Despite progress in addressing explicit discrimination, racial inequities continue to be deep, pervasive, and persistent across the country. Though we have made many strides toward racial equity, policies, practices, and implicit bias have created and still create disparate results. Through partnerships with the community, Nevada County Department of Social Services strives to address these inequities and continue progress in moving forward.

Contractor is encouraged to have a diverse and inclusive workforce that includes representation from the disparate communities served by our county. Contractor will be expected to think holistically about creating services, program sites, and an employee culture that is welcoming and inclusive. Contractor should track metrics on Diversity, Equity, and Inclusion outcomes within their service delivery. Additional efforts should be made to identify and highlight growth opportunities for equitable outcomes, access to services, and other opportunities. Contractor should contact County contract manager about proposed metrics to track.

Services should be designed to meet clients' diverse needs. Contractor will be expected to participate in trainings and tailor outreach efforts and marketing materials to engage a diverse population of community members. Given that Spanish is a threshold language in Nevada County, a special emphasis should be placed on engaging Latinx communities and providing services in Spanish.
