

## COVID AND COMPANY and the Stockholm Syndrome

I submitted a plan that could end the pandemic to my district supervisor and Public Health. Don't know if it will be implemented, discussed, or even put on the agenda. COVID-has challenged our historical commitment to evidenced-based medicine, diversity of ideas, and inalienable rights. I believe we have been **kidnapped** by almost irresistible forces I am calling COVID and COMPANY.

Let me start with a classic example of the Stockholm syndrome.

Symbionese Liberation Army kidnapped Patricia Hearst. Like many Stockholm victims, she chose to identify with, even love her captors. Remember the photos of her robbing a bank holding a rifle?

Who kidnapped us and how did they do it? COVID came from the Chinese communists, the Wuhan Lab with support from US funded gain-of-function research.

The COMPANY piece comes from the WHO, NIH, FDA, CDC, AMA, big Pharma, "trusted news initiative," academia, Fauchi, public health, and Presidents Trump and Biden. COVID AND COMPANY kidnapped us.

"But that is impossible," you say. "They didn't lock us up."

Really?

They continuously injected fear into us with daily case and death reports. The media warned us 24-7 about COVID-19, a disease with an average overall mortality rate of approximately 1% depending on age.

Our kidnappers forced us to stay in our homes, abandon our friends, stop work, school, vacation plans, social activities. They told us to wear masks, get the vaccine or lose our jobs. We have to mandate shots to protect the protected from the unprotected. (~~Actually we all have to be protected from the protected because they are unknowingly spreading and increasing COVID-19 cases.~~)

We have been canceled online for sharing effective early interventions with each other.

When we got symptoms they told us to stay at home, isolate and wait for more acute symptoms. They lied, said there was no treatment. COVID-19 is bad enough, but COVID AND COMPANY made it worse.

As ethicist and psychiatry professor **Aaron Kheriaty** (care' ri-a'-ty) was being escorted from his workplace at UC Irving for refusing to get the jab, a security guard berated him for putting **his** life in danger. But Kheriaty had natural immunity far superior to vaccines.

I saw one of the first to get the COVID jab on TV. She cried tears of joy and gratitude. "Now I am free!" she exclaimed. "I can go back to living the life I want to live." She remained kidnapped by COVID AND COMPANY.

While highly vaccinated states have lower hospitalization and death rates compared to other states, their cases keep climbing. Israel with its increasingly higher peaks is a good example of that. So are Vermont and Nevada County.

We are collectively suffering from a mass psychosis based on irrational fear that impairs our ability to think clearly. When my wife told a friend she and four other family members treated COVID-19 successfully with ivermectin her friend said, "Well, you are one of the lucky ones."

Tell your fellow kidnap victims that the Pfizer jab was approved based on fraudulent data. Tell them the alleged vaccines are making the pandemic worse. Tell them we can end the pandemic. Run before they respond.

COVID didn't kill all 775,000 US citizens. COVID AND COMPANY killed and are still killing thousands of us. No wonder we are still suffering from Stockholm syndrome.

# IT IS THE VETERAN

*It is the VETERAN, not the preacher, who has given us the freedom of  
religion*

*It is the VETERAN, not the reporter, who has given us the freedom of the  
press*

*It is the VETERAN, not the poet, who has given us freedom of  
speech*

*It is the VETERAN, not the lawyer, who has given us the right to a fair  
trial*

*It is the VETERAN, not the politician, who has given us the right to  
vote*

*It is the VETERAN, not the protester, who has given us the right to  
assemble*

*It is the VETERAN, not the campus organizer, who has given us the right  
to demonstrate*

*And, it is the VETERAN who salutes the flag, who served under the flag  
and whose coffin is draped by the flag.*
