New eComment for Nevada County Board of Supervisors August 10, 2021, Meeting

Rod Georgiu submitted a new eComment.

Meeting: Nevada County Board of Supervisors August 10, 2021, Meeting

Item: 30. SR 21-0622 Resolution approving the Request for Proposals (RFP) and award selection procedures for "Pines to Mines Environmental Assessment" contract, authorizing the Purchasing Division to advertise for qualified proposals, and directing the Auditor-Controller to increase the Fiscal Year 2021/22 Economic Development budget by \$100,000. (4/5 affirmative vote required)

eComment: I think that class 1e bikes should be allowed. It opens the trail to many people, perhaps older, perhaps handicapped in some way, to enjoy riding. This could improve their health, which would benefit everyone, by potentially reducing health costs.

Meeting: Nevada County Board of Supervisors August 10, 2021, Meeting

Item: 30. SR 21-0622 Resolution approving the Request for Proposals (RFP) and award selection procedures for "Pines to Mines Environmental Assessment" contract, authorizing the Purchasing Division to advertise for qualified proposals, and directing the Auditor-Controller to increase the Fiscal Year 2021/22 Economic Development budget by \$100,000. (4/5 affirmative vote required)

eComment: As a local Nevada County citizen, I strongly support the "Pines to Mines" trail proposal for the use and benefit of all user groups. Specifically, I want to speak in support of allowing class1 electric pedal assist bikes to enjoy access to these proposed trails. These types of bikes do not harm trails, and they allow users with compromised physical abilities to get out and enjoy our great outdoors

(4/5 affirmative vote required)

eComment: I also would like to express my support for "Pines to Mines" trail funding. I am a regular (leg power only) mountain biker. I greatly value an ethic that encourages all people to enjoy wild spaces in a supportive and respectful way. Therefore, I support Class 1 pedal-assist ebike use and including them for this new multi use trail. Assist limited to 20 mph. They are no louder than the nice hub on my bike, and ebikes are used all over Europe on multiuse trails without problems. Shelly

(4/5 affirmative vote required)

eComment: I support this project and encourage inclusion of Class 1 pedal-assist bicycles. These are not electric motorcycles. They provide assistance only when pedaling. My wife and I are 64 years old. Without pedal assist, my wife could not join me on rides and would not ride at all. The assist gives us the extra help we need to get up steep hills or complete a loop. If we get lost or take a wrong turn and get tired, the assist provides a safety margin. Please support your senior bicyclists!

(4/5 affirmative vote required)

eComment: I too strongly support Nevada Co funding the Pines to Mines Trail for all users, including e-bikers. There's enough divisiveness in this world, no need to close trails to only certain users here in Nevada Co. None of us are getting any younger and we will all eventually appreciate being able to access remote areas in our later years.

eComment: As a disabled senior citizen I am no longer able to use a standard bicycle on our streets or trail system. After purchasing an ebike. I have rejoined the bicycle community. Allowing access to our trail system would provide me another avenue to enjoy our local natural beauty.

eComment: I strongly agree on allowing ebikes on the trails. For some of us it's the only way to hit theme trails these days. My ebike allows me more mobility and some exercise.
