here, I have held positions with Wells Fargo Bank as a Business Banker, Sierra Central Credit Union as a Branch Manager and later as a Regional Manager. I then worked at Placer Community Credit Union (now First US Credit Union) as a Department Manager. I also worked with the US Census Bureau as a Crew leader during the decennial census. I was then hired as a permanent employee and worked as a surveyor for two years with year round Census Bureau surveys. The last position required an extensive security clearance and background check.

I have also been active in community organizations including FREED as a Board Member, and the Kiwanis Club.

I have had the unique opportunity to serve on both the County Board of Education for 4 years, and our local Grass Valley School Board for 12 years. For the last several years, I have also served as the Board representative to the District's Interest Based Bargaining team. This team meets monthly and uses a common sense approach of win/win discussions to find common ground and devise solutions to any issues/challenges our District faces.

Thank you for your consideration.

Respectfully,

Thomas J. Petitt

A resume or additional sheets may be attached containing any information that would be helpful in evaluating your application. Letters of recommendation and references for support are encouraged, but not required.

- Please provide a narrative that describes your experience or expertise related to the category you selected.

I have been the elected President of our Association for over 5 years. Golden Oaks is a private road association with 120 lots. Most average at least 20 acres, with some 10 acre and some 40 acre parcels. Marijuana has been grown throughout this area and I have been asked by many neighbors for information pertaining to what is allowed. I have attended several supervisor meetings pertaining to Pot and have done a lot of reading about both the medicinal qualities, the problems with growers and how other states have dealt with legalizing both medicinal and recreational grows. I believe that it is very important to have members on this advisory group who represent those who live in neighborhoods that are directly effected by county and state regulations. A voice is needed in any decision process for those living in areas that will have interest in growing marijuana.

- Please provide your last two years of employment history, if any, including name, address, phone number and e-mail address of your employer and a brief description of your job duties. If self-employed, please provide the business address, phone number, and a brief description of your business.

I am not employed. I am very active in my neighborhood as President. Supervising the bookkeeping, running meetings, communicating with neighbors are some of the many tasks I perform.

- Please describe your relevant qualifications to serve on the Community Advisory Group.

I have a 5 year college degree. I have lived in Nevada County for 20 years this summer. I have been active in many county related issues as well as for my immediate neighborhood. I am familiar with the issues created by marijuana growers. I am available to attend meetings.

- Please explain why you wish to serve on the County's Community Advisory Group.

I believe very strongly that a voice for those who live in areas that pot growers would like to have thier gardens in needs to be included in decisions that directly effect this area. I am knowledgeable of many issues that exist with this situaton and know that I can bring a calm and helpful voice to the process.

- Are you now or have you ever been affiliated (as an officer, owner, director, trustee, partner, advisor, consultant, etc.) with any cannabis businesses? If yes, please explain. Yes ☐ No ☒

Communication Style and Openness to Other Perspectives

- Please provide a short paragraph describing your interest in and willingness to be open to other perspectives and new information.
I have followed our local newspaer for nearly 20 years giving me a good grasp of our local areas needs and views. I am a realist and think it is important to help design a realistic system that can be adopted by many in our community. I have read and researched about how other states have been affected by legalizing pot and that kknowledge can be helpful in this situation. I do understand that there is a lot of information about both the health benefits of medical marijuana and the issues surrounding recreational pot.

Association/Organizational Experience

- Please describe any experience you have participating in a group advisory, committee or decision making process.
I have helped organize groups to attend Board of Superisor's meetings on various issues - including roads, trails and marijuana. I have also been active with NID to work toward getting water for our neighborhood. I am active in the Highway 49 Safety group and helped get Caltrans to create turn lanes for both Carriage Road and Brewer Road. As an active member of my neighborhood association, I have run meetings, attended meetings, and become quite good at gaining information.
- Please list any of your past or present affiliations with associations or organizations.
President of Golden Oaks Homeowners Association Board. Before being president, I was vice-president and a board member. I was Secretary for the now disbanded South Nevada County Raw Water Group.

A resume or additional sheets may be attached containing any information that would be helpful in evaluating your application. Letters of recommendation and references for support are encouraged, but not required.

- Please provide a narrative that describes your experience or expertise related to the category you selected.

While I am an attorney at law with 36 years of practice, I consider myself at this time a community advocate in my work with the Peace & Justice Center of Nevada County, and with other non-political groups in my work for social change. My experience includes organizing educational forums, music events, peace marches and other community events. These events are usually geared to a particular social or political issue at the time. I am passionate about working for ways to improve our lives on local, state, and national levels. These experiences have required that I work with people of every stratum of society, prepare legal documents, insurance, IRS filings, and other aspects of community events and organizing. I have many years of practice drafting legal documents, settlement agreements, property settlement agreements, and judgments. I have negotiated hundreds of divorces, and conflicts between disputing parties.

- Please provide your last two years of employment history, if any, including name, address, phone number and e-mail address of your employer and a brief description of your job duties. If self-employed, please provide the business address, phone number, and a brief description of your business.

I have been a self-employed attorney at law for nearly 30 years in Nevada County. My areas of practice include family law, family and divorce mediation, and estate planning services. My office is located at [REDACTED] in Grass Valley for the past 20 years, with telephone [REDACTED]. I own my home in Nevada City as well as this commercial property. I am well known in the community and I believe I have an excellent reputation as being fair, honest, and a strong advocate for my clients, as well as for numerous projects. My professional email is [REDACTED]. I am semi-retired for the past 3 years to give more time and attention to working on community projects. I continue to work part-time and provide divorce mediation services, as well as general law services, to many in the community. I regularly read and draft contracts and other legal documents.

- Please describe your relevant qualifications to serve on the Community Advisory Group.

I should think the Advisory Group would be benefitted by having one or more individuals trained in law and legal processes. The statutory framework of the newly enacted state laws on both medical marijuana, and recreational marijuana are lengthy, comprehensive and fairly complex. To decipher such laws and to keep compliant with such laws in developing a county ordinance will require skill in paying attention to detail, and experience in construing laws, both statutory and caselaw. Also, I have unique expertise in that in 2012 I actually drafted a county ordinance to address the growing concern of the use of recreational drones by the public. While the proposed ordinance never got off the ground, it did give me experience in drafting law.

- Please explain why you wish to serve on the County's Community Advisory Group.

I have watched how the county and the marijuana advocates have struggled over these last years to come to agreements and rules concerning the growing of marijuana and all the attendant difficulties by the community, in terms of the politics, the personal (and sometimes moral) objections, and so many more aspects. I am aware of the pros and cons on all sides from having clients in the medical marijuana business. I believe that my skills as an attorney will benefit the group because I have had many years experience reading statutes and caselaw, and know generally how the law works and how new county ordinance and regulations will be interpreted.

- Are you now or have you ever been affiliated (as an officer, owner, director, trustee, partner, advisor, consultant, etc.) with any cannabis businesses? If yes, please explain. Yes ☐ No ☒
- Do you own real property, personal property, financial holdings, or receive income from any source which might present a potential legal conflict of interest, or appearance of conflict of interest, with your requested appointment? If yes, please explain. ☐ Yes ☒ No

Communication Style and Openness to Other Perspectives

- Please provide a short paragraph describing your interest in and willingness to be open to other perspectives and new information.

In my years of practice as a family law attorney and mediator I have always had to be open-minded to the other's perspective and strived to take account of all sides of the problem. I have also had to learn excellent communication skills to deal with adversaries and clients. I pride myself in my mediation practice in that I know how to diffuse a potentially volatile situation, and I know how to bring conflicted parties to accord.

Association/Organizational Experience

- Please describe any experience you have participating in a group advisory, committee or decision making process.

As an attorney I have worked with a small group of lawyers and judges dealing developing protocol and local rules in the mediation and family law departments of the Superior Court.

I have served on the Board of Directors of the Peace & Justice Center of Nevada County for over 10 years. Over these years I have worked with groups of 5-7 people on projects and events, and I have also worked with smaller sub-committees in organizing many programs and events. I am also an active member of a non-political campaign working to pass the 28th Amendment to the US Constitution.

- Please list any of your past or present affiliations with associations or organizations.

Please see attached Narrative Statement

- Please provide your last two years of employment history, if any, including name, address, phone number and e-mail address of your employer and a brief description of your job duties. If self-employed, please provide the business address, phone number, and a brief description of your business.

Please see the attached resume.

- Please describe your relevant qualifications to serve on the Community Advisory Group.

I have a detailed knowledge of the Medical Cannabis Regulation and Safety Act ("MCRSA") and the Adult Use of Marijuana Act ("AUMA") and the regulations issued thereunder by various state departments. As described in greater detail in the attached resume, I also have many years experience in working with individuals, groups, businesses and governmental entities. In addition to my background and knowledge, I believe that my communication and people skills will be an asset to the group and help to foster an informed exchange of ideas which will hopefully result in consensus on as many issues as possible.

- Please explain why you wish to serve on the County's Community Advisory Group.

I strongly believe that it is essential for Nevada County to have an ordinance which permits commercial cultivation of cannabis in the appropriate zones and with protections and conditions which ensure that affected property owners and members of the community are not adversely affected. I also believe that it is possible to reach this goal if there is open and honest communication on the specific issues and problems involved, that this goal can be achieved. I hope to contribute my knowledge to this effort and also to use the communication and mediation skills I have developed over my career to facilitate the needed open and honest communication.

- Are you now or have you ever been affiliated (as an officer, owner, director, trustee, partner, advisor, consultant, etc.) with any cannabis businesses? If yes, please explain. Yes ☒ No ☐

I represent a number of cannabis related businesses on various compliance, business and litigation matters.

- Do you own real property, personal property, financial holdings, or receive income from any source which might present a potential conflict of interest, or appearance of conflict of interest, with your requested appointment? If yes, please explain. Yes ☒ No ☐

I receive legal fees for representing cannabis related businesses.

Communication Style and Openness to Other Perspectives

- Please provide a short paragraph describing your interest in and willingness to be open to other perspectives and new information.

Communication is at least a two way street, depending on how many people are involved. When it's a group, the most important aspect of communication is listening. I am also fond of the maxim that "when you're talking, you're not learning" and try to live by it.

Association/Organizational Experience

- Please describe any experience you have participating in a group advisory, committee or decision making process.

In my legal career, I have participated in numerous group decision making processes for law corporations and partnerships in which I was an owner, in complex multi-party and class action litigation, and also as Chairman and Vice-Chairman of Sequoia National Bank. In the latter capacity, in addition to my duties as director, I was also a member of the executive committee, the audit committee, and loan committee.

- Please list any of your past or present affiliations with associations or organizations.

Gold Country Le Tip - Vice President 2012 - 2014.

NARRATIVE STATEMENT

Narrative Statement

As a lawyer, I have represented numerous businesses and individuals in a variety of matters, including negotiation of business relationships and contracts, as well as disputes involving a variety of business and real estate matters. I have also dealt with numerous state, federal and local governmental bodies on a variety of disputed and negotiated matters. In 2010, I became interested in and began to study the California medical marijuana industry. The source of my interest was that a largely unregulated multi-billion dollar industry had been created by the "collective cultivation" exemption from criminal liability for various marijuana related offenses. Since that time, a small but significant part of my practice has involved representation of individuals and businesses engaged in the cannabis business. I am familiar with and have closely studied the Medical Cannabis Regulation Act ("MCRSA") and the Adult use of Marijuana Act ("AUMA"). A copy of my "white paper" summarizing California Marijuana Regulation is attached. I am currently preparing a summary of the proposed regulations for cannabis cultivation issued on April 28, 2017 by the California Department of Agriculture which I expect to complete by May 15, 2017. I have also kept apprised of the status of ordinances permitting commercial cannabis activities in various local governmental bodies, including Placer County, Sacramento County, Yolo County, Solano County, Alameda County, and the Cities of Richmond, Vallejo, and Santa Rosa. I also attended meetings of the Nevada City Planning Commission and City Council at which the Nevada City dispensary ordinance was considered.

Historical Background

Cannabis evolved in Mongolia and southern Siberia approximately 12,000 years ago, and has been used medicinally and recreationally for 5000 years, according to University of Kansas Professor Barney Warf, author of "High Points: An Historical Geography of Cannabis"

Archeological evidence of Cannabis use has been found in China and Siberia dating back to 2500 B.C. Cannabis was used medicinally in China as early as 4000 B.C. and was used recreationally as well. Chinese coastal farmers brought cannabis to Korea about 2000 B.C. or earlier, and to the South Asian subcontinent between 2000 B.C. and 1000 B.C. Cannabis came to the Middle East between 2000 B.C. and 1400 B.C. It was likely carried northward to present day Ukraine and Russia, and was then brought westward into present day Germany by nomadic German tribes. Cannabis apparently went from there to Britain during the 5th century with the Anglo-Saxon invasions and was also used by the Vikings.

Cannabis then migrated to Africa, reached South America in the 19th century and arrived in the southwest United States from Mexico with immigrants fleeing that country during the Mexican Revolution of 1910-1911. According to Warf, early prejudices against marijuana were thinly veiled racist fears of its smokers, promulgated by reactionary newspapers, blaming "marijuana smoking" Mexicans for property crimes, seducing children and engaging in murderous sprees." The plant was first outlawed in Utah in 1915, followed by 28 other states. In 1937, thanks to the efforts of Harry Anslinger, first Director of the Federal Bureau of Narcotics, Congress passed the Marijuana Tax Act, criminalizing possession of the plant throughout the country

Current Regulation

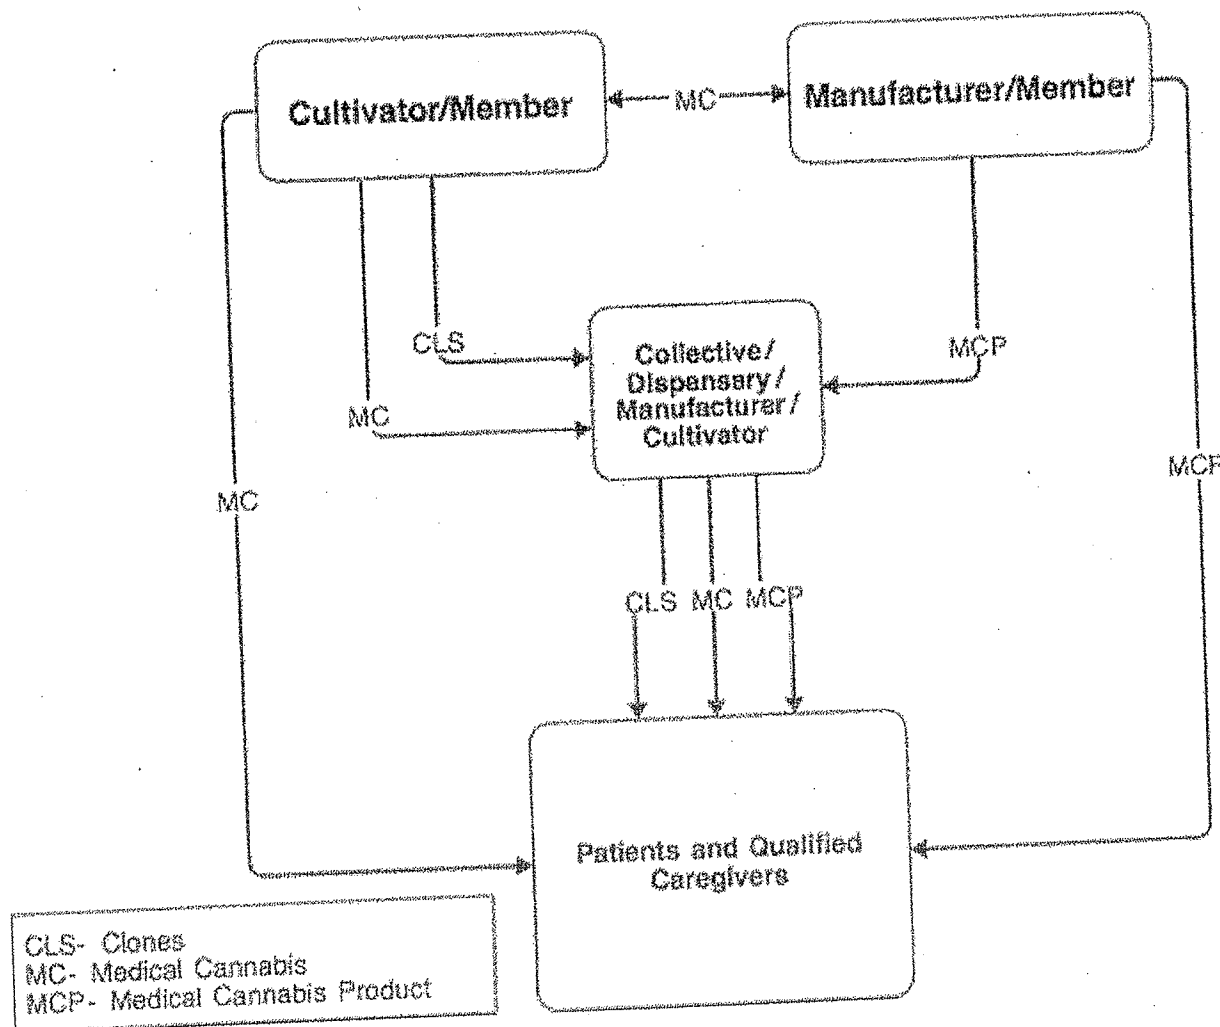

Both federal and California laws generally prohibit the use, possession, cultivation, transportation, and furnishing of marijuana. However, California statutes, the Compassionate Use Act of 1996 ("CUA") added by initiative, Prop. 215, and subsequent legislation, including the 2003 Medical cannabis Program ("MMP"), removed certain prohibitions on the ability of "qualified patients" to cultivate, obtain and use marijuana. It also permitted qualified patients and their designated caregivers to engage in collective or cooperative cultivation of medical cannabis. Numerous other states, following California's lead, enacted medical cannabis laws and several states have enacted laws permitted adult recreational use of Cannabis.

While federal prohibitions on virtually all cannabis related activities are unchanged, in recent years there have been significant changes to federal enforcement policy. The Department of Justice ("DOJ") currently operates under the so-called "Cole Memorandum," which outlines enforcement priorities, recognizes that numerous states have enacted medicinal marijuana laws, and essentially establishes the policy of non-prosecution of those who are lawfully engaged in the medicinal cannabis industry under state law. Section 538 of the 2015 Budget Appropriations Act forbids the Department of Justice from expenditures to prevent states from implementing

their medical cannabis laws. On October 19, 2015, United States District Judge Charles Breyer ruled that Section 538 prohibited the Department of Justice from taking any actions to enforce an injunction which it had obtained against a cannabis dispensary which the DOJ had obtained in 2002. The ruling was affirmed by the Ninth Circuit Court of Appeals, and was expressly based on the premise that the dispensary was at all times operating in compliance with the CUA and the MMP.

The MMP's exemption from criminal liability for collective or cooperative cooperation created the medical cannabis industry as it exists in California today:

Fig. 1

MCRSA

In 2015, the Legislature adopted the Medical cannabis Regulation and Safety Act ("MCRSA"), which will supplement and partially replace the MMP when it becomes effective. MCRSA creates a comprehensive scheme in which the cultivation, distribution and sale of medical cannabis will be regulated by existing state agencies (the Department of Consumer Affairs, the Department of Fish and Wildlife, the Department of Food and Agriculture, the Department of Health Services, the Department of Pesticide Regulation, the Department of Public Health, the Board of Forestry and Fire Protection and the Water Resources Board) and overseen by the newly created Bureau of Medical cannabis Regulation under the Department of Consumer Affairs. It currently appears that the MMP's exemption for collective cultivation will expire on January 1, 2019.¹

MCRSA creates a highly regulated, closed market which separately licenses cultivation, manufacture, inspection, distribution, transportation and sale of medical cannabis and medical cannabis products and requires licensees to engage in medical cannabis transactions only with contract only with other licensees. There are 17 separate licenses – 10 for cultivation, 2 for manufacturing, 2 for dispensaries and 1 each for testing, transportation and distribution. Restrictions on holding multiple licenses are designed to prevent industry concentration and vertical integration.

The Department of Food and Agriculture will issue licenses in four categories: Type 1 allows "specialty" cultivation of up to 5000 square feet of canopy size and "cottage" cultivation of up to 2500 square feet of canopy size; Type 2 allows "small" cultivation of up to 10,000 square feet of canopy size; Type 3 allows outdoor cultivation of up to one acre and indoor cultivation of up to 22,000 square feet of canopy size. The number of Type 3 licenses is to be "limited."

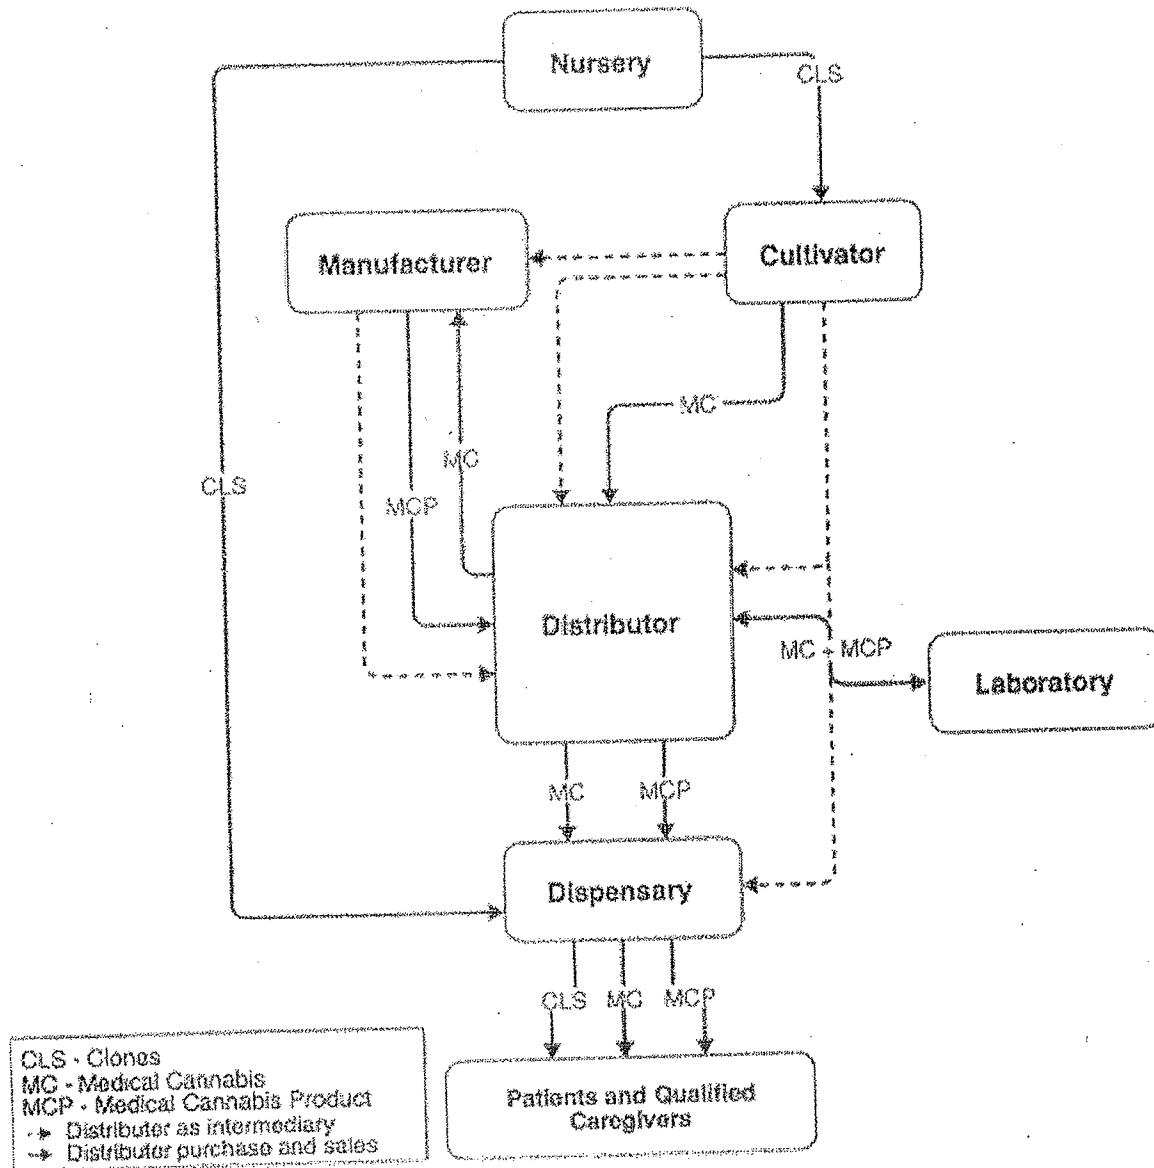

The Department of Agriculture will oversee a "track and trace" program covering all cannabis plants as well as medical cannabis and cannabis products from the nursery to the consumer. While cannabis plants in a non-flowering state may be transported by a nursery, all medical cannabis and medical cannabis products must be transported by a licensed transporter. Holders of cultivation and manufacturing licenses must send all medical cannabis and medical cannabis products to a licensed distributor who is required to first inspect the product for identity and quantity and then send a random sample to a licensed laboratory which will test medical cannabis for pesticides, molds and other contaminants and medical cannabis products for concentration and purity. After testing, the licensed laboratory issues a certificate of analysis that the product is fit for consumption or manufacture, as the case may be. Medical cannabis and MCPs must then be subjected to a quality assurance review to ensure "quality and content" and issued a "unique product identifier" before it is packaged, sealed and delivered to a licensee. While the distributor must be involved in the distribution process as described above, MCRSA permits licensed cultivators, manufacturers and dispensaries to negotiate price and terms directly, with the distributor being paid a fee for its services.

The following diagram depicts the flow of cannabis, medical cannabis and medical cannabis products from producer to consumer under MCRSA. Dotted lines represent

transactions negotiated between licensed purchasers and sellers in which the distributor is paid a fee for the services which it performs.

AUMA

Proposition 64 on the November 2016 ballot entitled "The Adult Use of Marijuana Act" ("AUMA") legalizes personal possession and cultivation of marijuana by adults for recreational use and also creates the framework for a commercial marijuana industry. For the most part AUMA incorporates and expands MCRSA. It adopts the same licensing structure, but adds

certain license classes – most notably and integrated “microbusiness” license allowing cultivation, manufacture, retail sales and, where permitted by local law, “on sale” premises where marijuana products can be consumed. It also creates an additional class of cultivation license permitting indoor and mixed light cultivation in excess of 22,000 square feet and outdoor cultivation in excess of one acre. While the licensing structure is similar, AUMA does not have the same prohibitions on holding licenses in different classes, although it does have other provisions which are designed to enhance competition by incorporating anti-trust concepts, including prohibitions on price-discrimination. Key provisions of MCRSA and AUMA are summarized and compared in Appendix 1.

The passage of AUMA will create a market structure very similar to that created by MCRSA:

Mr. Sean Powers, Director,
Nevada County Community Development Agency
950 Maidu Avenue, Suite 170
Nevada City, CA 95959

Dear Mr. Powers,

I am honored to write this letter of recommendation for Andy Wilson in support for his membership on the Cannabis Regulation Community Advisory Group. I have known Andy professionally and personally for over 30 years. He has always taken an interest in the betterment of his community through building consensus.

I have no doubt that Andy would bring a unique skill set to the Advisory Group with his ability to communicate effectively, be objective and thoughtful in his consideration of the issues, find reasonable solutions to complex problems, and in this particular case, bring people together over what has often been a divisive issue.

Please feel free to contact me with any questions or what else I might add to your consideration of Andy as a member of the Advisory Group.

Sincerely,

TO: Nevada County Board of Supervisors

The purpose of this letter is to endorse Andrew Wilson for a position on the Marijuana Advisory Board being formed.

We have used Mr. Wilson's services on several occasions for our business, beginning in 2010. He was a great negotiator and the outcomes were very favorable for our business. Mr. Wilson has our recommendation without reservation.

We realize this is a delicate issue and we believe Mr. Wilson would work diligently and tirelessly toward an amicable outcome for all parties involved. We highly recommend him for a position on this board.

Respectfully Submitted,

Dear Mr. Powers,

I am writing in support of Andy Wilson for membership on the Cannabis Regulation Community Advisory Group. I have known Andy for several years in various capacities. We were members of the community organization Le Tip, I have utilized his legal services, and he is a client at my veterinary practice. In all these scenarios, Andy is always gracious, warm and relaxed, but professional. He makes people feel at ease, really listens to what they say, and responds thoughtfully.

I feel that Andy would be a true asset for your commission as our county sorts through the challenge of developing a cohesive, sensible plan for this important issue.

Best regards,

Sean Powers, Director
Nevada County Community Development Agency

Dear Sean,

I own and operate a coffee shop here in downtown Nevada City. Over the years I've had the pleasure of getting to know Andy Wilson, as he is a regular and frequent customer of mine, and supporter of the downtown area.

Coffee shops invite a diverse group of people with personalities and viewpoints as different as their choice of beverage. I've witnessed Andy engage and interact with people from all walks of life, both locals and tourists. He has never failed to be gracious and well spoken while offering intelligent feedback, and at the same time, staying true to his convictions with integrity. It is because of the aforementioned and his long career as a business attorney that I believe Andy would be a huge asset to the Citizens Advisory Group for Cannabis Cultivation. He will serve the community well in this arena giving it reputable representation.

Should you need any further information or have any questions, please feel free to contact me.

With Regards,
