Grass Valley-Nevada City Cultural District

1. Define an Arts Master Plan for the Grass Valley-Nevada City Cultural District while supporting an overall county-wide Cultural Plan process that integrates the vision for both Grass Valley-Nevada City and Truckee Cultural Districts. For Grass Valley-Nevada City, an emerging priority within this – and a first step – is the development of a cultural economic impact study and, long term, sustainable funding mechanisms to support our cultural assets.
2. Develop a marketing plan for Grass Valley-Nevada City Cultural District, and internal communications which support broad representation from within our district.
3. Create an organizational infrastructure that supports the work of our District partners in carrying out its priorities.

Truckee Cultural District

1. Define an Art's Master Plan as part of Truckee's General Plan update (2019) while supporting an overall county-wide Cultural Plan process that integrates the vision for both Truckee and Grass Valley-Nevada City Cultural Districts.
2. Develop marketing / outreach strategy and collateral
3. Successful Truckee Cultural District organizational / communication structure which promotes diversity of representation / stakeholder engagement.

WHY ALL THIS SURVEYING?

Our surveys are a key component of countywide cultural planning

They recognize that Nevada County is unique in California as the only rural county home to two state- designated California Cultural Districts—*Grass Valley-Nevada City Cultural District* and *Truckee Cultural District*.

They take into account the support for, and reinvigoration of, arts education in our schools—as well as the broader social and economic value of arts and culture for all.

In the context of planning, our surveys will assist local leaders across all sectors in making decisions that will affect future generations, our quality of life, the livability of our region, and the likelihood of investment in it in years to come.

More public art is in Truckee's future with the town council's adoption of a Public Art Master Plan. The plan includes policies that define what public art is, potential art locations and how it will be funded.

"This is the town's guideline for the creation of public art throughout the community," Nick Martin, administrative analyst for Truckee. "The plan couldn't have happened without our local community, specifically our passionate local artists," he said.
