W.E. 2.1 - Regional Transportation Planning: Technical Advisory Committee Meetings. Identify and analyze issues relating to integration of regional transportation and community goals and objectives in land use, housing, economic development, social welfare and environmental preservation. Identify and document transportation facilities, projects and services required to meet regional and interregional mobility and access needs. Define solutions in terms of the regional multimodal transportation system, land use and economic impacts, financial constraints, air quality and environmental concerns (including wetlands, endangered species and cultural resources). Assess the operational and physical continuity of the regional transportation system components within and between metropolitan and rural areas, and interconnections to and through regions. Incorporate transit and intermodal facilities, bicycle transportation facilities and pedestrian walkways in regional transportation plans and programs where appropriate. Participate with regional, local and state agencies, the general public and the private sector in planning efforts to identify and plan policies, strategies, programs and actions that maximize and implement the regional transportation infrastructure. 	Т	Т	т	т	т	т	Т	Т	т	т	т	Т				
Develop partnerships with local agencies responsible for land use decisions to facilitate coordination of regional transportation planning with land use, open space, job-housing balance, environmental constraints, and growth management.	Т	Т	Т	т	т	т	Т	Т	т	т	т	т				
Monitor existing traffic conditions and safety data.	Т	Т	T	Т	T	Т	Т	T	Т	Т	Т	Т				
Utilize techniques that assist in community-based development of innovative regional transportation and land use alternatives to improve community livability, long-term economic stability and sustainable development.	т	т	т	т	т	т	т	Т	т	т	т	т				
Participate in the review and update of the multiyear Congestion Mitigation Air Quality (CMAQ) project listing.	т	т	Т	т	Т	Т	Т	Т	т	т	T	т				
Review and comment on performance-based regional transportation plan documents and reports.	т	т	Т	Т	т	т	Т	Т	т	т	т	т				
Participate in planning and development of capital improvement programs that will be integrated into the Regional Transportation Improvement Program.	т	т	Т	Т	т	Т	т	Т	т	Т	Т	т				
Use partners to identify policies, strategies, programs and actions that enhance the movement of people, goods, services and information on the regional, inter-regional, and state highway system.	т	т	т	т	т	т	т	Т	т	т	т	т				
Conduct planning activities (including corridor studies, and other transportation planning studies) to identify and develop candidate projects for the Regional Transportation Plan (RTP) and Regional Transportation Improvement Program (RTIP).	т	Т	Т	Т	Т	Т	Т	Т	Т	т	Т	т				
Preserve existing transportation facilities, planning ways to meet transportation needs by using existing transportation facilities more efficiently, with owners and operators of transportation facilities/systems working together to develop operational objectives and plans which maximize utilization of existing facilities.	т	т	Т	т	т	т	т	т	т	т	т	т				
W.E. 2.4.1 - Local Road Safety Plan: \$9,16				-			-									
Engage other local agencies in Nevada County in developing a countywide Local Road Safety Plan.				Т	т	Т	Т	Т	т	т	т	т
