NEVADA COUNTY BOARD OF SUPERVISORS

Board Agenda Memo

MEETING DATE: November 14, 2017

TO: Board of Supervisors

FROM: **Jill Blake**

SUBJECT: Resolution approving execution of Amendment No. 1 to the renewal Subrecipient Agreement Number 9903-5320-71209-17-18 with the Essential Access Health (“Essential Access”) related to funding comprehensive reproductive health services which increases the maximum amount from \$46,860 to \$120,000 (an increase of \$73,140) and extends the term for a six (6) month period for a revised term of April 1, 2017 through March 31, 2018 and authorize and direct the Auditor-Controller to amend the Public Health Department’s Budget for Fiscal Year 2017/18 (4/5 Vote Required).

RECOMMENDATION: Approve the attached Resolution.

FUNDING: In 1970, Congress enacted Title X (Ten) of the Public Health Service Act dedicated to funding family planning and related reproductive health care services. In 1982, California Family Health Council, Inc. (now known as Essential Access Health), became the federally designated fiscal intermediary for Federal Title X funds in California. The Title X monies are passed through this designated fiscal agent for statewide distribution. The funding received from Essential Access Health helps to conserve Public Health’s Realignment contribution to the program. A budget amendment is included and requires a 4/5 vote by the Board Members. There are no county general fund dollars required in this Agreement.

BACKGROUND: Per Resolution No. 17-173, the Board of Supervisors approved the renewal Subrecipient Agreement with Essential Access Health for the term of April 1, 2017 through September 30, 2017 for the Title X comprehensive sexual and reproductive health and family planning program. The program is designed to improve access to quality healthcare and to provide community-based outreach and education pertaining to reproductive health. Managers and Medical Specialists in the County’s Program oversee the implementation, program quality, and regulatory

compliance of service delivery. The Title X funds allows for the outreach and partnering with other community partners for educational presentations and referrals related to reproductive health and for clinical services at the County's Truckee Clinic. There continues to be a high demand for these services at the Truckee County Clinic, as there are a limited number of other providers in the Eastern Region able to offer these services.

The services provided include:

- STD testing and educational services to decrease the transmission rates of Chlamydia and other sexually transmitted diseases;
- Pelvic exams, PAP tests, and breast exams to assist in the early detection of cancer and/or other reproductive health conditions;
- Referrals for clients who need further health or mental health services;
- Reproductive health education and basic contraceptive services so women are less likely to have an unintended pregnancy;
- Identification and referrals for patients with the following problems: high blood pressure, HIV positive, domestic violence and substance using/abusing including smoking.

It is recommended that the Board approve this Amendment as it will continue to provide an important source of funding to help sustain program services.
