## **SCOPE OF WORK**

**PLOWING:** Plowing shall consist of removing snow from the County roads as shown on Exhibit A. The service shall be provided seven (7) days per week, from October 1, 2017 to June 30, 2018, or as specified by County representative. Each street shall be plowed at least once for every 12-hour period during which minimum snow accumulation of 4" of snow is reached on roadway. Snow removal shall be of the entire width of pavement at all times.

**SANDING:** Approved traction control and de-icing materials shall be applied on Hirschdale Rd. and Glenshire Dr. from the Town limit to Hirschdale Road on an as-needed basis as conditions warrant or when instructed to sand by the Nevada County Department of Public Works, the County Sheriff or the California Highway Patrol.

# **EXHIBIT C**

## **METHOD OF PAYMENT**

The County shall reimburse the Town for Snow Removal Services on a cost per centerline mile basis. The total centerline mileage of Nevada County roads that the Town is providing snow removal services for is 3.1 miles. The snow removal cost per centerline mile will be determined based on the "Total Snow Removal Expenditures" reported in Schedule 8 of The Town of Truckee Annual Street Report that is submitted to the State Controller's office in November of each year. This value represents the total cost of snow removal for Town maintained roadways within the Town limits for the prior winter season. This value will be divided by the number of roadway centerline miles within the Town limits that the Town provides snow removal services for in order to determine the Town's cost per centerline mile for providing snow removal services. This value will then be used as the snow removal cost per centerline mile for the Nevada County roads covered by this agreement and as depicted in Exhibit A.

## **TIME OF BILLING**

On or after April 1 of each year, the Town will submit an invoice to Nevada County for \$40,000 which represents the estimated total snow removal cost for the preceding winters' snow removal services that were provided by the Town. On or after November 1 of each year (after the Annual Street Report has been submitted to the State Controller's office), the Town will provide the County with the calculation of the actual Town snow removal cost per centerline mile as described above. If the actual cost per centerline mile multiplied by the 3.1 centerline miles of Nevada County roads for which snow removal services are being provided exceeds the estimated amount of \$40,000, the Town will submit a supplemental invoice to the County for the difference. If the actual cost is less than the estimated amount of \$40,000, the Town will provide the County with a refund for the difference.
