**California Medication Assisted Treatment Expansion Project:  
Allowable Expenditures**  
*Updated September 2020*

The following information is intended to provide California Medication Assisted Treatment (MAT) Expansion Project contractors with a general list of allowable activities and expenditures under California's State Opioid Response (SOR) grant. For information on what is allowable under federal grants, please see [45 CFR Part 75](#). For questions regarding specific allowable and unallowable activities and expenditures, please email us at [DHCSMATExpansion@dhcs.ca.gov](mailto:DHCSMATExpansion@dhcs.ca.gov).

**Terms & Conditions of SOR Grant Funding**

- Grant funds should only be used when no other funding source exists. Grant funds for allowable expenditures can only be utilized for: (1) services directly attributable to the MAT Expansion Project; (2) services to individuals who are not covered by public or commercial health insurance plans; (3) services to individuals whose coverage has been formally determined to be unaffordable; or (4) services that are not sufficiently covered by an individual's health insurance plan. Expenditures for services only partially attributable to the SOR grant must have sufficient rationale identifying cost-sharing allocations.
- SOR funds may only be utilized to provide services to patients that specifically address stimulant or opioid misuse issues. If either a stimulant or opioid misuse problem (history) exists concurrently with other substance use, all substance use issues may be addressed. Individuals who have no history of or no current issues with stimulants or opioids misuse shall not receive treatment or recovery services with SOR grant funds.
- No more than 5 percent of the total grant award may be used for administrative and infrastructure development costs. In addition, no more than 2 percent of the total grant award may be used for data collection and reporting. This is in addition to the 5 percent administrative and infrastructure development costs, which may also include data collection.
- Organizations receiving SOR funds may not deny any eligible client, patient or individual access to their program because of their use of FDA-approved medications for the treatment of substance use disorder. In all cases, MAT must be permitted to be continued for as long as the prescriber or treatment provider determines that the medication is clinically beneficial.
- Procurement of DATA waiver training is not an allowable use of SOR funds as this training is offered free of charge from SAMHSA at [pcssnow.org](http://pcssnow.org). No funding may be used to procure DATA waiver training by recipients or subrecipients of SOR funding, or to incentivize eligible providers to receive this training.
- Grant funds may not be used, directly or indirectly, to purchase, prescribe, or provide marijuana or treatment using marijuana. Grant funds also cannot be provided to any individual or organization that provides or permits marijuana use for the purposes of treating substance use or mental disorders.
- Contingencies may be used to reward and incentivize treatment compliance with a

maximum contingency value being \$15 per contingency. Each patient may not receive contingencies totaling more than \$75 per year of his/her treatment.

- Telehealth services and infrastructure are allowable expenses under the grant. Any infrastructure costs must be dedicated to provider telehealth infrastructure.
